RARE COIN AUCTIONS

OFFICIAL AUCTIONEER OF THE PCGS MEMBERS ONLY SHOW

PRESENTS

THE REGENCY AUCTION
XXIII

OCTOBER 26 | PHILADELPHIA, PA | DOUBLETREE

Welcome to the 23rd Regency Auction! This is our largest and most valuable auction yet! We would like to thank the 52 consignors who entrusted their rare coins to our auction, including a large number of first time consignors. We have clearly proven over the course of the last four years that Legend Rare Coin Auctions' boutique venue and style gets strong results for our consignors.

You will be very impressed with the 548 hand selected lots in the pages that follow. We start off with the D.W. Collection. Assembled with care over the course of many years by a long-time customer of Legend Numismatics, the fruits of his labor appear as lots 1-55. There are many wonderful coins, including early and Seated dollars, and exceptional superb gem gold coins.

In the lots that follow the D.W. Collection are selections from the High Octane, Dale Larsen, and San Francisco Set collections. The High Octane group is primarily high grade copper coins, as well as a few key date Buffalo nickels. The selections from the Dale Larsen Collection are wonderfully toned type coins that were put back by a long-time coin dealer, and cover many types. The San Francisco Set features high end, toned Morgan dollars, mostly sourced from our offerings of the Sunnywood-Simpson Collection, as well as private purchases from our sister firm, Legend Numismatics.

Following the San Francisco Set, are additional Morgan dollars from various consignors, and include three of the highlights of the sale, the Eliasberg-Coronet 1892-S (PCGS MS67 CAC), the Eliasberg-Coronet 1893-O (PCGS MS66 PL CAC), and the world's most valuable Morgan dollar, the Vermeule-Coronet 1893-S (PCGS MS67 CAC—the FINEST KNOWN). These three coins present an unbelievable opportunity for any Morgan Dollar collector or trophy hunter!

Gold coins begin with our offering of an original, matched, GEM 1902 4-piece proof set. The \$5 and \$10 are both FINEST certified by PCGS for their issue, making this a remarkable offering. Then commences the current #2 PCGS Registry Set of \$10 Indians, the Crow River Collection, a set that is lacking only the extremely rare 1933 to be complete. Most of the coins were hand selected for this set by the principals of Legend Numismatics, so you know that each coin, graded by PCGS is high end and attractive! The sale continues with the gold coins from other important consignors, and ends with a great offering of high grade commemoratives, and selections from the Rainbow Warrior Collection.

We hope to see you in Philadelphia during the PCGS Members Only Show for our Regency Sale. Few places in the United States have as compelling a numismatic history as Philadelphia, seat of the first government during the Revolution, and the site of the first mint, and where to this day, a coinage facility operates, churning out the coins needed in day to day commercial transactions. It is fitting then that Legend's largest, most valuable offering is being offered in this locale. The staff at LRCA will be at your service. If you have any presale questions do not hesitate to call or email. If you are unable to attend in person to view, we have made arrangements with PCGS to have full lot viewing at the "Public Friday" event on October 13th in Santa Ana, CA. You may also contact us to preview the sale ahead of time in our office.

Happy collecting!

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of Pennsylvania are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. E-check payments available. Please call 732-935-1168 to set up your account. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final.

Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form

online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or

corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize,

accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

PRINCIPALS

Laura Sperber

Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan

Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Julie Abrams

President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. Teletrade developed a unique coin trading method, utilizing state-of-the-art digitized voice board technology to run live auctions before the advent of the internet. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company. Her job responsibilities included continuing her role as CEO for Teletrade as well as marketing to buyers and consignors, with the goal of maintaining a balance between inventory and sales while growing the business.

In 2004 she joined Stacks-Bowers, an old world traditional auction house where she worked to expand their e-commerce presence, including the development of an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

WELCOME TO THE DW COLLECTION

Legend Race Coin Auctions is honored to have been consigned the DW Collection of Type. We have known the consignor for many years, sold him many coins, and followed him through all his phases. No matter what he collected at the time-nothing was more important to him than real quality and great eye appeal. If you notice the vast majority of his coins are CAC. There are no average coins in this collection!

His model of buying the best and holding should serve as an inspiration to others. He did it all "his way" and got it right. The DW Collector never shied away from purchasing a great coin for premium money. The result of his pursuits is the marvelous collection we are offering today. He is selling because it is retirement time. We know he will miss his coins badly. However, we know he will be at great peace knowing his coins ended up in great collections.

We wish our longtime friend well and good luck on his well-deserved retirement.

THE DW COLLECTION

LOT 1

1C 1810 PCGS AU58 BN CAC

S-282. Medium to deep mahogany brown surfaces show only a slight hint of friction on either side. John Reich's design are crisply rendered. The eye appeal of this neat AU coin is quite nice. The planchet stock is hard and very pleasing!

PCGS 9, NGC 4, CAC 7. This coin last sold in July 2013 for \$7,050. Since that time, the Tom Reynolds S-284 which was also PCGS/CAC AU58 sold for \$9,694 in January 2016. The current PCGS Price Guide value is listed at \$7,500. A great E.A.C. coin for any type or date collector!

PCGS # 1549 | EST: \$6,500+

LOT 2

1C 1863 PCGS MS66 CAC

Boldly lustrous with a brilliant golden-tan luster that swirls along totally original, problem free surfaces. Sharply struck devices add to the wonderful eye appeal.

PCGS 58, NGC 22, CAC 30. This gem is ex 2010 ANA auction where it sold for \$2,990. The most recent CAC-approved coin was NGC-graded, selling for \$5,405. The current Collector's Universe value is listed at \$2,850. This gem will certainly see serious bidding!

PCGS # 2067 | EST: \$2,500+

LOT 3

1C 1862 PCGS PR66 CAC

SUPERB! Highly reflective, yet somewhat lustrous GEM copper-nickel fields dance in a light. The surfaces have a soft sky blue, golden tan, and olive patination that is original and totally eye appealing. Razor sharp in strike, the details are fully and crisply rendered on both sides. Exceptional in terms of overall quality and eye appeal, it is hard to imagine a finer Proof Copper Nickel Indian Head cent.

Only 550 were struck. PCGS 25, NGC 29, CAC 24. Don't let the pops fool you, its been almost 2 years since the most recent example sold in auction, realizing \$3,290 in a November 2015 auction. Currently, Collector's Universe offers a value of \$4,000 in their Price Guide. Only 2 coins have graded finer at PCGS, but neither has sold in auction. Making this one of finest available to collectors.

PCGS # 2259 | EST: \$2,500+

THE DW COLLECTION

LOT 4

5C 1885 PCGS PR67 CAM CAC

The 1885 is a key date in its circulation strike format, placing pressure on Proofs. Collectors of the past would often substitute a proof example for their sets, rather than pay for a mint state example (or put a lower grade coin in a mint state set). This SUPERB CAMEO GEM is a wonderful example of the date for any advanced collector. Sharply struck, frosty devices are crisp and full and contrast wonderfully against the chrome-like reflective mirrors. With only the slightest touch of tone, this coin is quite visually stunning.

PCGS 15, NGC 18, CAC 15. The most recent example realized \$3,525 in an April 2016 auction sale, and before that, these were selling for \$5,000+ in auction, thus the CU value of \$5,500. Since these have come down in price, take advantage of today's pricing and start a set!

PCGS # 83883 | EST: \$3,000+

LOT 6

10C 1884-S PCGS MS65 CAC

Among the four FINEST 1884-S dimes graded at PCGS. Sharply struck devices are accented by a rich toning and a lovely satin bloom. The quality is VERY high end. Housed in an old green tag holder.

PCGS 1, NGC 5, CAC 1. This GEM last sold in auction 11 years ago, selling for \$8,338 in the 2006 Central States auction. Only four coins are graded finer at PCGS. The current PCGS Price Guide is listed at \$5,000 but we think that is too low, however, a PCGS MS66 (no-CAC) sold in October 2016 for \$5,640. We think our estimate range will be accurate when this GEM crosses the block.

PCGS # 4693 | EST: \$4,750+

LOT 5

H10C 1838 NO DRAPERY. PCGS MS66 CAC

A true GEM survivor of this early sub-type. Brilliant satin luster glows around the crisply struck devices. Both sides are framed in a delicate toning that adds definition to the eye appeal. Struck from shattered dies, adding to the visual allure.

PCGS 35, NGC 43, CAC 14. The most recent PCGS MS66 to sell was the James Swan-Oliver Jung-D. Brent Pogue coin, which sold in March 2017 for \$4,583; the most recent CAC coin to sell in auction realized \$2,585 in April 2016. The current PCGS value is listed at \$3,150. This GEM has a great look and is destined for any set of Seated Liberty half dimes or U.S. type. Good luck!

PCGS # 4317 | EST: \$2,500+

LOT 7

10C 1863 PCGS PR65 CAM CAC

Struck during the height of the Civil War, the 1863 silver proof coins had a small mintage of only 460 pieces. This exceptionally eye appealing GEM has bold contrast between the sharply struck devices. The eye appeal is superb with a classic, lovely toning pattern.

PCGS 9, NGC 11, CAC 8. The last PCGS/CAC coin to sell in auction brought \$2,013 in the 2012 FUN auction. The current PCGS Price Guide value is listed at \$2,100. This eye appealing GEM will entice strong bidding from collectors. With such a low mintage, these just seem too cheap at current levels.

PCGS # 84756 | EST: \$1,750+

THE DW COLLECTION

**LOT 8**

25C 1881 PCGS MS67 CAC

A superb gem survivor from an original mintage of 12,000. Richly toned and beautifully lustrous. The surfaces are extremely clean and sleek. This jewel has an amazing eye appeal.

PCGS 8, NGC 10, CAC 4. Only one coin is graded finer. This coin sold for \$6,038 in January 2009, and no other PCGS/CAC coin has ever sold in auction. The current PCGS Price Guide value is \$5,500. With the wonderful eye appeal and market freshness, we can see this gem bringing more. Keep in mind the MS68 last sold in April 2009 for \$20,700.

PCGS # 5513 | EST: \$5,000+**LOT 9**

25C 1892 PCGS PR65 CAM CAC

A splendid GEM that displays brilliantly reflective mirrors that beam from all over. The devices are well struck and very frosty. Framed with some fantastic toning highlighting its total originality. The eye appeal is beautiful!

PCGS 17, NGC 25, CAC 4. The current CU value is listed at \$2,100 and NO CAC-approved coins have sold in auction. PCGS coins have sold in the \$1,500-\$2,000 range. What a great looking coin to start a GEM proof set with!

PCGS # 85678 | EST: \$1,500+**LOT 10**

50C 1858 PCGS MS65 CAC

A beautifully toned GEM housed in an old green tag holder. Well struck with only a few ancient minor contact marks. The toning, likely imparted from long term storage in an old paper envelope, is rich and deep, but iridescent enough that the underlying satin luster is still vividly visible. Every detail is sharply struck and stands out. This really is a great looking GEM!

PCGS 17, NGC 12, CAC 7. This coin hails from the May 2008 sale of the Silbermünzen Collection, where it realized \$6,325. The most recently sold coin, the Richard Jewell coin sold for \$7,050 in the 2013 ANA auction. Fast forward 4+ years, and we think today this GEM will bring a very strong price when it crosses the block!

PCGS # 6293 | EST: \$5,000+

THE DW COLLECTION

LOT 11

50C 1877-S PCGS MS66 CAC

NOT your average toned gem Seated half! This is a beautifully toned and exceptionally well preserved superb looking GEM. The devices are razor sharp in definition. A bold luster brings out the subtleties in the various shades in the ancient toning. The toning is very similar to many Seated Liberty coins that came out of the Eliasberg (and other old time collections), and has a great visual appeal.

PCGS 23, NGC 18, CAC 7. The most recent PCGS/CAC coin sold in a June 2017 auction, realizing \$4,465. This coin is from the 2006 Central States auction, where it sold for \$5,175. The current PCGS Price Guide value is listed at \$5,850. Keep in mind that only two coins are graded finer, the finest being a MS67, that sold last year for \$18,800. This eye appealing GEM should sell for a strong price.

Destined for a fine type set or collection of Seated halves.

PCGS # 6357 | EST: \$4,000+

LOT 12

50C 1861 PCGS PR65 CAC

Exceptionally bold eye appeal! Popular as a Civil War year, this GEM Proof 1861 half has rich, reflective mirrors that beam from below a layer of iridescent toning. The obverse has some teal, lilac, gold and rose dappled patina, while the reverse is awash blue, orange, amber, and rose hues. The eye appeal is wonderful and totally original.

Only 1,000 were struck. PCGS 11, NGC 17, CAC 4. Only two PCGS/CAC coins have ever sold in auction, \$7,638 in April 2014 and the other in October 2011 for \$5,868. The current PCGS Price Guide value is listed at \$6,500. The eye appeal on this GEM is superb, and should see very spirited bidding, as only a half dozen examples have received higher grades--PR66 the finest.

PCGS # 6415 | EST: \$5,250+

THE DW COLLECTION

LOT 13

50C 1878 PCGS PR66 CAM CAC

Love peripheral toning? Then you will LOVE this GEM! Richly mirrored fields superbly beam in the light and can be seen from across the room. Both sides are framed by a wonderful halo of original toning in rainbow hues. Well struck devices are highly frosted and provide a beautiful contrast against the rich mirrored fields. The eye appeal is high end and totally original.

Only 800 were struck. PCGS 6, NGC 10, CAC 4. The only CAC-approved example sold in our July 2017 Regency Auction. It did not have the dramatic toning that the presently offered SUPERB GEM does. Collector's Universe lists a value of \$7,750 in their current Price Guide. Only 3 are graded finer in the CAMEO category, so if you are building a set, be sure to see this captivating coin, and prepare to bid liberally.

PCGS # 86439 | EST: \$5,500+

LOT 14

50C 1879 PCGS PR65 CAC

Rich, deep toning in shades of teal, violet, and gold is brought out by a very bold, watery reflective mirrored fields that surround the exactly struck devices. This coin is beautiful!

PCGS 27, NGC 32, CAC 8. Only one PCGS/CAC coin has ever sold in auction, selling twice, the most recent time selling for \$3,525 in January 2014. The current CU value, listed at \$3,150, takes into account that the most recent PCGS coin to sell brought \$2,468. This one will sell for a strong price!

PCGS # 6440 | EST: \$2,600+

LOT 15

50C 1892-O PCGS MS64 CAC

The first year of issue for the Barber quarter and the first branch mint half dollar struck since 1878. Deeply, but not dull or drab toned with a glowing satin frost that brings out the details of the boldly struck devices.

PCGS 40, NGC 28, CAC 6. The only CAC-approved example to sell in auction realized \$2,225 in an October 2014. The current PCGS Price Guide value is \$2,750. We can see this lovely example bringing a price in that range.

PCGS #6462 | EST: \$2,000+

THE DW COLLECTION

LOT 16

50C 1912-S PCGS MS66 CAC

Tied for FINEST graded at PCGS! The silken-satin mint bloom shines on both sides of this spectacular GEM. Superb, sharply struck devices are awesomely frosted--they look like they were carved by hand in a chunk of frosted glass! Fully prooflike reflective fields dance in the light and bring to life the hints of lilac, rose, and clear gold pastel iridescent hues. The eye appeal is superb!

PCGS 8, NGC 5, CAC 6. This GEM has been off the market since 2006, where it was sold in the Central States auction for \$10,925--a record price for the grade! It is NOT hard to see why! There are NONE graded finer at PCGS. We can see this amazing coin being placed in a top tier Barber half set. With the recent sales of the top sets, including Shireman, Gardner, Greensboro, and Duckor now is a great time to build a set. We anticipate strong bidding here!

PCGS # 6526 | EST: \$6,500+

LOT 17

\$1 1795 2 LEAVES. PCGS F12 CAC

B-1, BB-22. A very attractive FINE, with a bold, totally original look. Well worn, but problem free the definition in the devices is certainly finer than what you would normally expect for the assigned grade. The eye appeal is great!

PCGS 76, NGC 10, CAC 8. Only two CAC-approved coins have ever sold in auction, both being graded by NGC, realizing \$4,000 each. A non-CAC PCGS coin sold in April 2017 for \$3,525. The current PCGS Price Guide value is listed at \$4,900. What a great type coin for the budget minded collector who still demands very high end quality.

PCGS # 6853 | EST: \$3,800+

LOT 18

\$1 1802/1 PCGS AU58 CAC

B-3, BB-234. Any super picky Bust dollar collector will be smitten by this HIGH END GEM AU58!

A spectacular looking, condition census example. A bold surviving luster beams from under a rich blend of blue, slate, gold, and amber accents. The details are fully rendered and the eye appeal is simply superb. Flawless surfaces see only the slightest hint of friction both on the devices and in the fields. The eye appeal is phenomenal!

PCGS 9, NGC 13, CAC 4. This is the "Dallas Sale" specimen listed as #5 in Q. David Bowers' Notable Specimens in the 2013 revision of his early dollar reference. It last sold for \$18,800, graded NGC AU58 in the 2013 FUN auction. The eye appeal of this specimen is far superior to the other AU58s that we have found sold in the past few years. If you collect early dollars or just need one for a great type set, be sure to view this GEM AU in hand, and prepare to bid liberally!

PCGS # 40090 | EST: \$17,500+

LOT 19

\$1 1802 PCGS AU55 CAC

A superb AU example that ranks high up in the condition census for this R-5 variety, the B-5, BB-242. Identified by the perfect T in LIBERTY, this is the second rarest variety for the year and is listed as the fourth coin in Dave Bowers' revised early dollar reference. He estimates 75-140 examples of the variety survive in all grades.

Satin underlyng luster blooms under rich, totally original envelope toning. The devices are sharply struck and each detail is nearly fully delineated. The highest points and fields show only the slightest hint of friction. Only the most insignificant and tiny ticks are noted for full accuracy but are not really visible to the naked eye.

Listed under notable specimens in the 2013 update of Dave Bowers' book, its pedigree is as follows: Howe Collection to the Bolender Collection; Superior's Ruby, Gilhouzen III Sale, 1973, lot 1280; Superior's 1975 ANA Auction, lot 1022; Rarcoa's Session of Auction '86 lot 736; Deb-Ann Collection, Heritage, January 2009, lot 3949 (as NGC AU55 sold for \$12,650). Its obverse is plated in the Bolender book, and "once called second finest known."

PCGS 25, NGC 21, CAC 9. This coin is destined for a great cabinet of early dollars ranking very high in the condition census for the variety. You will likely not see another high end example of the variety anytime soon! If you are an early dollar specialist be prepared to bid aggressively on this superb example!

A totally original first year of issue Seated dollar. Delicate pastel toning is dusted over semi-reflective surfaces. Well struck and possessing a nice eye appeal. Housed in an earlier generation blue tag holder.

PCGS 39, NGC 33, CAC 4. No CAC-approved example has ever sold in auction. The most recent AU55 to sell in auction was NGC-graded and sold for \$1,880 in a February 2017 auction and the current PCGS value is \$2,200. Quite lovely and sure to see strong bidding.

Accents of fresh semi-PL luster accent the rich blue, olive, rose, tan and silver patina. This highly eye appealing coin has just a hint of friction and a few teeny ticks here and there, which account for the grade. There is no discoloration on the high points.

PCGS 46, NGC 52, CAC 7. No CAC-approved AU58s have ever sold in auction. In the March 2017 offering of the Blue Moon Collection, the most recent PCGS AU58 sold, realizing \$1,058—but that coin had no where near the fantastic eye appeal of this richly toned GEM AU. We can see this coin surpassing the PCGS Price Guide value of \$1,550 when it crosses the block!

In 1845, the mintage of dollars dropped to 24,500 and most disappeared into circulation, where they would either remain, or be exported and melted down when their bullion value exceeded its face value. This CHOICE AU coin has a rich, slate-blue, golden, russet-tan, and teal accents adorn both sides. Well struck and smooth with just a hint of high point friction.

PCGS 34, NGC 38, CAC 13. No CAC coins have ever sold in auction, the last PCGS coin sold for \$1,638, and that piece did not have the high end allure of this specimen. The current PCGS value is listed at \$2,500 and prior to that September 2015 auction, these were consistently selling for \$2,200+. A really nice coin for the collector!

Rare in Mint State, the original mintage of 1848 dollars was only 15,000 and many were exported when the price of silver exceeded the face value. Survivors like the presently offered coin are a rare treat, usually only seen when collections are offered. Variegated shades of silver-gray blend over lustrous surfaces. The devices are generally well struck, with just some weakness noted on the reverse. This coin boasts a strong eye appeal for the grade assigned.

PCGS 11, NGC 0, CAC 3. The only CAC-approved example sold in auction in the notoriously weak 2016 FUN auction, realizing \$7,638. The current PCGS Price Guide value is listed at \$9,000, and keep in mind that a marginally finer MS63 will certainly bring into the five figure range. A great coin for a type or date set!

As gold flooded the economy in the early 1850s, the price of silver rose in relation, making silver coins worth more than face value. As a result, these are scarcer than the already low mintage of 7,500 pieces would have you think. Very nicely toned in dappled shades of azure, gold, and amber that are brought to life when the light hits the semi-reflective, almost prooflike fields. Sharply struck, the devices have only the slightest, most subtle hint of high point friction, but there are no significant marks or lines to be seen anywhere on this visually impressive GEM AU!

PCGS 21, NGC 33, CAC 6. Here is another early date in a grade where no CAC-approved example has ever sold in auction. Going back to 2008, every example has sold for between \$4,200 and \$5,300 and the current PCGS value is listed at \$5,250. \$1 1873 SEATED. PCGS PR65 CAM CAC EX SIMPSON

A "no brainer" SUPER HIGH-END GEM. It was never regraded. We cannot stress enough how we do NOT see pieces like this anymore. Intense deep mirrors glitter from all over. For a big coin, the mirrors have unusual clarity, cleanliness, and offer a bold reflection. If you twirl the coin, the mirrors look like a freshly formed sheet of ice. There is a beautiful splash of blue/purple/golden brown toning on the right obverse. The reverse has some moderate golden-brown spread around the rims. Miss Liberty and every detail are frosted and are fully struck.

ONLY 600 were ever minted. PCGS 6, NGC 7, CAC 2. This coin last sold in 2010 for \$16,100 and it went directly to the DW collection. While the current Collector's Universe value is \$16,500, we think the coin's freshness, eye appeal, and quality will help it realize more. This is NOT your typical dipped or dull Proof Seated Dollar! What an addition to ANY GEM collection this coin will be!

T\$1 1876 PCGS MS65 CAC

This GEM is unquestionable "Legend quality" and was placed by Legend in the DW Collection in 2011. The quality is SUPER HIGH END and the coin has never been sent in for regrading. Most 1876 Trade Dollars come with a silky smooth texture, but they are never clean or lively. Not only does this coin have those silky smooth surfaces, it is ULTRA clean. A bigger surprise-the coin is lightly prooflike! You do not have to imagine the mirrors. The surfaces on both sides are an original white color-typical to the date. Miss Liberty and every detail are thickly frosted and are fully struck. There is zero rub or discoloration anywhere-especially on the high points. For identification reasons we will mention one tiny dot on the reverse in the letter F.

PCGS 24, NGC 15, CAC 6. The last PCGS CAC MS65 to sell in auction brought only \$8,519 in January 2017. The current Collector's Universe Value is \$9,250. We fully expect this virtual MS66 to bring MUCH more than those numbers. A PCGS CAC MS66 would easily fetch \$22,000-\$25,000--if you could ever find the only ONE Beaned! This coin the 1876 you want to own! This cataloger was the person who exclusively built the #1 all-time Mint State set of Trade Dollars-so we know how they come!

T\$1 1877 PCGS MS65 CAC

This grade and this date are EXTREMELY UNDERRATED. When Legend built the Bruce Morelan Set of Mint State Trade Dollars, after exhaustingly searching through just about EVERY MS64 and 65, an 1877 in GEM was the last coin we found to finally finish the set (of course a few years later the real MS66 popped up). We make no promises, but this coin needs to be resubmitted for a +. Amazing surfaces are just that; they are not only semi-satiny smooth, they actually are slightly semi-prooflike. You do not have to imagine the mirrors or the luster on this piece. Using a strong glass, you will be blown away how mark free-make that microscopic mark free this piece is. Both sides are evenly covered by a superb mix of pale to moderate original colors of golden brown/green/champagne/blue colors. Miss Liberty and every detail is not only frosted but they are fully struck.

PCGS 11, NGC 11, CAC 9. The last PCGS CAC MS65 to sell brought a mere \$8,813 in January 2017. We believe that collector "in the know" will bid this coin up possibly as much as double that price. We are the unquestioned world experts in Mint State Trade Dollars. Unless you can get our partner to part with his monster MS66-we know of NO other 1877 anywhere near this coin's quality. Good luck!

T\$1 1877-S PCGS MS65 CAC

An exceedingly HIGH-END GEM. This coin looks like it sat somewhere undisturbed since the day it left the mint 140 years ago!

Insane surfaces are the epitome of perfection. What looks like some activity is nothing more than some irregular toning. We went over this coin with a strong glass and found ZERO impairments.

The surfaces look as smooth textured as you will ever find. A moderate luster (which is strong for a 77-S) enhances the even original toning. Both sides are blanketed by a moderate mix of champagne/pale purple/pale brown colors. Miss Liberty and every detail are so fully struck you do not need a glass to see the frost or the features standing out. The eye appeal is neat!

PCGS 30, NGC 28, CAC 13. The last PCGS CAC piece to sell in auction brought \$9,695 in January 2014. Three full years with no others CAC piece selling in auction? That is a long time! The current Collector's Universe value is \$9,250. We think this coin (like the other DW Mint State Trade Dollars) will easily eclipse that number. This will be a great addition to ANY GEM Trade Dollar or Type set.

One look and you can tell this is an exceedingly SUPER HIGH-END GEM. It was bought in 2010 by the DW Collection owner. It has never been in for regrade.

Deep and booming mirrors beam from all over; they are seriously clean, have amazing clarity, and are nearly blinding with reflection. When twirled, they give off that deep "watery" rolling look. A gentle shade of reddish gold frames parts of the peripheries. Miss Liberty and every detail are pinpoint sharp in strike and have thick frost. This coin has NOT been dipped or retoned- it's the real deal! The eye appeal is phenomenal!

PCGS 10, NGC 20, CAC 2. Hard to believe NO PCGS CAC piece has ever been sold via auction. When this piece sold back in 2014, it realized \$14,950.00. Collectors Universe Value today is \$15,000. \$5 1905 PCGS MS65 CAC

A rich satiny luster glows on both sides of this well struck GEM. Totally original surfaces, there are only a couple of microscopic ticks and a few orange toning dots here and there. The eye appeal is exceptional.

PCGS 48, NGC 36, CAC 12. Only one CAC approved example has sold in auction, bringing \$3,738 in a June 2012 auction (that was five years ago!). Since then, even a non-CAC coin sold for as much as \$4,113 (January 2013). The current PCGS Price Guide value is \$3,500.

PCGS # 8411 | EST: \$2,200+

LOT 53

\$20 1904 PCGS MS65

Beautiful, amber-orange gold color is brought out by the exceptional, lively luster. No serious marks or lines and the eye appeal of this old holeder GEM is great.

Even in GEM the 1904 is readily available, with over 11,000 graded between PCGS and NGC. However with such bold eye appeal, we think this one will sell for a premium!

PCGS # 9045 | EST: \$2,000+

LOT 54

\$20 1908 NO MOTTO. PCGS MS66

Ex Wells Fargo Nevada Gold and housed in the original OGH as certified at the time of the hoard. Satiny mint luster, problem free surfaces.

From the hoard of 9,900 No Mottos that came out of a Nevada bank in the early 1990s. Many of the ultra high grade examples known came from this group. David Hall recalls that thousands graded MS66 from this hoard.

Over 10,000 examples have been graded by PCGS and NGC combined. A premium quality gem worthy of inclusion in any holding of gold coins.

PCGS # 9142 | EST: \$2,000+

LOT 55

SAUDI ARABIA. 4 POUNDS, (1945-46). PCGS MS62

KM-34, FR-190. Struck at the Philadelphia mint as payment for oil contracts by ARAMCO. The obverse shows the fineness and weight, while the reverse has the Mint seal. A popular issue, collected among world gold collectors, as well as U.S. coins. Struck after the 1933 Act which ended the use of gold in the U.S., it is amazing what the government will do for oil. Rich orange golden patina and a bold strike (not always seen) create a brilliant, eye appealing coin. A few light marks commensurate with the assigned grade.

PCGS 16, NGC 21. The finest graded at either service are graded MS63. These have brought between \$2,000 and \$2,500 when offered in recent auctions. Rare any finer.

**LOT 56****1/2C 1833 PCGS PR63 BN CAC**

Only one set of dies were used to strike proofs of 1833. This choice quality proof retains exceptional refraction and reflection of light. The mirrors are hard, glassy, and have an icy feel to them. Medium brown overall, with accents of steely-blue and violet. All the devices are sharply struck.

Approximately 30 coins were struck. PCGS 5, NGC 0, CAC 1. The last one to sell in auction was in March 2009, selling for \$5,175 (non-CAC). The most recent PCGS comparable coin to sell was the non-CAC PR64 BN from the Missouri Cabinet that sold for \$8,050 in January 2014. In PR63 BN the current PCGS Price Guide value is listed at \$5,850. Rarely do Proof half cents of this vintage appear at auction, so not an opportunity to be missed by the specialist collector. For a coin this rare, it is incredibly affordable, keeping it in the budgets of many collectors.

PCGS # 1198 | EST: \$5,500+**LOT 57****1/2C 1834 PCGS PR63 BN**

Lots of flash to the mirrors, especially on the obverse. The brown toning has mottled overtones that present themselves in the light. A few tiny ticks and ancient flecks are noted for accuracy, but they blend into the surrounding area and do not detract from the overall eye appeal.

An estimated 20 examples were struck, however, based on grading service population reports, it is likely that a few more than that were struck, using only one die marriage.

PCGS 3, NGC 0. The most recent PR63 BN example to sell in auction was in May 2003–14 years ago! The APR of \$3,910 is very likely obsolete. A PR64 BN sold in June 2015 for \$7,050. Today, we think this coin should bring somewhere in our estimate range. The current PCGS Price Guide value is listed at \$5,850. A highly collectible and very rare early proof, underrated in relation to its rarity!

PCGS # 1201 | EST: \$5,500+**LOT 58****1/2C 1853 PCGS MS65 BN CAC**

From the High Octane Collection. Nice light brown, gold, tan, and coppery-red accents adorn the lustrous and well struck obverse and reverse.

PCGS 59, NGC 110, CAC 30. The few CAC coins that have sold in auction in the \$880-\$1,645 range and the CU value is listed at \$1,300.

PCGS # 1227 | EST: \$800+**LOT 59****1/2C 1855 PCGS MS65 BN CAC**

From the High Octane Collection. Lustrous chocolate brown with neat olive toning that are brought out when rotated in a light. Sharply struck and eye appealing.

PCGS 54, NGC 84, CAC 25. Given the populations you would think they would appear at auction with more regularity. The current PCGS Price Guide value is \$1,300.

PCGS # 1233 | EST: \$800+

LOT 60

1/2C 1855 PCGS MS65 RD

From the High Octane Collection. Ample, totally original mint red luster swirls around on both sides. The eye appeal is great, even with a few reverse spots and a few microscopic marks. The devices are well struck.

PCGS 38, NGC 12. The most recent PCGS example sold for \$4,700 and the current PCGS value is listed at \$7,000. This coin will be a great fit in ANY GEM set!

PCGS # 1235 | EST: \$4000+

LOT 61

1/2C 1852 RESTRIKE. PCGS PR66 BN CAC

B-2. The 1852 Restrike proof half cent has a mintage of about 100 coins making it the natural date for type purposes. This impressive example displays ultra rich, deep chocolate brown mirrored fields. The devices are VERY sharply struck--razor sharp-- with every bead, hair strand, and leaf fully formed. The eye appeal is superb, with accents of blue on the obverse and hints of original red on the reverse.

PCGS 4, NGC 4, CAC 4. This coin last sold for \$9,400 in April 2016, a price we believe to be cheap. The Missouri

Cabinet contained two pieces in the same grade, selling for \$12,650 and \$13,800. In the BN designation, there are none finer; and there are only 2 in PR66 RB (neither of which has sold in auction). The current Collector's Universe value is \$18,000. Are you building a Proof type set? This GEM would fit in wonderfully!

PCGS #35402 | EST: \$7,500+

LOT 62

1C 1845 PCGS MS64+ RB CAC

From the High Octane Collection. Medium brown surfaces have a sort of marbled effect with original red that accents the borders of the devices on the obverse, while the reverse displays a preponderance of red with just light accents of muting. The eye appeal is very distinctive.

PCGS 38, NGC 24, CAC 5. The most recent MS64+ CAC sold for \$5,170 in February 2017. Even most regular MS64 RBs have been selling for \$2,000-\$3,000. The current CU value is \$2,750 and that level could be surpassed by this coin.

PCGS #1863 | EST: \$2,300+

LOT 63

**1C 1840 SMALL DATE/LARGE 18. PCGS PR64 RB
CAC**

N-2, Rarity-6 as a proof. An important Proof Large Cent rarity. Glittering mirrors dance in the light, showing off the beautiful originally toned surfaces. Ample red shows through the iridescent olive, gold, pale green, and rosy hues. A few tiny ticks and flecks serve as pedigree identifiers. The devices are crisply struck up and the eye appeal is superb. As impressive as the coin is terms of technical quality, eye appeal is SUPERB. This coin has a great pedigree: Ex Garrett-Naftzger-Twin Leaf.

Only 15 Proofs were estimated struck. PCGS 2, NGC 2, CAC 1. The last PCGS example to sell was a the non-CAC Naftzger coin that sold in September 2009. That record is obsolete at this point. There really is no accurate pricing information for a PCGS/CAC coin, and we know that early copper collectors will duke it out to own this superb early Proof.

PCGS #1950 I EST: \$17,000+

LOT 64

**1C 1843 NEWCOMB-14. PCGS PR64 RB CAC
EX TWIN LEAF**

A beautiful nearly GEM caliber example of this RARE PROOF-ONLY variety. Highly reflective fields show a wealth of original mint red and lots of wonderful violet overtones which highlight the extremely crisp details of Ms. Liberty's hair, stars and wreath. When rotated in a light, the mirrors really do flash and show off additional hues of teal and blue. We note a few minor ticks and a fleck here or there, but nothing distracting and will forever serve to identify this well provenanced specimen.

Before being in the Twin Leaf Collection (sold in July 2015), this coin started out in the Charles Zug Collection; sold in the S. H. Chapman sale of November 1907, lot 1119; Dr. Henry Beckwith Collection, S.H. Chapman sale of April 1923, lot 100; William Morgan; Morgenthau & Co. sale of June 1932, lot 333; James Macallister; T. James Clarke; Ted Naftzger; Eric Streiner; Denis Loring; Twin Leaf Collection since 1994. In the July 2015 sale of the Twin Leaf Collection, this coin realized \$24,675. The pedigree chain of this special PR coin includes a real "who's who" of high end early American copper coins (noted scholar and collector John Adams noted that the Beckwith Collection was the "finest collection of high condition cents of all time.") T. James Clarke is well known for his amazing early U.S. coins and Colonial issues. Ted Naftzger is synonymous with QUALITY large cents. And finally, the Twin Leaf Collection will long be remembered as one of the all-time greatest collections of middle and late date large cents ever assembled.

PCGS 3, NGC 1, CAC 2. Only one other coin has appeared at auction, and that was back in the January 2011 sale of the Dan Holmes Collection, a non-CAC coin that realized \$18,975. Keep in mind that the N-14 is a PR-only variety, of which Walter Breen enumerated 10 different examples in his Proof Encyclopedia (of which THIS is the plate coin). More recent study indicates that there are perhaps 12 known in all grades. This is a very under appreciated rarity, and in its beautiful state of preservation, should be worth more! Perhaps one day collectors will truly learn to appreciate these very special coins!

PCGS #1959 | EST: \$22,000+

LOT 65

1C 1844 PCGS PR64 BN CAC

N-8, as most known 1844 Proofs are. Very RARE and VERY high end quality for the assigned grade. This near gem proof large cent has bold, chocolate brown mirrors that are smooth and icy. Accents of light blue patina adds dimension to the razor sharp struck devices. A few tiny, ancient flecks attest to this coins originality. The eye appeal is very high end.

Only 20 are estimated to have been struck. PCGS 1, NGC 0, CAC 1 The former PCGS PR64 BN, ex Sloss, Snow, Greensboro Collections is now graded NGC PR65 BN. The only other PR64 to sell is the ex Starr, Halperin, Gardner Collection. The present specimen does not seem to match any that appear in our auction database. The now NGC PR65 BN brought \$17,625 in its last PCGS appearance, in January 2013 (and as an NGC 65 for \$18,800 in August 2014). The current PCGS Price Guide value is listed at \$17,500. This coin really does have a lot to offer any collector: rarity and beauty!

PCGS #1961 | EST: \$13,500+

LOT 66

1C 1847 NEWCOMB-42. PCGS PR66 BN CAC

WOW! What an amazing SUPERB GEM PROOF large cent! The mirrors are ULTRA deep. They are clean and exceptionally smooth and icy. The technical qualities are exceptional, as to be expected for this VERY RARE issue. The deep bronze, mahogany, and rich chocolate brown surfaces show rich cobalt blue and cranberry accents--the patination very similar to bronze medals struck at the Philly mint. All the devices are sharply rendered from an exacting blow from the dies.

Perhaps 12-15 examples are estimated to exist, making it one of the rarest large cent proof issues--all known examples are from the N-42 die marriage-- and the present example is the absolute finest in any color designation graded by either PCGS or NGC.

PCGS 1, NGC 0, CAC 1. This coin is ex Superior September 2004, where it realized \$17,250 as a PR65 BN. As the finest known 1847 Proof cent in BN, this coin is a real trophy for any advanced collector. The finest in the Twin Leaf Collection was a PCGS PR65 RB CAC that sold for a record \$64,625. A very important opportunity for any collector!

PCGS #1970 | EST: \$17,500+

LOT 67

**1C 1848 PCGS PR66 BN CAC
EX TWIN LEAF COLLECTION**

This is the sole PR66 BN and finest PCGS Proof 1848 Large Cent in any color category, and a beautifully made Proof. Boldly struck on each of Miss Liberty's fine hair curls, along with stars with their radial center lines, and the fine veins on the leaves of the reverse. The edge is precisely squared off, only seen on these rare Proofs, which in this case includes a partial fin or wire edge on the obverse. The devices are all frosty and contrast with the boldly mirrored fields. In terms of color, both sides exhibit light olive brown mixed with faded Mint red and dashes of violet and blue are noted in the fields.

In terms of rarity, this issue has been widely studied, and while the precise number known of 1848 Proof Large Cents is not at all clear, the numbers are likely in the ten to thirty known range, but importantly this particular coin is the finest seen by PCGS, and is listed as tied with one other for finest in the survey by William Noyes and also in the extensive work done by Denis Loring places this coin as tied for finest with one other example. What is clear, is that if you want a high-end gem Proof 1848 Large Cent, there are not many to choose from, and this incredible example is clearly one of the very finest.

Added to the exceptional physical, technical, and visual quality, the provenance is equally important and impressive. Ex: Howard R. Newcomb; J. C. Morganthau and Co., May 1945, lot 745; Floyd T. Starr, Abe Kosoff, 1949 ANA, lot 1843, Willard C. Blaisdell; Roy E. Naftzger,Jr., Paramount, Auction'86, lot 1536; R. Tettenhorst, the Twin Leaf Collection, Stack's-Bowers, July 16, 2015, lot 2478.

PCGS 1, NGC 1, CAC 1. A resoundingly beautiful Proof cent, and one is hard to place a value on. Simply stated, this coin will be desired by many people, but only one can come home with it from the auction. This piece last brought \$35,250 in July 2015). What an amazing opportunity this coin presents for the advanced collector; do not let it pass you by!

LOT 68

1C 1858 LARGE LETTERS. NGC MS65 CAC

Totally original, this GEM displays a medium olive-tan, amber, and pale blue patina over satiny smooth surfaces. Well struck and very pleasing to the eye.

PCGS 178, NGC 134, CAC 39. This is the first NGC/CAC coin to sell in auction since February 2014, where an example sold for \$3,525. The most recent MS65 to sell was a non-CAC coin that sold for \$3,290 in our July 2017 Regency Auction XXII. The Flying Eagle cent series is short and affordable, only the 1856 is a five figure piece, so if you are looking for a series that can be completed, this one should be closely looked at!

LOT 69

1C 1856 FLYING EAGLE. PCGS PR65 CAC

Wonderfully ORIGINAL! This very pretty GEM is an excellent representative of this first year of the Small Cent series. Delicate iridescent toning gently blankets the reflective mirrors on both sides. Bold coppery-tan blends with some richer amber-gold and pale blue accents, imparting a spectacular visual allure. This is a truly beautiful example--one that will be a great start, or addition to any small cent collection.

While the mint experimented with smaller sized cents all the way back in 1792 (see the Silver Center cent), knowing that the large sized copper cents might prove cumbersome in commerce, efforts to reduce the size and weight did not really begin until 1853. Finally, in 1856 with the Flying Eagle cent the mint found a suitable composition and size for use in commerce. The exact mintage is unknown, but estimates suggest about 1,500 were struck.

PCGS 57, NGC 37, CAC 19. The most recent PCGS/CAC coin to sell in auction brought \$31,725 in our Regency Auction XXII. That coin, had appeared in auction two other times in the last 12 months, each time realizing \$29,375. The current PCGS Price Guide value is listed at \$32,500. With this coin's spectacular eye appeal, this GEM could very well meet or exceed that level. This coin really is all there and then some, and this GEM will certainly find itself in a great cabinet!

PCGS #2037 | EST: \$25,000+

LOT 70

1C 1867 NGC MS66* RD

This is the FINEST NGC 1867 cent graded in the RED category, tied with exactly ONE PCGS coin, which is also the FINEST graded at that service. Exceptionally lustrous with totally neat variegated RED coloration. Very rich original red copper color blends to rich crimson and magenta accents and golden highlights. The devices are crisply and sharply struck and show FULL definition on both sides. Close examination shows a small line or two (not to be confused with the mint die lines on the portrait). If not the FINEST in existence, it is very close! The eye appeal is superb and the coloration hypnotic! Certainly worthy of the NGC ** for eye appeal.

PCGS 1, NGC 1. This coin was in the 2017 FUN auction, realizing \$28,200. PCGS suggests a value of \$46,500 in this grade. Are you building a set of Indian cents in full MINT RED? If you are, take a look at this SUPERB 1867 and fill that hole with one of the finest that exists!

1C 1869/69 RPD, FS-301, S-3. PCGS MS64 BN CAC

Lustrous, chocolate brown coloration dominate both sides of this well struck early Indian cent. Overtones of olive and sky blue add to the visual allure. The repunched date variety. With a loupe outlines of the underdigits 69 can be seen. The eye appeal is beautiful.

PCGS 12, NGC 14, CAC 3. The only PCGS graded example to sell in auction was NOT CAC and sold for \$1,473 in October 2015 and the current PCGS Price Guide value is \$1,350. For an advanced collector of Indian cent varieties, there are only six graded finer at PCGS in the BN designation.

Beautiful and radiant original red luster blooms on both sides of this well struck GEM. The surfaces have no major issues and the eye appeal is superb!

PCGS 57, NGC 21, CAC 7. Only one CAC approved coin has sold in auction based on our auction database, realizing \$1,939 in July 2015 and the current PCGS value is listed at \$1,550. Very RARE any finer!

1C 1886 VARIETY 2. PCGS MS65 RB CAC

In 1886, two major varieties were struck, the second showing the lowest feather in the headdress pointing between the CA in AMERICA.

This GEM has a great visual allure with brilliant luster that swirls around golden-brown surfaces that show ample original RED patina. Very well struck and featuring icy smooth surfaces.

PCGS 31, NGC 35, CAC 9. We cannot find a record for a CAC coin having sold at auction, but non-CAC coins have sold in the \$1,500-\$2,000 range and the current Collector's Universe value is listed at \$2,750. A beauty like this is worthy of a very serious bid.

PCGS #92155 | EST: \$1,550+

LOT 74

1C 1888 PCGS MS66 RD CAC

Beautiful! Brilliant, original, glowing mint red luster shines on both sides accentuating the sharply struck devices. Every detail in the headdress, hair, and wreath is fully and crisply defined.

Even under intense scrutiny, we note only a tiny tick and a microscopic fleck or two. The eye appeal is wonderful.

PCGS 14, NGC 3, CAC 4. The most recent example to sell in auction brought \$9,106 in the 2016 ANA auction. Others have sold for as much as \$11,750 in recent years. The current Collector's Universe value is listed at \$10,500. If you are building a top tier set of Indian cents, this is among the finest graded and bound for a high ranking Registry Set.

PCGS #2168 | EST: \$9,000+

LOT 75

1C 1894/1894 DOUBLE DATE. PCGS MS65 RD

Blazingly lustrous fiery red surfaces are superb in color and eye appeal. Accents of orange, magenta, and rose appear when rotated in the light. We note a tiny tick or two for accuracy, but none detract from the eye appeal. The double punched date is very dramatic and visible without the aid of a loupe. The mint engraver first placed the date too high to the right, then without totally effacing his error, punched the date digits in the correct position. This piece ranks in the top baker's dozen graded by PCGS.

PCGS 10, NGC 6. The only one to sell within the last five years was a CAC approved example that brought \$10,575 in the 2016 FUN auction. No other PCGS coin has sold since 2012. The current CU value is \$7,850 and we think this coin should bring more than that. Bound for a very fine set of Indian Head cents. Good luck.

PCGS #92189 | EST: \$7,500+

LOT 76

1C 1908-S PCGS MS66+ RD CAC

The first mintmarked cent struck by the United States and popular as such--from the first emission of cents in 1793 until 1908, all cents were struck in Philadelphia.

This one ranks among the very finest that survive, only a single MS67 RD is graded finer at PCGS. Highly lustrous with light golden-orange color that really accents the sharply struck design elements.

PCGS 55, NGC 25, CAC 11. This coin is one of four noted on the PCGS Population Report graded MS66+ RD. The only CAC-approved example sold for \$10,575 in our Regency Auction XV in December 2015, and the CU value is listed at \$10,500. The lone 67 RD has never sold in auction, making this SUPERB GEM among the very finest that you can realistically hope to acquire in today's market.

1C 1879 PCGS PR66 RB CAC

This is a very lovely GEM proof Indian cent! Richly mirrored copper surfaces have variegated shades of red with accents of blue/violet that adds to the spectacular eye appeal.

PCGS 45, NGC 34, CAC 10. The 2016 ANA auctions saw two examples sell, one realizing \$999 and the other \$1,293. This coin has a bolder visual appeal than either of those two. The current PCGS value is \$1,300. A great looking coin for any set of Proof Indian cents.

LOT 79

1C 1891 PCGS PR66 RD

Bold original red mirrors beam around neatly frosted and well struck relief's. Free of any distracting flecks or marks the eye appeal is superb. Housed in an old green tag holder.

PCGS 4, NGC 2. NONE ARE GRADED FINER in the RD category. This coin sold in the 2008 ANA auction realizing a record \$4,600.

PCGS #2362 | EST: \$3,500+

LOT 80

1C 1902 PCGS PR67 RB

Stunning reflective red mirrors beam from below the crimson and magenta toning. The central reverse also beams with a pleasing golden hue that is brilliant and vivid in the light. The eye appeal is spectacular--we think the only reason it did not sticker is a microscopic mark on the cheek and a teeny fleck.

PCGS 8, NGC 4. No PCGS example has ever sold in auction, but a fingerprinted, splotchy toned NGC coin sold for \$1,410 in March 2015. The current PCGS Price Guide value is listed at \$2,650. None are finer in the RB designation, and a fully red coin will cost well in excess of double our present estimate.

Good luck!

LOT 81

1C 1907 PCGS PR66 RD CAM CAC

What a spectacular GEM RED Proof this is! The quality is VERY high end! Really deep mirrors beam boldly from all over. The mirrors have unusually great clarity, cleanliness, and are of course offer a bold reflection; twirling the coin in a light, the mirrors would look like a freshly made sheet of ice. Both sides are a crisp GEM Mint Red in color with a few violet/gold highlights. Most important, there are no spots or stains. Miss Liberty and every detail are sharply struck and do have strong colorful frost. You do not have to imagine the contrast- it is easy to see! The eye appeal is pretty neat!

PCGS 3, NGC 0, CAC 1. This coin is clearly tied for finest known. NONE had sold via auction. A regular CAC RED PR66 piece last sold for \$3,290 in January 2016. The current Collector's Universe value is \$5,500.00. Sounds right as we doubt you will be able to find another (we know you won't find another CAC). This coin has been off the market for many years with a collector; he is eager for it to reside in a good new home (and so are we)!

1C 1909 V.D.B. LINCOLN. PCGS MS67+ RD CAC

Clearly among the FINEST examples extant from the first Lincoln cent issue. Amazing original RED copper color is magnificently brought to life with a glowing ember-like fiery luster. Boasting superlative eye appeal, this uber-gem features fully struck devices and pristine surfaces.

PCGS 294, NGC 86, CAC 45. PCGS has only graded 27 as MS67+ and a single 68 is graded finer. The last one to sell realized \$7,050 in our Regency XXII sale in July 2017, and before that one sold \$8,225 in February 2017. We think this one could see bidding go higher than that for its superb look.

Good luck!

From the High Octane Collection. One of the most alluring VDB cents in the BN designation we have seen, indeed, it ranks up there with the example we sold in Regency Auction XVII in May 2016. Lustrous brown surfaces have lovely iridescent toning on both sides. This is the famous key date, in demand in all grades from collectors, virtually since its issuance!

PCGS 84, NGC 95, CAC 28. As mentioned, the most recent example sold in our May 2016 auction, realizing a strong \$3,408. With its similar look, this coin should sell for a similar price.

PCGS #2426 | EST: \$2,600+

LOT 84

1C 1909-S LINCOLN. PCGS MS66 RB CAC

The superlatives needed to describe the amazing red tones on the obverse escape the cataloger today! The fiery ORIGINAL red blends with brilliant magenta, and a blush of teal and blue.

All the colors are brought out by the blazing mint bloom. The devices are well struck and the overall eye appeal is better than we would normally expect to see on a RB coin.

PCGS 18, NGC 16, CAC 8. There is only a MS66+ RB finer in this designation. This one just blows the others out of the water, the quality is far beyond any other RB we have seen. The CU value is \$1,150 and we believe that level will be blown past when this one crosses the block. Good luck!

From the High Octane Collection. A brilliant flaming mint red color shines with the magnificent original mint bloom. Nicely struck and very eye appealing. VERY RARE any finer.

PCGS 96, NGC 12, CAC 21. The most recent PCGS/CAC coin to sell in auction realized \$3,290 in the March 2017 Baltimore auction. That was the first to sell since 2014. This superb gem should bring a strong price.

PCGS #2452 | EST: \$1,300+

LOT 87

1C 1912-S PCGS MS66 RD

Tied for the FINEST graded by either service. Brilliant red luster dominates both sides of this eye appealing GEM. Very well struck with full definition to both sides. Only under intense scrutiny can a few teeny flecks be found. Very few of these were saved at the time of issue, creating a real condition rarity in GEM or higher grades.

PCGS 5, NGC 1. NONE ARE GRADED FINER at either service. The most recent non-CAC coin sold in November 2016 for \$11,750 and the current Collector's Universe value is listed at \$16,000. If you are building a set, be sure to take a look at the presently offered GEM and prepare to bid liberally!

LOT 88

1C 1914-D PCGS MS65 RB CAC

From the High Octane Collection. Mahogany blends with faded red and soft brown overtones with accents of rose and violet. A rich underlying vibrancy really brings out the colors throughout the fields and devices on both sides of this nicely struck key date issue. The eye appeal really is quite nice for the assigned grade, a date that rarely comes with so much original red coloration and luster-these usually come quite lackluster.

PCGS 59, NGC 40, CAC 19. We can find records for three PCGS/CAC coins in MS65 RB, each one selling from \$10,000-11,500, the most recent in April 2015. The current PCGS Price Guide value is \$9,500 and we can see this gem selling for more than that when it crosses the block. Keep in mind we sold a PCGS MS66 RB for \$30,550 last year and remember in full RD a GEM would cost between \$15,000 and \$20,000. This coin represents a great value and opportunity for anyone wanting a GEM with a lot of red!

Tied for FINEST graded 1937 cent in the RD category. Essentially flawless mirrors beam from all over with a rich totally ORIGINAL red coloration. A few teeny flecks are noted for full disclosure, but none detract from the SUPERB eye appeal of this pristine GEM.

PCGS 24, NGC 13, CAC 11. NONE ARE FINER. Two examples sold this year, the most recent selling for \$3,290. Prior to these two, only one other PCGS/CAC coin appears in our database, realizing \$6,325 in April 2011. The current PCGS Price Guide value is listed at \$4,250, and keep in mind that none are numerically finer (there are a handful in RD CAM, which if a PCGS/CAC coin was to appear at auction, would cost well over \$15,000!). Good luck.

A sharply struck and lustrous mostly red GEM that has only the slightest touch of mellowing, giving this first year two cent piece a great look!

PCGS 34, NGC 98, CAC 26. The most recent MS66 RB CAC sold for \$1,293 in the 2017 FUN auction. This coin's excellent eye appeal should make it bring more. The CU value is \$1,600. Only 2 MS66+ RBs are finer in the RB designation.

PCGS #3577 I EST: \$1,100+**LOT 98****2C 1866 PCGS MS65 RB CAC**

From the High Octane Collection. Rich orange-copper tones are brought out by a bold luster on the obverse, while the reverse has hints of olive and purple in the centers. Well struck and boasting exceptional eye appeal.

PCGS 77, NGC 68, CAC 26. The current PCGS value is \$750 and the most recent PCGS/CAC coin to sell brought \$705. This one is prettier and should sell for more.

PCGS #3589 I EST: \$600+**LOT 97****2C 1864 SMALL MOTTO. PCGS MS64+ RD CAC**

No question this coin borders full GEM MS65 RD condition. PCGS was very picky!

Very clean surfaces reveal virtually no marks. There are some minor toning dots scattered around. A strong luster does enhance the colors. Totally original shades of GEM Mint red are spread all over. There are NO PVC spots or discoloration's. All of the details are slightly frosted and well struck. The eye appeal is very nice!

PCGS 16, NGC 10, CAC 3. The last PCGS CAC Small Motto in this grade to sell in auction brought \$4,955 in June 2017. Keep in mind, a PCGS MS65 RD CAC could cost between \$15,000-\$20,000-if you could ever find one! This is a great representative of a long time "key" coin for the series.

2C 1868 PCGS PR67 RB CAC

Besides killer quality, this marvelous GEM is a near miss fully RED coin! It is one of the FINEST Proof 2C pieces graded in the Red Brown designation. Our sister company Legend Numismatics placed this GEM with a collector a few years ago. You will not see many of ANY date ever offered that look this stunning!

We call this coin about 80% GEM original Mint Red. The color is slightly faded and mixes with light gold. There are NO spots or discoloration's. Most impressive are the fire cracker like mirrors. They are deep, have bold clarity, are remarkably clean, and are highly reflective. Every detail is pinpoint sharp in strike and has moderate frost. The eye appeal is super!

ONLY 600 were minted. PCGS 2, NGC 4, CAC 1. NO PCGS piece has ever been sold at auction. An NGC PR67 RB sold for \$7,637 in August 2015. We assure you, this coin did not come out of a PR66 holder. The quality is really all there and then some. For CAC to bean it, you know that is true! Also, why its valued LESS than \$10,000 is a mystery to us. This is one of our favorite coins in our entire sale. The new owner will possess one heck of a coin!

3CS 1852 PCGS MS67 CAC

Simply stunning! Our sister company Legend Numismatics having built the #1 all time set of three cent silvers, has taught us how these come, and this one is among the finer examples they have seen! This coin is absolutely beautiful! Satiny and bright with full luster and just a whisper of champagne, teal and russet toning that spans both sides. Well struck, and every detail is razor sharp and the surfaces are remarkably smooth as would be expected at this lofty state of preservation. Wonderful for inclusion in a top level registry set or to represent the denomination in a superb type set.

PCGS 20, NGC 19, CAC 14. Only 3 are graded finer. This is truly an important coin for the specialist collector! The last PCGS / CAC 67 to sell realized \$4,700 in July 2015. PCGS Price Guide value is \$4,750! Neither of the MS68s have ever been sold at auction, and the sole MS67+ brought \$8,800 in June 2015. We expect this coin to hammer for a strong bid when we auction it off. Whether a 3CS specialist or type collector, bid liberally on this SUPERB 1852!

LOT 107

3CS 1855 PCGS MS66 CAC

This is an exceedingly HIGH-END piece. We think the deeper toning is why PCGS did not designate it a MS67.

Superb surfaces are as perfect as you will ever see. Even using a strong glass there are no imperfections to be found. The luster is moderate and deeper toning evenly blankets both sides in totally original shades of brown/forest green/pale navy that swirl all over. Every detail is sharply struck. The eye appeal is good.

PCGS 8, NGC 5, CAC 5. PCGS has graded only 1 coin finer-the Simpson MS67. The current Collector's Universe value is \$16,000. Since 1998 there have been only 5 auction appearances of any MS66 1855's. The rarity of this date in GEM, can NOT be over stated.

EX BENSON COLLECTION**

From the Dale Larsen Collection. There is nothing tiny about this tiny jewel. The eye appeal is marvelous and much finer than its modest, MS63 grade would suggest. Beautiful toning is amplified by a rich satin bloom! We doubt you can find a comparable example in this grade!

PCGS 79, NGC 55, CAC 7. The Benson pedigree is one of those classic, old school collections, sold about 15 years ago, after being assembled in the 1930s and 1940s. The CU value of \$400 may well prove to be low when this exceptionally choice coin crosses the block.

3CS 1869 PCGS MS66

Our sister company, Legend Numismatics is the world's foremost dealer of three cent silvers. They have assembled both the #1 and #2 Set in both Mint State and Proof. They have also handled every "finest known" example that exists (including the unique Proof 1851). When they first saw this killer piece our eye balls popped out and rolled on the ground! Only the MS68 (they placed) comes close to this coin's killer everything! In fact, before the MS68 came along, the was the coin in the Simpson Collection.

We grade this coin an MS66 8+! We have no idea why PCGS did not + it. There is no question this coin is a circulation strike. The surfaces are satiny smooth and have light prooflike mirrors. There is a surprisingly strong luster beaming from all over. Both sides have a mind-boggling mix of totally original royal/aqua blue colors. The peripheries have a light ring of violet/navy/green/gold colors on the reverse. Every detail is sharply struck and has light frost. The eye appeal is crazy!

Only 4,500 were minted. PCGS 5, NGC 9, CAC 3. NO PCGS CAC piece has ever been sold at auction. The lone MS67 traded privately for \$25,000 in 2014. We can't stress enough what a killer opportunity this coin is for a date that is considered a "stopper". When building the #1 all-time set, an 1869 was the last coin needed. There is no accurate pricing on this date and grade because they infrequently trade. This coin is more than worthy of any great GEM Set!

LOT 110

3CS 1872 PCGS MS67+ CAC

Having built the all-time FINEST Mint State Set of Three Cent Silvers ever--the Law-Simpson Collection, our sister company Legend Numismatics has searched all over to find the VERY BEST pieces. They state this piece is tied for the finest. Only the Simpson coin is it's equal. ANY 1872 in MS64 or higher grades is an exceptionally RARE coin. How this coin exists in this lofty state of preservation is miraculous!

Using a strong glass, you can see some light die clashing which proves out it being an Mint State vs a Proof. There are mirrored surfaces on both sides--that is to be expected from the tiny mintage 1,000 pieces. A phenomenal coating of light gold covers the centers while the peripheries are framed by a gorgeous ring of blue/violet colors on the obverse. The reverse is an even pale green/light blue/gold combo. Of course, the colors are totally original. Every detail is pinpoint sharp in strike and has thick frost. The eye appeal is like the rarity-tremendous!

PCGS 1, NGC 1, CAC 1. In MS67+ there are only 2 coins--this one and the Simpson coin (which will not be for sale in our lifetime). This coin last sold in auction for \$54,050 in a February 2015 auction. At that time Legend was contemplating starting another Mint State set-for its principals. Obviously, they changed their minds. This coin deserves to be placed in a remarkable collection! Once this coin is placed, chances are you will never have a shot at anything even close. The posted price guides are totally ridiculous--a coin like this should be \$50,000-\$75,000 easily in our opinion.

The mirrors resemble a sheet of ice when twirled. Both sides are pure nickel color with a touch of faint gold. Every detail is fully struck and has delicate frost. The eye appeal is wonderful!

PCGS 6, NGC 6, CAC 8. The last PCGS PR67 CAM CAC to sell in auction brought \$3,525 in a weaker FUN Sale in January 2015. The current Collector's Universe value is \$5,000.

This is a great coin to add to or start a GEM Proof Shield 5C set with. This is a set that can be completed PR65-67!

5C 1878 PCGS PR66 CAM CAC

A beautiful fully cameo GEM example of this proof only date. Rich mirrors beam across both sides and contrast against the wonderfully frosted well struck devices. Superb in both eye appeal and technical quality!

PCGS 24, NGC 12, CAC 10. Only 9 are graded finer in the CAMEO designation. The most recent example to sell in auction realized \$1,668 in a July 2017 auction sale. The current PCGS value is listed at \$2,250. With its superb look, the presently offered example should bring a strong bid from someone who realizes how cheap these are in the current market.

PCGS #83832 | EST: \$1,600+

LOT 126

5C 1885 PCGS MS66+ CAC

One of the keys of the Liberty nickel series, scarce in any grade, especially in Mint State. There are only three coins graded higher at PCGS than this SUPERB example. LRCA is proud to have had this coin consigned to this sale!

The eye appeal is about as fine as you can hope to find on an example of this type, regardless of date. A vibrant and seductive luster blooms on both sides showing hints of reflectivity on the obverse. Barber's Liberty head is boldly struck, all the details fully rendered by an exacting blow from the dies. They offer a frosty texture that is contrasted beautifully against the silky smooth fields. Both sides are awash with a pale periwinkle-lilac-lavender pastel iridescence. Unless you are looking at the virtually unobtainable MS67s, this is about as nice as you could ever hope to acquire for this date.

PCGS 53, NGC 14, CAC 13. PCGS has graded 21 examples in MS66+, and only 3 MS67s are graded finer. Only 1 MS66+ has ever sold in auction, a non-CAC coin that brought \$11,163 in the 2016 ANA auction. Keep in mind that we sold a regular PCGS/CAC MS66 for \$8,813 in our January 2017 Regency XX Auction. The only MS67 to have sold in auction was the Dale Friend coin, sold back in 2006 for \$74,750. In MS66+, the PCGS Price Guide value is listed at \$25,000. A true prize for anyone building a WORLD CLASS collection of Liberty nickels, this is your 1885! Do not let this opportunity slip past you!

Incandescent luster booms from both sides of this remarkable high end GEM! Well struck, the devices are all fully defined. The coin is as radiant and superb in eye appeal as it was the day it came off the press 120 years ago!

PCGS 23, NGC 7, CAC 8. The only PCGS/CAC coin to sell in auction was in the 2014 FUN auction, realizing \$4,114—a record price for the grade. The current CU value is listed at \$2,400. Good luck!

5C 1899 PCGS MS66+ CAC

Not your typical 1899 nickel! A vivacious mint bloom dances in the light, swirling around well struck devices and clean, mostly mark free fields. Superb in terms of overall eye appeal and technical quality.

PCGS 87, NGC 41, CAC 29. PCGS has graded 10 in MS66+. The most recent PCGS/CAC coin example to sell realized \$2,468 in February 2017. Our database does show records of over \$4,000 a few years back. Keep in mind only half a dozen are graded finer. In MS66+ the current Collector's Universe value is listed at \$3,000. The market has unfairly beaten down the values of Liberty nickels, making them an attractive series to look into collecting.

5C 1883 WITH CENTS. PCGS PR67+ CAM CAC

A wonder GEM! We have no problem calling this coin the FINEST graded!

Deep and nearly ultra-deep mirrors vividly beam from all over and have intense clarity, cleanliness, and are of course highly reflective. When you twirl this coin, the mirrors resemble a freshly made sheet of ice. Miss Liberty and every detail are needle sharp in strike and have gorgeous thick white frost, providing an outstanding contrast. The eye appeal is stunning!

PCGS 5, NGC 4, CAC 3. This is the ONLY PR67+ Cameo graded anywhere. Only NGC has two coins higher. We can see record and aggressive bidding on this GEM. The last PCGS PR67 (NO +) sold for \$10,575 in June 2014. We doubt you will see anything similar in the next few years appear in auction. Opportunity could not be any stronger here!

PCGS #83881 | EST: \$9,000+

**LOT 131****5C 1886 PCGS PR67+**

This coin has colors that would make a peacock in heat jealous! Boldly reflective mirrors are enhanced by a dusting of iridescent gold, icy blue, and clear lilac hues. Sharply struck and very attractive. We sent this SUPERB GEM to CAC, and it did not bean. We are not sure why, and we totally disagree with them--this coin is pure Legend caliber and the eye appeal is amazing--there is a reason this coin is tied for finest certified by PCGS.

PCGS 2, NGC 2. Only one NGC coin has sold in auction, a CAC-approved example selling for \$8,225 back in June 2014. The current Collector's Universe value is \$4,900. Remember, this coin is full Legend quality and should see spirited bidding!

Good luck!

PCGS #3884 | EST: \$3,000+**LOT 132****5C 1903 PCGS PR67+ CAM CAC**

This coin is so insanely cameo and mirrored it might be worth more RAW! We have never seen another 1903 like it--that is just as deeply CAM and NOT a DCAM. Plus, the quality is SUPER high end! Seriously deep-really ULTRA deep mirrors seem endless. They are crystal clear, super clean (there are some tiny toning dots), and have nearly blinding intense reflection! The mirrors look like a freshly made sheet of glass when the coin is twirled. Miss Liberty and the details are needle sharp in strike and have thick creamy white frost. The eye appeal is a "killer" black and white that will make you jaw drop!

PCGS 13, NGC 14, CAC 16. PCGS has 7 graded PR67+ CAM with only 2 in PR68 CAM. This SUPER HIGH END GEM offered here is NOT comparable to any average \$2,500 regular 1903 PR67 CAM either. This coin really DOES sing and dance. The last PCGS PR67+ CAM to sell at auction brought \$2,585 in November 2016 and looked nowhere near this piece. Prior that, the last one brought \$7,344 in March 2013. One look and you will never put it away. The mirrors really are like a flash of lightening!

Our price is extremely reasonable and realistic. We expect strong competition for this amazing black and white GEM!

PCGS #83901 | EST: \$3,500+**LOT 133****5C 1886 PCGS PR67+**

Icy mirrors shine with accents of pale, light blue and lilac iridescent hues. The mirrored fields are simply flawless and the devices crisply struck up. The eye appeal is simply magical!

PCGS 24, NGC 8, CAC17. A small grouping of these were sold in June and July of this year, each selling in the \$1,500 range. We sold one of the 6 PR67+'s that are finer for \$2,174 in our July 2017 Regency Auction. Good luck.

PCGS #3905 | EST: \$1,500+**OUR ESTIMATES**

The estimates you see published in this catalog are just that: estimates. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so collectors can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality.

There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

5C 1909 PCGS PR67+ DCAM CAC

WOW, WOW, WOW! We doubt that we said enough WOW's! This coin is the ultimate 1909 5C!

MONSTER DEEP mirrors explode from all over. The mirrors are exceedingly clean, have beyond amazing clarity, and are so reflective you need Ray Bans on to view this coin with. You don't have to twirl this coin to be impressed-this coin will twirl itself it is so wild. The contrast is off the charts. There are NO spots or problems anywhere. Miss Liberty and every detail is needle sharp in strike and look like they had been carved out of a block of ice. One look and you will never forget this coin wild eye appeal. You are not going ever seen many 5C that are better!

PCGS 0, NGC 3, CAC 2. The pops and the PCGS verification do confirm there are two pieces graded PR67+ DCAM. We would LOVE to see the other. Of course, neither has been sold in auction. There are NO regular PR67 DCAM's graded. The current Collector's Universe value is \$24,000. We can easily see that as a price realized. Even if you do not collect Proof Liberty Nickels, but need one coin as an example-this coin is it!

Good luck!

**LOT 135****5C 1911 PCGS PR67 CAM CAC**

WOW--what deep mirrors this coin has! Brilliant and flashy, the chrome-like mirrors shine bringing out a vivacious, seductive iridescent iridescent gold toning. The exceptionally well struck devices are fully frosted and contrast beautifully against the icy mirrors. The eye appeal is SUPERB!

PCGS 16, NGC 7, CAC 12. The most recent example to sell in auction realized \$3,995 in January 2017; the eye appeal of this one is far superior! Only a single PCGS PR67+ CAM is finer. While the market has battered prices for Proof nickels, a special coin like this will always see strong bidding! Good luck!

**LOT 137****5C 1915 PCGS MS67+ EX ANGEL DEE' TONED SET**

This coin was originally in our December 2016 Sale of the Angel Dees set. Here was the description:

Bold sunset hues frame the obverse and a satiny-lustrous sheen back lights the toning. When viewed under a light, the colors are enlivened, with rich orange and gold, with hints of violet and lilac that appear when the coin is rotated. The reverse is perhaps a touch more understated than the reverse, but its technical quality is superb. Well struck and nearly flawless (we note a tiny dot on the lower obverse). The details are fully struck.

PCGS 5, NGC 0 (for MS67+). NONE ARE FINER. We note the last example was not anywhere near as pretty as this GEM, nor was it as well struck. It realized \$4,465 in a weak auction, the 2016 FUN auction. The previous two MS67+s to sell were both CAC and realized \$4,700 and \$5,640 respectively in the 2015 FUN auction sale, and again, neither had the very pretty toning of this coin. This coin sold for \$5,287.50 in the December Sale of this collection. The owner is looking at a different series now. The current PCGS Price Guide value is \$5,250. Just like in the original sale, we expect some serious competition to add this superb 1915 to any top tier set.

PCGS #3927 | EST: \$4,000+

**LOT 136****5C 1914-D PCGS MS65 CAC**

From the High Octane Collection. Lustrous with pleasing iridescent toning and a strong strike. Spots and hits are non-existent. This is a good looking true GEM.

PCGS 183, NGC 69, CAC 39. PCGS/CAC coins have sold in the \$1,000 to \$1,500 range the last few years, and the current Collector's Universe value is listed at \$1,400.

PCGS #3925 | EST: \$900+

LOT 138

5C 1916 DOUBLED DIE OBVERSE. PCGS AU50 CAC

From the High Octane Collection. Rich silver gray toning graces both sides. Slight satiny luster remains in the devices. Light high point wear is noted, but there are no serious marks or ticks.

The doubling is boldly visible at the date and the lower feather. The error is very rare and in demand in all grades. First discovered in the 1960s, and reported in the July 1962 Numismatic Scrapbook magazine. Today, the estimates range from about 200-400 examples, most in mid range circulated grades like VF. Very rare in AU, and nearly prohibitively so in Mint State.

PCGS 11, NGC 6, CAC 1. There has not been an AU50 sold in auction since 2013, where a PCGS coin sold in the FUN auction for \$25,850--that coin was NOT CAC. With this coin's originality it should sell for more. The current PCGS Price Guide value is listed at \$28,500. Remember, the price jumps dramatically in mint state. Good luck.

PCGS #3931 | EST: \$25,000+

LOT 139

5C 1916 DOUBLE DIE OBVERSE. NGC AU55

FS-016 as noted on the NGC insert. A rare and popular variety in the series, and in constant demand as such! The presently offered AU55 has just a touch of high point friction over otherwise exceptionally well defined features. Hints of luster burst through the even slate, russet, olive, and gold hues.

The doubled features are bold and completely visible to the naked eye. Not only is the doubling noticeable at the date and feathers, but also the profile shows bold doubling. The eye appeal is really superb for the assigned grade, as many we see are lacking in definition and eye appeal. Rarer than the other key varieties in the series, the 1918/7-D and the very famous 1937-D 3 Legged. Survival estimates range from 200-400 in all grades, with most being in the VF range.

PCGS 20, NGC 20. The most recent NGC-graded coin did not have the definition of this impressive coin, selling in February 2016 (the depth of a poor market) and still realized a very strong \$32,313. The current PCGS value is listed at \$35,000.

PCGS #3931 | EST: \$22,000+

LOT 140

5C 1920-D PCGS MS65+

A condition rarity that becomes prohibitively RARE any finer! Beautiful lustrous surfaces beam from below a layer of exceptionally resplendent iridescent toning. Apricot, lilac, and champagne tones blend together on both sides, somewhat richer on the reverse. The strike is stronger than normally encountered for this date, imparting a superb visual allure!

PCGS 11, NGC 0. Only five MS66s are graded finer at PCGS. The most recent examples have sold for \$6,463 and \$7,638. Now keep in mind that a 66 is worth well in excess of \$45,000! In 65+ the Collector's Universe value is listed at \$9,500. We expect spirited bidding when this GEM crosses the block. Good luck!

PCGS #3945 | EST: \$6,000+

LOT 141

5C 1920-S PCGS MS65 EX ANGEL DEE'S TONED SET

Beautiful iridescent rainbow hues grace both sides of this tough early Buffalo. The shades of teal, pink, gold, and pale orange are really picked up by the light when rotated. Both sides are well matched, which according to our consignor's notes "is tough for this date, finding an example with an even look on both sides." The luxuriant luster shines under the lovely colors. The strike is even and the devices boldly defined. Only under close inspection can we find a few tiny flecks. Not only does this GEM have a nice eye appeal, it is certainly among the finest graded at PCGS.

PCGS 23, NGC 15. Only TWO are graded numerically finer at PCGS, a single 65+ and a 66. This coin sold for \$14,100 in our December 2016 offering of Angel Dee's Collection, The collector who bought it decided to change directions and has decided to consign it back to us. The last PCGS MS65 to sell in auction was back in a December 2014 auction, a gray toned, spotty coin, sold for \$12,338. This coin is much more eye appealing, with nicer color and better overall look. The PCGS Price Guide value is \$16,000. Going through the photos of prior MS65s this coin has the look of many coins in NGC "STAR" holders, with the added cache of being certified by PCGS. It will take a very long time to find another with such great color!

PCGS #3946 | EST: \$13,000+

LOT 142

5C 1921 PCGS MS67

A SPECTACULAR gem that ranks among the FINEST graded! With its bold, satiny mint luster and boldly struck devices, it is not hard to see how it earned its lofty grade at PCGS.

PCGS 31, NGC 12. The most recent example that sold was the more vividly toned coin from the Angel Dee's Collection that we sold in the December 2016 Regency Auction. The four others sold in 2016 realized in the \$3,500-\$4,500 range. A beauty for any advanced set!

PCGS #3947 | EST: \$3,200+

LOT 143

5C 1923 PCGS MS67 EX ANGEL DEE'S COLLECTION

A wonderfully beaming luster shines on both sides, illuminating the immaculate surface quality. Boldly struck with full, crisp definition throughout. A short, narrow band of pastel iridescent toning creates a crescent of color along the lower obverse periphery. A glowing iridescence, similar to the obverse arc blankets the reverse and is amplified by the magnificent swirling luster.

PCGS 17, NGC 9. NONE are graded finer at either service. Before this coin realized \$7,050 in our December 2016 sale of the Angel Dee's coin the last PCGS MS67 to sell in auction, a frosty, untoned coin realized \$9,400 in the 2015 ANA auction. The current PCGS Price Guide lists a value of \$8,500 in MS67. Our consignor has decided to change collecting goals and this beauty should find serious bidding competition among, not just color collectors, but also those competing for Registry Set domination.

5C 1924-D PCGS MS66 CAC

This resplendent, satiny, uber-GEM is TIED FOR FINEST graded! Technically the quality is all there and then some. A rich satin luster glows below the light iridescent peachy-tangerine iridescent toning that blend with icy-blue accents when rotated in a light source. The devices are sharply struck displaying full definition of the details. In all, the eye appeal of this jewel is exceptional and cannot be improved!

PCGS 8, NGC 1, CAC 1. As the only CAC-approved this coin is arguably the finest known! This piece does not appear to be one of the examples listed in our auction database, and none of those were CAC. One sold for \$44,063 in June 2013. More recently they have been selling in the \$16,500-\$23,500 range-- the current Collector's Universe price is listed at \$20,000. A great addition to any top tier set of Buffalo nickels. We can see specialist collectors stampeding to bid on this superb gem!

**LOT 146****5C 1925-D PCGS MS65 CAC**

Delicately toned with a dusting of icy teal/blue that blend with some pale gold and brought out by a lovely satin bloom. Well struck for the date and displaying a wonderful originality, this coin possesses a high end eye appeal that you generally do not see on 25-Ds.

PCGS 110, NGC 46, CAC 18. Only eight examples have sold in auction, the most recent one to sell realized \$3,760 in April 2017. Before that, one sold in June 2016 for \$5,640. The current PCGS Price Guide has listed a value of \$4,000. VERY RARE finer!

PCGS #3955 | EST: \$3,500+

**LOT 147****5C 1926 PCGS MS67**

Light golden iridescent hues accent the lustrous surfaces and nicely struck devices. Problem free surfaces. Exceptionally bold eye appeal there are only two coins graded finer.

PCGS 46, NGC 16. Most non-CAC coins have sold in the \$2,000 to \$3,000+ range--the current Collector's Universe value is listed at \$3,750. Only two MS67+ coins have graded finer at PCGS, the most recent example selling in our offering of Angel Dee's Collection, where it sold for \$9,694. This one is a great example for any high ranking Registry set.

PCGS #3957 | EST: \$1,800+

**LOT 148****5C 1931-S PCGS MS66 CAC**

A lovely glowing, icy mint bloom shines on both sides of this PQ GEM! A light mark on either side, hidden in the details, are all that keep this magnificent coin from a higher grade.

PCGS 484, NGC 63, CAC 101. The most recent PCGS CAC coin to sell in auction realized \$646 in February 2017. We think this coin will sell for the same, or slightly more when it crosses the block. In MS66+ they jump to a CU value of \$2,000 and in MS67, it would be worth \$25,000+.

PCGS #3971 | EST: \$575+

Lustrous with bold iridescent color. Light gold, pale sky blue, emerald green hues grace the rims, with light, icy blue in the centers, imparting great eye appeal.

PCGS 148, NGC 36, CAC 33. The last CAC coin was graded by NGC and sold for \$4,465 in the recent 2017 ANA auction. Before that, two PCGS sold for \$1,057 and \$1,645. The current PCGS Price Guide value is listed at \$1,500. Only 16 are finer at PCGS and the most recent PCGS/CAC MS67+ sold for \$4,230 in our sale of the Angel Dee's Collection.

PCGS #3974 | EST: \$1,200+

LOT 150

5C 1936-D/S. FS-511. PCGS MS67 CAC

This is the SOLE FINEST example of this D/S variety. Brilliant nickel luster shines on both sides of this beautifully toned SUPERB GEM. Pastel iridescent rose, gold, olive, and icy blue tones grace the obverse, and a broad swath of gold dominates the right side of the reverse. Well struck throughout. The reverse die began with a S mintmark; then the proper D mintmark was punched over the errant S.

PCGS 1, NGC 0, CAC 1. For the entire date, regardless of variety, there are only four coins graded finer. Prior to this coin being certified, the finest to ever sell was a PCGS MS65 which sold for \$2,115. In the lofty MS67-grade, PCGS has not assigned a value for the D/S variety-- but they do value a 65 at \$2,350. Another point of data is the \$10,575 that the MS67+ CAC Angel Dee's coin brought in our December 2016 auction. Advanced collectors of Buffalo nickels cannot afford to miss this opportunity! Good luck!

LOT 151

5C 1937 PCGS MS68 EX ANGEL DEE'S TONED SET

From our Regency XIX offering of the Angel Dee's Toned Set of Buffalo Nickels, where we described it as: "An amazingly high grade survivor, one of the finest in the entire series, certainly for the date, and one of only a couple of 68s in the Angel Dees set. Well preserved, the surfaces are pristine and as nice today as the day it came off the dies. Lovely pastel patination accents the boldly struck and expertly executed strike."

PCGS 11, NGC 9. Only one PCGS MS68 has ever sold in auction, realizing \$8,225 in the recent 2016 ANA auction. The current PCGS Price Guide value is \$19,500. This coin is bound for a fine type set or a superb set of Buffalo nickels."

This coin realized \$12,338 on an estimate of \$7,500-\$8,500. Our consignor has decided to change course and collect another series, giving you a rare second chance! Good luck!

5C 1937-D 3 LEGGED. PCGS MS63 CAC

From the High Octane Collection. A lovely, originally toned CHOICE 3 Legged nickel. Rose and gold accents are dusted over pleasing frosted surfaces. Nicely struck for one of these.

An always popular and well known variety, it was created when a mint employee filed off some clash marks from the die, accidentally removing the front leg of the bison.

PCGS 348, NGC 299, CAC 62. It's been nearly a year since the last PCGS/CAC coin sold in auction, realizing \$3,525 in November 2016. The current PCGS Price Guide value is \$3,800 and these have sold for more than \$4,000 in the past. A key date bound for a fine set!

LOT 153

5C 1937-D 3 LEGGED. PCGS MS65+ CAC

A very high end coin, BOTH technically and aesthetically. A very nicely toned example of one of the most famous of all U.S. coins.

Everyone has heard about the rare 3 Legged Buffalo nickel, a coin that is scarce in all grades, but in Gem Mint State as here, they are incredibly rare! The eye appeal is truly high end! A brilliant lustrous bloom accents the totally original iridescent tones that grace both sides. LRCA is pleased to have been able to offer some of the finest examples to cross the auction block in the last year and half, including 3 MS65+, a PCGS MS66, and the PCGS MS66+ CAC. This one is, simply put, among the best looking of this magnificent trio of GEMS. It truly is that beautiful with only a few tiny ticks that prevent an even higher grade, and is more than worthy of its superlative grade and coveted CAC sticker. This popular variety was created when an employee of the Denver Mint discovered that the dies were seriously clashed. In an effort to remove the clash marks, the inexperienced worker took an emery board and without realizing removed not just the marks, but also removed one of the buffalo's legs.

PCGS 60 (only 5 are +), NGC 59 (only 3 is +), CAC 27. We sold the most recent in our January 2017 Regency Auction, which realized \$36,425 and the current CU value is \$39,500. Keep in mind that the non-CAC MS66 sold in our May 2016 auction for \$55,813. If you collect Buffalo nickels and need a superb looking example for your set, or just enjoy really sexy coins, you really should plan on bidding on this stunning coin!

5C 1938-D BUFFALO. PCGS MS68 EX ANGEL DEE'S

WOW! It's like looking into a kaleidoscope. The vibrant colors mystify the eye. Both sides are superb in quality, free of any distractions. Magenta, pink, gold, orange and hints of green frame both sides, although a touch more vibrant on the obverse. This is clearly one of the more beautifully and colorfully toned GEMS in the Angel Dees Collection.

PCGS 20, NGC 21. Clearly none are graded finer. The current PCGS Price Guide value is listed at \$16,500, and the most recent example brought \$11,750 in June 2016. This highly attractive superb gem should bring a substantial premium when the advanced collectors go after it.

**LOT 155****5C 1936 SATIN. PCGS PR67**

The year saw the first of the "modern" proof sets, featuring one of each denomination sold to collectors. The 36 set had a mintage of 4,420, and the cent and nickel were struck in two finishes, first the Satin which had a finish similar to Roman finish proofs, and highly polished Brilliant proofs, struck later. This one is a well preserved and nicely toned Superb Gem with only a few teeny flecks to note.

PCGS 281, NGC 135. The current PCGS Price Guide value of \$2,100 is in line with recent APRs. The Proof Buffalo Nickel series from 1913-1916, 1936-37 are a very neat area to collect: presenting a great design and good value.

PCGS #3994 I EST: \$1,700+**LOT 156****5C 1936 SATIN. PCGS PR67 CAC**

The first of two proof finishes for the year, and the presently offered Satin proof is superb in every way. Hints of reflectivity can be seen in the fields that dazzle under the light iridescent hues.

PCGS 287, NGC 135, CAC 107. The most recent example realized \$1,939 in June 2017 and the current PCGS value is listed at \$2,100. The present example is certainly worthy of a premium bid!

PCGS #3994 I EST: \$1,750+**LOT 157****5C 1937 PCGS PR66+**

From the Dale Larsen Collection. Beautiful watery reflective mirrors are blinding in the light. Pretty pastel pink, gold, and icy blue coloration adds to the superb eye appeal.

PCGS 18, NGC 5. These do not appear at auction with any frequency--especially looking like this one! The current CU value is \$1,700 and that level will likely be exceeded when this one crosses the block!

PCGS #3996 I EST: \$1,500+**LOT 158****5C 1937 PCGS PR67 CAC**

The final proof Buffalo nickel issued, and this superb gem is highly reflective with PQ, glassy reflective mirrors. The eye appeal is quite nice.

PCGS 468, NGC 330. The most recent example to sell realized \$2,115 in April 2017, and the current Collector's Universe price is listed at \$2,000.

5C 1942-P TYPE 2. PCGS MS68

Presented here for your bidding pleasure is the SOLE FINEST PCGS certified 1942-P "War" nickel.

Boldly lustrous with dramatic and colorful toning on both sides, pastel gold, peach, champagne, and bands of rainbow grace the smooth, problem free surfaces. Nicely struck, with parts of all six steps on Montecello visible, just not fully rendered to the point of a FS designation. The eye appeal is about as fine as you could ever expect to see for a War nickel.

PCGS 1, NGC 3. This coin has not been in auction. The last NGC coin sold for \$4,113 in a June 2014 auction. The presently offered coin offers a cleaner, more colorful look, and bound for a real bidding war. PCGS suggests a value of \$4,740 in this lofty grade.
Good luck!

5C 1959 PCGS MS67 FS

This coin is tied for FINEST KNOWN at PCGS! Exceptional superb mint state surfaces are satiny and lustrous, both sides are razor sharp in strike. Very light iridescent toning can be seen on both sides. The eye appeal is wonderful! This date is generally common, but in SUPERB gem grades it is quite scarce, and with a full strike, as here, VERY RARE.

PCGS 2, NGC 3. None have sold in auction. The Collector's Universe Price Guide lists a value of \$15,000 in this very lofty grade. Jefferson nickels really are becoming a very popularly collected series and we can see specialists battle it out to acquire this superb coin for their set. Good luck!

5C 1951 PCGS PR67+ DCAM

Among the finest DCAM examples that exist. These early proofs rarely come with full contrast between the frosted white reliefs and the deep black mirror fields. The eye appeal is exceptional and this coin is quite beautiful!

PCGS 1, NGC 0. There is only five finer, all PR68 DCAM finer at PCGS. This coin has not been through auction and the most recent PR67 DCAM PCGS sold for \$3,055 in July 2016 and a PR68 DCAM sold in November 2016 for \$4,465. The current PCGS Price Guide value for PR67+ DCAM is \$3,750. Building a high ranking Registry Set of Proof Jefferson nickels? Bid on this one!

H10C 1794 PCGS XF45 CAC

If you love early bust coins, especially first year issues, this coin's quality will delight you! A lightly circulated, highly attractive example of the first "regular" issue half dime struck for circulation. Deep toning, draped in slate, battleship, and blue-gray hues. Struck using the LM-4, V-4 die marriage, which was struck in 1795, after the reverse die was paired with a 1795 obverse die. This is a scarce variety, rated as R-4.

PCGS 16, NGC 10, CAC 5. The most recent example to sell in auction realized \$7,700 in our April 2017 Premier Sessions Internet Only Auction. The current Collector's Universe value is listed at \$7,000. This coin is the equal to the one we sold. A great early type coin in collector grade!

LOT 163

H10C 1805 PCGS VF20 CAC

LM-1. A totally original and very pleasing VF example of this scarce early type. Only 15,600 half dimes were struck from a single set of dies. The presently offered example has nice definition and pleasing medium toned surfaces that will appeal to any picky collector of mid-grade circulated early type and certainly worthy of a premium bid.

PCGS 4, NGC 0, CAC 1. The most recent example to sell in auction realized \$3,290, but that coin had some serious marks. This coin sold in auction for April 2012, realizing \$4,025, close to what the current PCGS Price Guide value is listed at (\$4,000). Now with CAC-approval, this coin should see strong bidding.

H10C 1830 PCGS MS67

One of the very FINEST 1830 half dimes graded, bested by only a single MS68. A pearlescent, frosty luster blooms on both sides bringing out the crisply defined details. A touch of the lightest gold iridescence can be seen, adding to the allure. The eye appeal is SUPERB, matching the technical qualities.

PCGS 6, NGC 3. The only other PCGS MS67 that has sold since 2009 was the Pogue coin that sold for a record \$18,213 in May 2015. The current PCGS Price Guide value is listed at \$13,500.

Perfect for any high-end type set!

OUR ESTIMATES

The estimates you see published in this catalog are just that: estimates. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so collectors can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin.

The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

H10C 1837 NO STARS, SMALL DATE. PCGS MS67 CAC

Gobrecht's original design did not have the obverse stars, making the figure of Liberty stand out against the plain fields around, giving it an almost cameo like appearance, and more elegant to the eye.

This SUPERB GEM is fully struck, fully defined devices were imparted by an exacting and precision blow from the dies. A billowy satin luster captures the light and brings out the depth of the strike and provides a wonderful back lighting effect for the subtle amber, russet, tan, and olive accents. This jewel has a SUPERB eye appeal. The only year this obverse type was coined at the Philadelphia mint (although No Stars half dimes were struck in New Orleans in 1838). As a first year of issue, and a very short lived subtype, GEM No Stars half dimes always see spirited bidding. The Small Date variety is much scarcer than its Large Date counterpart overall, but in MS67, the populations are very close.

PCGS 6, NGC 4, CAC 5. The most recent PCGS example to sell in auction was the James Lull-D. Brent Pogue coin, which realized a robust \$28,200. Before that, an NGC/CAC coin sold for \$22,325 in June 2014. The current PCGS Price Guide value is listed at \$22,500. This coin is truly among the best examples and it is FULLY PQ and very high end. Bound for a great type set.

JR-3. Beautifully toned! An amazing looking GEM AU that possesses an eye arresting blend of blues and rich golds that are brought out by a satin-like bloom that survives in the protected areas. The devices are sharply struck and display great detail.

PCGS 22, NGC 4, CAC 6. None of the examples reported in our Auction Database were CAC approved. Two PCGS coins are reported as sold in auction last year, one for \$1,410 and one for \$1,528. This one has an eye appeal that is far superior to those, and should command a serious bid!

10C 1829 LARGE 10C. PCGS MS63 CAC

Very high end quality! A beautiful, semi-prooflike JR-2. The fields are flashy and somewhat mirror-like on the obverse, while the reverse is a much frostier. Pleasing toning is relegated to the peripheries, framing the sharply struck devices. A few teeny lines can be seen under magnification, but they do not detract from the wonderful eye appeal.

PCGS 3, NGC 2, CAC 2. There has not been a PCGS MS63 example sold in auction since August 2006--11 years ago! Clearly these do not appear at auction with any frequency. For the early dime variety collector, this is an important opportunity! Good luck.

PCGS #94511 | EST: \$3,000+

LOT 172

10C 1831 PCGS PR66 CAM

An exceptional quality and extremely RARE early proof--the finest example graded by PCGS. Deep, dark mirrors vividly bring to life the layer of rich aqua-royal blue and violet hues that drape the finely struck details. The icy smooth mirrored fields are especially devoid of any contact marks or hairlines of any marks.

Any proof struck before 1858 is very rare, and anything prior to 1840 exceptionally so. The original mintage of an estimated 20 examples was struck using two die pairs, JR-2 (as here) and JR-4. The JR-2 is considered Rarity-7 in Proof. In his encyclopedia on proof coins, Walter Breen enumerates 7 examples, and states, "Known as a great rarity since the Levick sale of Oct. 1864" The Legendary Floyd Starr Collection (Stack's October 1992) contained a GEM example, and it was noted there: fewer than 10 are believed to survive. Missing from the Bareford, Hawn, and Garrett Sales." We also note that the Eliasberg collection did not have a Proof dime from this year.

PCGS 1, NGC 1. (The same coin). This coin last sold in auction in August 2011 for \$57,500 and the current PCGS Price Guide value is listed at \$75,000. Based on its many exceptional characteristics--rarity, technical quality, high grade, and overall eye appeal--this coin should see fierce bidding competition when it crosses the block. If you are a specialist in early dimes, pre-1858 proofs, type coins, or are just putting together a box of 20 uber cool and sexy coins, you owe it to yourself to consider this GEM.

LOT 173

10C 1837 NO STARS, LARGE DATE. PCGS MS66 CAC

This is a totally original "old time" looking SUPERB GEM. We can't stress how overlooked and hard to find this date is.

Superior surfaces are the epitome of perfection. Even if using a strong glass clearly there is NOTHING to find. We do note there are two wicked cool die cracks (not clashing) at 4:00 and 7:00 at the bottom of the obverse by the skirt. A moderate luster enhances the thicker but totally original gold/pewter/deep champagne colors (in person the toning looks sweet). In fact, we believe if the toning were more lively this coin would easily grade MS67! The eye appeal presents well and is excellent!

PCGS 6, NGC 6, CAC 2. PCGS has graded only 3 higher (2 are beaned). NOTE: The last MS67 to trade sold for \$63.250 a decade ago in 2007! The Pogue MS66 coin which was CAC (not listed in the catalog) sold for \$17,625 in March 2017. This currently is the ONLY other beaned example for sale. 10C 1839-O NO DRAPERY. PCGS MS66+ CAC

This is the famed Gene Gardner coin, a stunning SUPERB GEM that ranks among the very finest of this early Seated Liberty dime.

The visual appeal and technical qualities are SUPERB in every way possible. The first thing that hits you is the exceptional, totally original iridescent patina on both sides. Lovely pastel blue, gold, and rose shades blend together over an abundance of satiny mint frost. Well struck throughout the details are very sharp and the fields are very smooth and free of any distracting marks or lines.

A very interesting variety that displays a boldly repunched mintmark and bisecting die crack across the reverse, bearing the attribution: Greer-102, Fortin-104a, FS-501.

PCGS 5, NGC 5, CAC 2. There is only a single MS66+, and three coins finer at PCGS. A regular MS66 graded by PCGS without CAC approval sold in March 2017 for \$12,925 and in our Regency Auction XIX (December 2016) a PCGS MS67 CAC sold for \$25,850. The current PCGS Price Guide value is listed at \$19,000. A great type coin or a high end Seated dime collection.

10C 1840-O NO DRAPERY. PCGS MS65 CAC

A SUPER HIGH END piece. VERY rare and this piece is the FINEST known.

Superb and satiny smooth surfaces are all over. Even using a strong glass there are no serious imperfections to be found. The surfaces have a great original skin. There is a tiny copper stain on the reverse-proving this coin to be fully original. A typical moderate luster glows on both sides. Every detail is sharply struck and stands out. The eye appeal is excellent!

PCGS 1, NGC 1, CAC 1. This coin last sold in the Gardner sale of June 2014 for \$38,188. Even if you offer \$250,000, you can never find a better piece! We cannot stress enough what a tremendous opportunity this piece is for the Mint State Seated Dime specialist. At this point, with only 3 MS64's ever made by PCGS, it is safe to say they will not make another GEM MS65! Opportunity knocks loud here!

The FINEST graded at PCGS, this multicolored SUPERB GEM is exceptionally beautiful. Rich, totally original toning in shades of blue-green, lilac, orange-rose, blend with accents of olive-russet and hints of gold that bring out all the fully delineated details. The strike is bold and fully struck. Adding to the eye appeal are the stunning satiny smooth surfaces that display a rich satin mint bloom. Always popular as it was struck during the first year of the Civil War, and miraculously this coin somehow survived the horrors of that bloody conflict and the following 156 years of history.

PCGS 1, NGC 2. This magnificent coin is neither one of the two NGC coins, none have sold since 2010, nor does it seem to be one of the two PCGS MS66+s that have sold in auction. Collector's Universe lists a \$10,000 value. Good luck!

10C 1852 PCGS PR65 CAC

Legend Rare Coin Auctions is honored and proud to have received this marvelous super rarity for this sale. It is the unquestioned FINEST KNOWN for the date!

Surprisingly deep mirrors beam boldly from all over. The mirrors are exceptionally clean, have good clarity, and are highly reflective. When you twirl the coin, the silvery mirrors look like a freshly formed sheet of ice glistening in a winters sun. There is a very faint hint of gold spread all over-the coin does look silvery white. Miss Liberty and every detail are thickly frosted a silvery white and offer sharp strikes. The eye appeal is fantastic!

PCGS 1, NGC 0, CAC 1. There is NOT auction record of this coin ever selling. Some way, somehow, there is a Collector's Universe value of \$57,500. We think that number is way too cheap; here you have a 165 year old GEM Proof coin with an estimated mintage of 8. This coin is RARER than an 1894-S 10C-which in PR65 is about \$1.5 million! We feel a coin like this really should be worth \$75,000 to even \$100,000+. Think about how much this coin would be worth if it were gold-OMG! Being finest known and so rare, WOW! We expect serious bidding here. Good luck!

10C 1913 PCGS PR67+ CAM CAC

A MUST-SEE PIECE! It is clearly a VERY high end borderline DCAM. It is well worthy of its lofty PR67+ designation. Ultra-deep mirrors fire up from all over. They have extreme clarity, cleanliness, and nearly blinding reflectivity. We assure you, these mirrors are so deep and awesome they WILL spoil you! Even using a strong glass, there are ZERO imperfections to be found. When twirling this coin, the mirrors look like a freshly made glowing sheet of glass. Miss Liberty and the details are needle sharp in strike and boldly standout with thick blazing white frost.

ONLY 622 were minted. PCGS 3, NGC 3, CAC 3. This is the FINEST and only PR67+ graded for the date! PCGS has graded NONE higher. This piece last sold for \$5,640 in August 2016. The collector is now changing directions. If you're a Cameo purist, this coin has intense black and white contrast! WOW! We expect some serious bidders on this piece-be ready!

PCGS #84897 | EST: \$5,000+

**LOT 189****LOT 190****10C 1916 MERCURY. PCGS MS67 FB CAC**

A lovely superb GEM with a totally original look. Satiny luster blooms under richly toned surfaces and accents well struck devices.

PCGS 148, NGC 93, CAC 86. In July 2017 one sold for \$1,175 and the current PCGS value is listed at \$1,250. What a great way to start a superb set!

PCGS #4905 | EST: \$900+

**LOT 191****10C 1919-D PCGS MS65 CAC**

Nicely and originally toned, this early, better date Mercury dime has a bold luster and nice strike, just weak at the extreme center. Rich silver-dove, slate, blue-gold toning dances in the light. Any picky collector of Mercury dimes will love this GEM!

PCGS 34, NGC 28, CAC 8. Very few are graded higher. The most recent CAC coin to sell in auction was the NGC-graded ex Eliasberg coin which sold for \$2,585 in the recent 2017 ANA auction. The most recent PCGS coin was not CAC, and was from the Blue Moon Collection, which realized \$2,350 in June 2017. With its nice eye appeal, this coin should certainly bring higher than that. With Full Bands, this date is a \$30,000+ coin in GEM.

This coin presents a great opportunity for the collector.

PCGS #4924 | EST: \$2,200+

**10C 1918 PCGS MS66+ FB CAC**

While overshadowed by other early dates, the 1918 Mercury dime is a condition rarity as well. Only seven coins have graded MS67+ FB or MS68 FB.

Sharply struck devices are seemingly sculpted out of smooth fields and display a brilliant, satin mint bloom. There is only the slightest hint of iridescent hues, giving this piece a wonderful look.

PCGS 49, NGC 18, CAC 14. There are 3 coins assigned the "+" grade at PCGS, with one at NGC. In MS67 FB there are four at PCGS, three at NGC. No CAC-approved PCGS MS66+ ever sold in auction, but a non-CAC coin sold for \$3,290 in October 2016. The current PCGS Price Guide value is listed at \$3,000 while in MS67 FB, the guide lists a value of \$13,000. If you collect SUPERB gem Mercury dimes, this one is deserving of your bids!

LOT 192

10C 1921-D PCGS MS65+ FB CAC

Bold satiny mint frost shines on both obverse and reverse. The winged head of Liberty and the fasces on the reverse are all very sharply struck (of particular importance are the bands on the reverse, which are fully separated and rounded). A touch of auburn-amber gold can be found at the lower obverse rim adding to the superb eye appeal. Even under strong magnification we are unable to find a single mark worthy of mention.

PCGS 67, NGC 39, CAC 11. This is the SOLE 65+ FB graded at PCGS. It has not appeared in auction, however, the following APR information should prove helpful: the last PCGS MS65 FB CAC sold for \$8,813 in the recent ANA auction; an NGC MS65+ FB CAC sold for \$10,575 in June 2016; and a PCGS MS66 FB (not CAC) sold for \$12,925 in June 2017. We think this coin will easily sell in our auction estimate range to an advanced Mercury dime collector!

PCGS #4937 | EST: \$10,000+

PCGS 26, NGC 13, CAC 12. Only two coins are graded finer at PCGS, both MS67+ FB. The PCGS CAC example sold for \$3,525 in December 2014. Worthy of a strong bid from any high end Mercury dime collector.

PCGS #4943 | EST: \$2,700+

LOT 194

10C 1938 PCGS MS67+ FB CAC

Lustrous, richly toned, and nicely struck, this SUPERB GEM has a lot to offer the advanced collector.

PCGS 295, NGC 142, CAC 64. There are only 26 coins graded MS67+ FB at PCGS, with ten graded finer. The most recent example to sell in auction realized \$940 and the current CU value is \$800. A similarly toned coin sold for \$2,233. Destined for an amazing collection of Mercury dimes.

PCGS #5011 | EST: \$850+

LOT 195

10C 1939 PCGS MS67+

From the Dale Larsen Collection. WOW! The color on this superb gem Mercury dime is out of this world! A strong mint brilliance makes the wonderful concentric rings of rainbow toning dance in a light. Well struck with just a touch of weakness on the central band keeping it out of a FB designation. Regardless, this coin is ALL about the color!

PCGS 37, NGC 8. Go ahead and throw away the available pricing data, this coin is going to bring serious bidding from toning aficionados. Good luck!

PCGS #5016 | EST: \$400+

LOT 197

10C 1939 PCGS PR67 CAM CAC

Not only is this piece the real deal of a cameo, it is SUPER HIGH END. PCGS could at least have + it in our opinion (no promises).

Incredibly deep mirrors beam intensely from all over and they are the epitome of clarity, cleanliness, and offer a nearly blinding reflection. You don't even have to twirl this coin to see the very real and intense contrast. The mirrors do look like a rolling river of mercury. Miss Liberty and every detail not only are needle sharp, they have crisp and vivid silvery white thick frost. The eye appeal is jaw dropping!

LOT 196

10C 1939-D PCGS MS67+ CAC

Lustrous with beautiful, antique multihued iridescent toning. The surfaces are smooth, and the strike is just short of full bands, just a touch of weakness on the edges of the central band keep this coin out of that designation.

PCGS 224 (3 in +), NGC 303 (5 in +), CAC 5. This coin is easily worth more than the \$125 the PCGS Price Guide suggests.
Good luck!

PCGS #5018 | EST: \$450+

PCGS 5, NGC 22, CAC 4. The last one in PR67 Cameo to sell in auction brought only \$4,025 in January 2012 that was 5 LONG years ago. That is a terribly long time for a coin to have NO auction appearances. We cannot stress enough how awesome looking and really rare this coin is. We expect intense bidding-good luck!

PCGS #85074 | EST: \$4,500+

**LOT 198****10C 1940 PCGS PR68 CAC**

From the Dale Larsen Collection. Superlative mirrors beam from all over, bringing a wonderful vivacity to the iridescent toning.

PCGS 27, NGC 44, CAC 7. Only a single CAC-approved PCGS coin sold in auction, back in the 2014 ANA auction, realizing \$3,055 and the current PCGS Price Guide value is listed \$3,500. This beauty should entice any advanced Proof dime collector!

PCGS #5075 | EST: \$3,000+

**LOT 199****10C 1949-S PCGS MS67+ FT**

Among the absolute finest graded at PCGS, indeed, none have been graded finer. Beautiful amber, orange, and gold hues frame F.D.R.'s well struck portrait, while an arc of similar colored tone enlivens the reverse from 11:00 to 3:00. The eye appeal is spectacular.

PCGS 7, NGC 1. Currently the PCGS CoinFacts.com plate coin. Only two have ever sold in auction: a frosty, untoned example in February 2017 for \$2,291 and a nicely toned coin in June 2013 for \$3,290. PCGS assigns a \$3,000 value in the current Price Guide. Tied for Top Pop, if the Roosevelt dime series is your specialty, this one is bound for a top end Registry Set.

PCGS #85093 | EST: \$2,000+

**LOT 200****20C 1875-S PCGS MS65 CAC**

Bold, beautiful, radiant cartwheel luster is blinding in its superb brilliance. The devices are sharply struck and the surfaces are clean and very nicely preserved. Conservatively graded and housed in an old style green tag holder.

PCGS 199, NGC 204, CAC 53. This coin is so PQ it brought \$4,888 when it sold in the March 2011 sale of the Denny Kemp Collection (a record for a PCGS/CAC MS65. With its stunning looks, it will see strong bidding yet again!

PCGS #5298 | EST: \$3,500+

**LOT 201****20C 1878 PCGS PR63 CAC**

The final issue of this very short-lived obsolete denomination, and a very pleasing looking coin. Rich mirrors have a watery reflectivity to them. The obverse is essentially a full CAMEO, while the reverse does not have enough contrast between the boldly struck devices and the nice mirrors. Light toning is evident at the rims, otherwise the surfaces are nice, original silver. The eye appeal and technical quality is very high end for the assigned grade.

Only 600 were struck. PCGS 141, NGC 54, CAC 5. Clearly there is much duplication in the PCGS and NGC Population figures. The only other PCGS PR63 CAC to sell in auction was the Teich Family Collection coin, which last sold for \$3,995 in January 2017's FUN Auction. The current PCGS Price Guide value is listed at \$4,500 which is in the range of what these have been bringing. This coin seems to be fresh to the market and should sell for a premium bid.

PCGS #5306 | EST: \$4,000+

LOT 202

20C 1878 PCGS PR65 CAC

A beautiful and totally original GEM example of this Proof-only date. Rich blue and aqua dominates on both sides, while the obverse has handsome accents of honey-amber that really pop in the light. The eye appeal is SUPERB. This is the final issue of this very short lived series, and ONLY 600 were struck.

PCGS 25, NGC 25, CAC 4. The last PCGS/CAC coin to sell brought \$9,400 in June 2017. The current Collector's Universe value is \$8,500 and we are certain that that in today's market this beauty could bring more! Worthy of a very strong bid to be sure.

PCGS #5306 | EST: \$11,000+

LOT 203

25C 1831 SMALL LETTERS. PCGS MS66+ CAC

B-2. A GORGEOUS SUPERB GEM and is finest certified by PCGS! You will fall in love with this coin at first glance; the toning is phenomenal. Lots of bluish-green-teal-aqua hues blend together over highly lustrous fields. The strike is not only bold, but it is FULL, each detail in Liberty's hair and drapery, the stars, dentils, and eagle are very strong, and completely rendered. The fields are silky smooth and even under intense scrutiny with a strong glass we are unable to find anything of note. This is finer than both of the Pogue coins, and is bested only by the NGC MS67+ CAC Eric Newman coin. This coin is of ultra high end quality and superior eye appeal.

PCGS 9, NGC 4, CAC 5. This is the sole PCGS MS66+ graded and none are finer. Pogue had two MS66s and one sold for \$55,813 in May 2015. The Newman NGC MS67+ CAC sold for \$117,500 in November 2013. The current PCGS value is listed at \$70,000. A perfect coin for a superb type set, or for the ambitious, for a GEM set of Bust quarters. A spectacular coin like this should see very strong bidding when it crosses the block.

PCGS #5348 | EST: \$45,000+

LOT 204

25C 1838 NO DRAPERY. PCGS MS65+ CAC

When we first saw this SUPERB GEM, our hearts raced. It is one of the BEST pieces we have ever seen for the Type! The quality is clearly VERY high end! In fact, we unhesitatingly state this coin is BETTER than the MS66 that sold in Pogue for only \$54,050 (and was NOT CAC). Had the Pogue coin been nice and CAC-it easily would have brought \$65,000+.

Exquisite surfaces are a collector's delight. Only if you use a strong glass and look really hard will find a pinpoint tick or two and that is it. Overall, the surfaces are clean and satiny smooth. A glowing type luster illuminates the beautiful toning. Moderate and very pretty shades of totally original purple/gold/pale blue/deep champagne swirl all over. Miss Liberty and the details are frosty and are boldly struck. The eye appeal is seriously gorgeous!

PCGS 2, NGC 6, CAC 4. PCGS has only graded THIS coin a MS65+. It is nearly impossible to find this date really nice like this. The last PCGS MS65 CAC sold in auction for \$32,900 in June 2014. Even though PCGS has graded 3 higher-only ONE is CAC. We cannot stress enough the beauty and superior quality of this piece. If you are building a GEM MS Quarter or Type set, this coin will easily fit in!

PCGS #5391 | EST: \$30,000+

**LOT 205****25C 1839 NO DRAPERY. PCGS MS63 CAC**

A visually impressive early Seated quarter, possessing the surface quality and eye appeal of an even higher grade. Rich golden tan, olive-russet, and steely-gray silver toning is brought out when the satiny silver frost hits the light. The surfaces are very smooth and clean for being "only" MS63.

PCGS 14, NGC 10, CAC 1. No CAC-approved example has ever sold in auction. The most recent non-CAC coin brought \$2,580 (we think it could represent a buy back) in a weak market (July 2016). Prior to that, PCGS coins were selling for nearly \$4,000 or more. The current PCGS Price Guide value is listed at \$4,750 and keep in mind, any finer, and the values increase dramatically.

PCGS #5392 | EST: \$3,200+

**LOT 206****25C 1843 PCGS MS62**

Briggs-2C--the so-called "Lightening Bolt" reverse. Glossy mint bloom shines in the fields with some iridescent hues. The large die crack that crosses the right wing inspired the colorful name. Thought to be the finest of the variety.

PCGS 11, NGC 10. Worthy of a strong bid from the specialist collector. Good luck!

PCGS #5404 | EST: \$1,750+

**LOT 207****25C 1860-S PCGS VF25**

A very rare Seated Liberty quarter, a date that only saw a mintage of only 56,000. Most known survivors are in the Fine to VF range, and this VF25 is quite pleasing! Nicely struck save for a small area of weakness at the lower reverse at 6:00. Dove-gray patination shows areas of tan and russet accented by charcoal around the devices. A great collectible grade this issue is unique in mint state.

PCGS 5, NGC 2. The most recent VF25 to sell was PCGS/CAC, realizing \$7,050 and this coin has sold in the \$4,000-\$4,500 in the past. RARE in any grade, so fill that hole in your set today!

PCGS #5453 | EST: \$4,000+

**LOT 208****25C 1874-S ARROWS. PCGS MS66 CAC**

Very pleasing pastel lilac, gold, violet, sky-blue, orange, tan, and teal bathe both sides of this highly lustrous and well struck SUPERB example. The eye appeal of this coin is simply stunning.

PCGS 34, NGC 20, CAC 9. Only 2 CAC coins have ever sold at auction, the most recent was in the January 2014 FUN auction, realizing \$13,513, and it was a blast white, untoned example. In this cataloger's opinion, this beautiful and ORIGINAL gem is much more appealing!

PCGS #5495 | EST: \$5,500+

LOT 209

25C 1883 PCGS PR68 CAC

Wicked nice! If this coin had been in a PR69 Cameo holder we would not complain. This is a "super star" coin. Deep mirrors are blooming with flash all over; they are also crystal clear and have remarkable cleanliness (they are so bold, they twirl themselves). A thin band of pale reddish gold is around parts of the rim only. Miss Liberty and every detail are thickly frosted and creamy white and are sharply struck, they looked like they were carved out a frosted block of ice. The eye appeal is stunning!

PCGS 3, NGC 3, CAC 4. PCGS has graded one coin a PR68+ CAM. The last PR68 CAC to sell in auction brought \$16,450 in March 2016 when things were a little weaker. We doubt you will ever see all 3 hit the market. We cannot stress how few opportunities there will ever exist to buy a top pop coin! This exceptional SUPERB GEM is worthy of inclusion in the FINEST set of Proof quarters or any wicked GEM Type set!

PCGS #85584 | EST: \$17,500+

LOT 210

25C 1884 PCGS PR67 CAC

A flashy SUPERB GEM with deep, watery mirrors that beam from all over on both sides. A cool, icy blue tone is thickly draped on both the fields and the sharply struck devices. Only 875 examples were struck and since the business strike mintage was a mere 8,000, many collectors opt for the proof for their sets.

PCGS 9, NGC 18, CAC 2. No CAC coin has ever sold in auction. The current PCGS Price Guide value is listed at \$5,750. Only two coins are finer, including the amazing PR68 PCGS/CAC from the Gardner Collection that realized \$25,850. A great looking SUPERB GEM--opportunity knocks loudly here.

PCGS #5585 | EST: \$3,500+

LOT 211

25C 1886 NGC PR67* ULTRA CAMEO

Normally we do not like too many non-CAC NGC coins. This one happens to be the real deal and all there! We admit, we did try to cross it once for the consignor. If we had owned it we'd play the game one more time. Real ULTRA deep mirrors powerfully beam from all over. The mirrors are exceedingly clean, clear, and have intense reflection. When you twirl the coin, besides being nearly blinded, you see a stream of what look like liquid mercury rolling around. There is a small line of mint grease on the reverse.

It certainly does NOT detract. The contrast is intense and really stands out from far away. Miss Liberty and every detail are sharply struck and have rich zesty frost. The eye appeal is just gorgeous!

PCGS 7, NGC 6. This coin last sold in January 2017 for \$4,700.00. Even though it is NGC, it still looks like a moose and should be worth more. The owner is selling it because he is now doing a Mint State Type set. Like us, he still likes the coin. We think this coin will earn some strong bids--be ready!

PCGS #95587 | EST: \$4,500+

**LOT 212****25C 1888 PCGS PR65+ CAM CAC EX BENSON**

From the Dale Larsen Collection. A beautiful GEM with exceptional old time blue and gold tones that add a sense of depth to the already deeply mirrored fields. The well struck devices are totally frosted which contrast beautifully with the beaming mirrors. A classic Benson Collection look. Formed in the 1930s and 1940s, the Benson Collection's proof coins had obtained a very similar look from years of storage. Sold about 15 years ago, the coins are well dispersed into the market.

PCGS 10, NGC 16, CAC 4. This is the ONLY PR65+, with seven graded finer in the CAM designation. We sold a similar looking non-CAC PCGS PR66 CAM in our December 2016 Regency Auction that sold for \$2,703. The current PCGS Price Guide value is listed at \$2,500; even though the market for Proof type has taken a beating, this GEM should see spirited bidding.

PCGS #85589 | EST: \$1,800+

**LOT 213****25C 1899-O PCGS MS66+**

A satiny and frosty lustrous example that is among the finest graded at PCGS. Mostly pearly-silver luster glows on both sides that are clean and free of singularly distracting marks. Some accents of toning can be seen among the stars and legend on the reverse.

PCGS 3, NGC 0. Two examples have sold in auction, both realizing \$6,463 and only two are finer. If you are building a high grade Barber quarter set, don't let this opportunity pass you by!

PCGS #5623 | EST: \$6,000+

1915

**LOT 214****25C 1915 PCGS MS67 CAC**

Not only is this coin tied with just one other coin for FINEST certified honors at PCGS, it is all there in terms of both aesthetic and technical qualities! Brilliant satiny mint bloom shines through the rich, colorful tones that blanket both sides. Variegated hues blend together over silky smooth surfaces and razor sharp struck devices.

It is remarkable that out of the 3,480,000 struck, ONLY PCGS 2, NGC 1, CAC 2. Neither PCGS coin has ever sold at auction; the NGC coin, which was not CAC when it sold in an online auction nearly 4 years ago, was frosty, but probably dipped--thus NOT this coin. When this one crosses the block, all bets will be off, and when the hammer finally falls, it will likely be somewhere near the current Collector's Universe value of \$10,000. If you are building an amazing set of Barber quarters, you need to bid on this amazing, SUPERB gem!

PCGS #5670 | EST: \$7,500+

LOT 215

25C 1895 PCGS PR67+ CAC

This is an incredible coin. The obverse really does grade PR67 while the reverse is a full PR68! Bold deep mirrors beam from all over. They are extremely clean, crystal clear, and have a bold reflection. When you twirl the coin the mirrors look like a freshly formed sheet of ice. The obverse enjoys moderate natural pale colors of lavender/blue/green/gold/amber/pale tangerine. The reverse is an explosion of iridescent blue/gold/amber/pearl green/violet colors. Miss Liberty and the details are needle sharp in strike and have thick frosting. They look slightly 3-D.

PCGS 17, NGC 16, CAC 11. PCGS has graded 6 in PR67+. The last PCGS CAC PR67 (NOT a +) piece to sell in auction was in August 2012 and brought \$5,175. NO PR67+ have ever sold at auction. The current Collectors Universe Value is \$5,750. Yet another great piece the market beat down for no real reason. Start a set of PR Barbers today, the timing could not be better!

PCGS #5681 | EST: \$4,500+

LOT 216

25C 1898 PCGS PR67+ CAM CAC

This coin is a story of two sides. The obverse is brilliant and blast silver white with a bold contrast between the deep mirrors and frosty white reliefs of the portrait. The reverse is draped in a multi-hued iridescent tone, that is totally enlivened by a watery mirrored reflectivity. The eagle is very sharply struck and frosty.

Struck during a time when the mint was extra careful with the production of proofs, allowing for high end cameo proofs.

Only 735 were struck. PCGS 15, NGC 24, CAC 12. There are four PCGS PR67+ CAMs and two at NGC. None of the PCGS have ever sold in auction. A PR67 CAM PCGS/CAC sold for \$4,935 in July 2017 and a non-CAC PCGS PR68 CAM sold for \$8,813 in January 2016. Since none have sold, the CU value is listed at only \$6,000. We can see this one selling for more than that!

PCGS #85684 | EST: \$6,000+

LOT 217

25C 1898 NGC PR68 CAM

This coin is a thousand times better than your average PR68 by NGC. In fact, it is so high end and nice we actually had it pulled to be submitted to PCGS thinking it was from a power collector's holdings we are selling. We can tell you it comes from a very frustrated world class dealer. We agree, this coin is PHENOMENAL and really borders full DCAM.

Tremendous mirrors beam intensely from all over. They are ULTRA deep, have amazing clarity, and are nearly blinding with reflection. If you twirl this coin, the mirrors look like fresh ice. In fact, this coin has such MONSTER contrast it looks like it was carved from a frosted block of ice. Miss Liberty and every detail are thickly frosted an electric white and are fully struck. The details almost look 3-D! The eye appeal will make your jaw drop and lock.

ONLY 735 pieces were minted. PCGS 2, NGC 11. We do not care what others have sold for. When you see this coin, you WILL agree-it has a look like none other. The current Collector's Universe value is \$11,500. This coin should be right up there.

This is the type of coins you leave out to star gaze with!

PCGS #85684 | EST: \$8,500+

LOT 218

25C 1898 PCGS PR69 CAM

Tied for the FINEST graded in the entire Proof Barber quarter, 1892 to 1915; indeed, PCGS has only graded FOUR coins in PR69 CAM!

Predictably, the presently offered jewel is immaculate! The deep and bold mirrors are watery and display not a single flaw anywhere, even under intense scrutiny under a strong glass. The frosty devices, likewise are of exceptional quality throughout, with flawless, fully rendered details. A light layer of pale gold-tan patina drapes the obverse yielding to a pearly silver, and clear silver mirrored silver. The reverse is a stark contrast to the obverse, with a deep greenish-blue tone that blankets that side. This coin's dramatic eye appeal is superb, and should appeal to any serious type collector.

PCGS 2, NGC 2. This magnificent SUPERB GEM was one of only 735 proofs struck for the date. Earlier offered in an old green tag holder, graded before PCGS designated CAMEO contrast on the certifications, in the Gene Gardner Collection, June 2014, where it realized \$27,025. The current PCGS Price Guide value is listed at \$32,500. This is such a fine example it is destined for a truly spectacular set of proof Barber quarters. Owning this coin will automatically launch your set to the "next" level!

**25C 1901 PCGS PR67 CAM CAC
EX CHEYENNE COLLECTION**

WOW! This is only a duplicate??? WOW!

Dreamy mirrors are deep and really boom from all over. They have strong clarity, cleanliness, and are highly reflective. When you twirl the coin the mirrors flow like a river. A pale hint of gold is spread over both sides. Miss Liberty and the details are sharply struck and have thick creamy white frost. The eye appeal is tremendous!

Only 813 were minted. PCGS 8, NGC 17, CAC 14. This marvelous coin sold last in our December 2016 auction, realizing \$4,935 and the CU value is listed at \$5,050. Cannot say we have seen many of these for sale at today's ridiculous low prices.

Opportunity knocks loud here!

25C 1903 PCGS PR66+ CAC

An absolutely beautiful icy GEM! The mirrors are bold and sleek with a brilliant reflection. Icy blue, teal, lilac, and rose toning are brought to vivid life by the the awesome mirrors imparting an exceptional eye appeal.

Only 755 were struck. PCGS 22, NGC 35, CAC 11. This is the sole PR66+ graded at PCGS. The current Collector's Universe value is \$2,800 and a regular PCGS PR66 (no CAC) sold for \$1,880 in March 2017 (ex Garrett-Blue Moon) and a PR67 PCGS/CAC sold for \$3,173 in our December 2016 Regency Auction. A great looking coin for a date or type set.

LOT 221

25C 1903 PCGS PR67 DCAM CAC

Our sister company, Legend Numismatics placed this AMAZING GEM with a collector in 2013. It is a coin we have always been in complete awe of. Outrageous neon-like ultra-deep mirrors beam wildly from all over. The clarity, cleanliness, and blinding reflection are just crazy. This coin is night and day when compared to any average Cameo piece. The contrast is so strong you assume (like we did) this coin was carved from a frosted block of ice. Miss Liberty and every detail are needle sharp in strike and have the thickest most powerful snow-white frost you will ever see.

PCGS 1, NGC 1, CAC 2. PCGS has graded 2 coins in PR68 DC (one of which sold for \$27,025 in 2012). Of course, this coin has never been sold at auction. The current Collector's Universe value is only \$9,500-a price we think is too low (again, NONE have ever been sold in auction). We fully expect a bidding war here.

25C 1904 PCGS PR65+ CAC

Totally original and high end for the grade. Deeply toned and highly reflective, this GEM has a great look!

Only 670 were struck. PCGS 38, NGC 60, CAC 10. This is the only PR65+ at PCGS. This coin last sold as an NGC PR65+ CAC in June 2016 for \$1,528. The current CU value is \$1,650. This just proves how badly beaten down in value GEM Barber proofs are!

Now is a great time to build a set.

25C 1904 NGC PR69

Legend Rare Coin Auctions is pleased to have been selected to sell this incredible Proof Barber Quarter. It is unquestionably the FINEST 1904 and clearly ranks among the BEST Proof Barber quarters that exist! Stunning deep mirrors beam vividly from all over. The mirrors are crystal clear, ultra clean (and we mean clean), and the reflection is off the charts. Both sides enjoy a mix of totally original olive/gold/silver colors. Miss Liberty and the details are actually frosted and needle sharp strikes. Take our word on it, the quality is all there. No grading services just slaps an PR69 designation on a coin. The eye appeal is phenomenal!

ONLY 670 were minted. PCGS 0, NGC 1. The last time this coin sold in auction was back in November 2013 when it brought \$31,725. It's very rare when you can buy a virtually perfect 112-year-old coin. You won't find a better time to buy a coin like this!

LOT 224

25C 1909 PCGS PR67+ CAC

Sadly, this piece was the Newman NGC PR68 CAC coin that sold for \$13,512 back in December 2015. You win some, you get blasted out on some. We think the only reason why PCGS did not cross this wild GEM, they did not like the reverse toning.

Everything else about the coin is incredible. The mirrors are ridiculously deep and beam from all over. On the obverse the colors form a monster circle. Totally original shades of neon like violet/purple/green/gold/blue explode like you've never seen. The reverse has a more muted pattern (probably from laying on felt). Miss Liberty and the details are fully struck and have light frost.

Only 650 were minted. PCGS 19, NGC 24, CAC 13. PCGS has graded 2 in PR67+. The other sold in our September 2016 sale for \$6,756. This coin is wilder in color--and more eye appealing than the PR68 that we sold in our December 2016 auction for \$10,281. Don't forget it sold for \$13,512 in Newman!

25C 1913 PCGS PR67 CAM

A totally reflective and untoned Superb GEM. Blistering mirrors beam from all over, blindingly so when viewed in a light. The frosted devices are crisply struck and contrast nicely against the mirrors. The eye appeal is unmarred by any stray lines, ticks, or unsightly discolorations.

The original mintage figure was only 613. PCGS 6, NGC 7. The last PCGS coin to sell was back in May 2008! Let that sink in, it is almost a decade since one sold--that speaks volumes as to how infrequently these appear. Even back then, the coin sold for \$7,475. Only a handful of coins are graded finer. Add this SUPERB gem to your holdings.

25C 1916 STANDING LIBERTY. PCGS AU55

The first year of issue for the perennially popular Standing Liberty quarter series, and a KEY date that saw a mintage of only 52,000. This choice AU piece has just some light friction over the high points. Soft silvery centers yield to a lightly richer golden brown at the rims. The surfaces are generally clean and free of any serious marks or lines.

PCGS 88, NGC 35. The most recently auctioned PCGS coin realized \$9,635, and was a little weaker in strike compared with the presently offered example. The current PCGS Price Guide value is listed at \$11,000. For a date or type coin, this 1916 Standing Liberty quarter would fit the bill for anyone working on a nice quality, collector grade set.

25C 1917 TYPE 1. PCGS MS67 FH

A dramatic, razor sharp strike shows full details throughout all areas of the design. The Head, shield, drapery, and all other details of Ms. Liberty were expertly embossed by an exacting blow from the dies. A marvelous, radiating silver luster blooms across the surfaces of both sides, bringing out the pale dusting of clear gold patina. The eye appeal is exceptional.

PCGS 81, NGC 63. There are only eight examples graded finer at PCGS, all MS67+ FH. The most recent PCGS coin to sell in auction was CAC-approved and realized \$7,638 in the January 2017 FUN auction. For non-CAC coins, there is a very wide range of APRs from 2010 to 2016, realizing \$2,585 to \$4,994, most are in the \$4,000 range, making the current CU value of \$2,950 seem fundamentally low. If you want a SUPERB example for date or type purposes, this coin is for you and keep in mind that one of the few coins finer will cost over \$20,000!

25C 1917-D TYPE 1. PCGS MS66 FH CAC

Well struck and quite lovely with totally original golden-rose and peach-apricot pastel iridescent toning that is vivid when the luster hits the light. Every detail is boldly struck up, from the hair and facial details to each brad on Liberty's shield, to her drapery folds. The eye appeal is exceptional.

PCGS 163, NGC 70, CAC 51. The most recent example was sold for \$1,351 in our July 2017 Regency Auction XXII. This coin has a better eye appeal and should bring a stronger price. The current PCGS Price Guide value is listed at \$1,975. Bound for any beautifully toned set.

25C 1917-S TYPE 1. PCGS MS66+ FH CAC

Bold and fully struck devices are engulfed in a rich luster throughout. The light champagne, olive, slate, and golden-russet hues create depth around the sharply struck devices. The surfaces are pretty clean and problem free, only a hidden tiny tick or two are noted for full disclosure. The eye appeal is exceptional.

PCGS 107, NGC 63, CAC 31. There are only seven coins graded MS66+ FH, with 16 coins finer. A regular MS66 FH sold for \$5,758 in the 2017 FUN auction, while we sold the most recent PCGS/CAC MS66+ FH coin in our January 2017 Regency Auction for \$5,405. The current PCGS Price Guide value is listed at \$5,500. We can see this GEM in any really high end set of Standing Liberty quarters or a carefully selected high end type set.

**LOT 232****25C 1927 PCGS MS66+ FH CAC**

A wonderful, original GEM boasting a satin smooth luster with a crisp strike. A subtle rose-gold patina. The devices are fully struck with complete details on the head, shield, drapery, and eagle's feathers.

PCGS 68, NGC 33, CAC 14. Only nine are graded as MS66+ FH at PCGS, none at NGC. Only 7 MS67 FH are graded finer at PCGS. The most recent PCGS/CAC coin sold in the 2017 FUN auction for \$3,055 and the current CU value is \$3,050. Keep in mind that one of the MS67 FHs will cost between \$12,000-\$15,000 in today's market. Bound for a great set of Standing Liberty quarters.

25C 1963 PCGS PR67

From the Dale Larsen Collection. What a beautiful Proof! Ultra reflective mirrors beam from both sides, but what separates this GEM is the AMAZING color. About half the obverse has a rich rainbow, that is anchored by a thick band of flaming orange-red, blending to narrow streams of blue, violet, gold, and green. Similar hues, just in a more subtle pattern is seen on the reverse. In a conversation with our consignor, years back he was showing a small box of coins in his collection to a dealer, who offered him a four figure price to purchase the coin but he decided to retain it. We know the eye appeal if this GEM will speak for itself. We assure you, a toned proof looking like this wild is EXTREMELY RARE! Dale sure knew how to pick them!

Beautifully toned, with soft gold with rainbow highlights, the surfaces are a glow with color that accents the nicely struck devices.

PCGS 8, NGC 3. CAC does not sticker these more modern issues. Two have sold in auction, one in July 2014 realizing \$1,998 and the other in November 2013 for \$3,819. The current PCGS value is listed at \$2,800. This coin serves as the CoinFacts plate coin.

OUR ESTIMATES

The estimates you see published in this catalog are just that: estimates. Keep in mind that a coin could be either low or high end for the grade,

have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so collectors can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin.

The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 241

50C 1795 OVERTON-131. PCGS AU53

A beautiful, CONDITION CENSUS example of this scarce R-4. Medium toning caresses the surfaces of both sides. Steely, soft gray mingles with gold, blue, olive, and russet hues, especially on the reverse. A touch of original mint luster can be seen in the protected areas adding to its high end visual appeal. We note a few microscopic ticks and lines acquired during its brief stay in early American commerce. The strike is bold with full hair and facial details in Ms. Liberty; even the eagle shows a wealth of definition in the wings and even some of the usually weakly struck breast feathers are visible. Close inspection shows some light planchet adjustment marks are noted, mostly hidden at the peripheries. Overall this is a VERY CHOICE AU Flowing Hair half dollar, and for the assigned grade the eye appeal is stupendous!

PCGS 17, NGC 12. Ranking as # 5 on the PCGS CoinFacts census, this coin shows an auction record of \$22,913 in the 2013 ANA Auction. CoinFacts also shows a Price Guide value of \$20,000, which is higher than the \$18,000 that they suggest for a "regular" 1795 half in AU53. If you are building a type set or specialized cabinet of early halves, be sure to bid on this lovely, fully CHOICE AU O-131!

PCGS #6052 | EST: \$17,500+

LOT 242

50C 1802 PCGS AU55 CAC

Demand for half dollars in commerce was very low in 1802, as the Spanish colonial coins struck in Mexico and elsewhere were plentiful in circulation. Because of this the mintage of 1802 halves was 29,890 and struck from a single pair of dies; today considered R-3, there are fewer than 500 examples estimated to survive in all grades. In XF they become scarce, in AU and higher, RARE; excessively so in Mint State.

This CHOICE AU has boldly defined devices imparted from an exacting strike from the mint's screw press. All but the highest points are fully delineated. A rich luster survives in the depths of the protected areas and provide a glowing back light to the classic, antique toning. Save for a couple of ancient hidden lines, the surfaces are totally free of any problems, and keep in mind that you do need a strong glass to view them.

PCGS 2, NGC 1, CAC 2. This coin last sold in April 2015 for \$30,550 and a non-CA C coin sold in April 2013 for \$38,188.

There are nine coins reported finer at PCGS, nothing finer than the James A. Stack- D. Brent Pogue MS62 (last sold for \$117,500). The Gardner coin is PCGS MS60 (sold for \$51,700) and the Queller coin is an AU58 (last sold for \$54,344). This lovely coin is just below the PCGS Condition Census, and is in great company with the three examples cited above. Early Draped Bust halves are very difficult to find in high grade, so bid on this lovely coin to fill that gaping hole in your collection.

**LOT 243****50C 1805 PCGS XF40 CAC**

O-111, R-2. A pleasing, collector grade example for the date/type collector. Light silver-gray with golden and lilac overtones. Nicely struck with just some honest wear. Only a few minor ticks are noted, but none are inappropriate for the grade.

PCGS 91, NGC 58, CAC 17. More eye appealing than the last PCGS/CAC that realized \$2,585 in June 2017. A really neat, affordable, collector grade coin!

PCGS #6069 | EST: \$2,200+

LOT 244**50C 1808/7 PCGS MS63 CAC**

A magnificent 1808/7 half. The vibrant, satiny mint brilliance accentuates the sharply struck devices. Both sides show a number of interesting die cracks, clashes, and other artifacts of the minting process at the First Philadelphia Mint. Framing both sides are rings of slate blue, teal, and pewter hues. For an early bust half, this coin has a superb eye appeal!

PCGS 9, NGC 0, CAC 3. The most recent PCGS/CAC coin to sell in auction realized \$12,925. That coin was housed in a first generation PCGS holder and part of the Hamilton Collection. We sold the PCGS/CAC MS62 Dale Friend coin in our May 2016 Regency XVII auction for \$13,513. This coin, with its classic look, is exceptionally appealing. Bound for an exceptional cabinet of early halves, and should easily surpass the PCGS Price Guide value of \$11,000 when the hammer falls!

PCGS #6091 | EST: \$10,000+

**LOT 245****50C 1810 PCGS MS63 CAC**

A beautifully toned O-101a. Both sides have a bold, original azure-teal, amber-gold, and silver-rose rings of toning that start at the rims and merge to the central devices. For an early half dollar, the strike is bold, with full definition of Liberty's cap, hair, and drapery details, which is remarkable considering the shattered state of both dies. The eye appeal is superb, and very high end for the assigned grade. An excellent choice for a type set!

PCGS 26, NGC 11, CAC 6. The only O-101A's that we have found in our auction database in MS63 were NGC-certified, and this example does not match any of those. The most recent PCGS/CAC approved example to sell in auction was in Hamilton Collection sold in the 2016 ANA auction and brought \$5,523 but it had no where near high end eye appeal of this superb piece. The current PCGS Price Guide is listed at \$5,750. Whether you are a Bust Half Nut, or a collector of U.S. type coins, this wonderful coin would make an excellent addition to any carefully curated collection!

LOT 246

50C 1839-O PCGS MS65

The New Orleans mint began coining operations in 1838, after being established by an act of Congress in 1835. The number of half dollars struck that first year were limited to 20 proofs that are today among the most sought after classic rarities in the U.S. series. The 1839-O saw a limited mintage of 178,976 pieces, and the vast majority of them went straight into circulation. Precious few were saved in mint state, with fewer than a dozen examples graded MS65 or finer at PCGS.

The present example has a rich, glowing mint frost that is satiny and shines around the sharply struck up devices. Each detail in Liberty's hair, cap, and drapery are crisply defined. The eagle, likewise is totally defined and wonderfully detailed. Iridescent gold and dove patina is quite nice. Both sides were struck from shattered dies, the reverse displaying many intersecting die cracks that add to the interesting visual appeal.

PCGS 4, NGC 8. Only a half dozen are graded finer at PCGS. The most recent example was sold in the July 2015 sale of the Kaselitz Collection, realizing \$52,875. The presently offered coin offers a finer eye appeal and the current Collector's Universe value is listed at \$60,000. The Pittman-Pogue MS66 sold in May 2016 for nearly \$100,000! This eye appealing GEM will find itself at home in any GEM collection of Capped Bust halves by date, or any high end set of New Orleans issues.

Among the highest graded 1844 halves graded at either service! Featuring an exacting strike, fully rendering each detail, all of Ms. Liberty's hair and drapery lines, and all the Eagle's wing detail is brought up. A frosty, satin glow accents the lovely, original iridescent multihued toning. The obverse has a light golden-peach and olive-tan, while the reverse has a crescent of rich blue that blends with similar shades to the obverse. The eye appeal is wonderful! Also boasting the Gene Gardner pedigree.

PCGS 0, NGC 3. PCGS has not graded anything finer than MS64. This coin sold in the Gardner Sale (May 2015) for \$12,338. What a great opportunity for the advanced Seated Liberty half dollar collector!

50C 1853-O ARROWS AND RAYS. PCGS MS62+ CAC

A very scarce, Mint State example of this one year only type. Lovely shades of silver, tan, olive, russet, slate, gunmetal, and pewter blend over fully CHOICE surfaces. Sharply struck the fields and devices have a technical quality (devoid of any serious ticks or lines) of a higher grade. The luster is soft and satiny, if it was a little more vibrant, we think it would be an even higher grade.

PCGS 9, NGC 10, CAC 1. This is the only MS62+ graded at PCGS, there are none at NGC. The current PCGS Price Guide value is way too low, considering a PCGS MS62 brought \$7,344 and a PCGS MS63 CAC sold for \$8,225. This coin's eye appeal is much nicer than you would expect for the assigned grade and should bring a very strong price when it crosses the block. Remember the Arrows and Rays is a one year only type and only 18 coins are graded finer, making this grade optimal for most collectors! Good luck!

SUPER HIGH END. Search high and low, you will not find a better colored or quality oriented 1854-O 50C (we know its better then at least one MS67 out there).

Remarkable surfaces are the ultimate in perfection. We even used a strong glass and went over the coin many times finding nothing. The surfaces also have a thick satin texture. A moderate luster does beam though the totally original colors. Moderate shades of gorgeous green/olive/blue/violet swirl vividly all over. This is NOT a dull or drab coin. Miss Liberty and the details are needle sharp in strike and really stand out. The eye appeal is supreme!

PCGS 13, NGC 7, CAC 5. PCGS has graded only 4 in MS66+ with 2 higher. We will challenge this coin vs ANY MS66 and ANY MS67 in terms of quality and eye appeal! NO MS66+ has ever been sold at auction. because of a weak MS67 selling, all the published prices we have seen are ridiculously low. This is a coin worth of the very best collections.

50C 1861 PCGS MS65

While not a rare date in lower grades, in GEM, as here, the 1861 is a very scarce issue. This neat example has a very crisp strike with full details throughout. Boldly lustrous surfaces bring out the the vivid blue, amber, gold, and olive accents. Struck during the first year of the Civil War, it is amazing that this coin survived the economic hardships that ensued during the war.

PCGS 24, NGC 23. This coin is ex Malibu Collection, B&M, November 2010, where it realized \$4,140. The most recent example to sell was CAC approved, realizing \$4,700 in the 2016 ANA auction.

A great type or date set coin!

LOT 251

50C 1873 ARROWS. NGC MS66+

The finest certified example of this scarce, two-year only type. A velvety mint frost glows on both sides, accenting the razor sharp devices. Every detail is fully and crisply rendered by a forceful impression from the dies. Delicate pearly-silver hues blend to rich olive and russet accents near the rims. The toning is a touch deeper on the reverse. The eye appeal is quite exceptional..

With the tons of silver pouring out of Nevada mines, the price of silver dropped, causing the need to increase the weight of silver coins in circulation. The February 12, 1873 Mint Act increased the weights, and the weight of the half dollar to 12.5 grams, up from 12.44. Like in 1853, this weight change was designated by the placement of Arrows at the date. While 1,815,200 were originally struck, very few were saved; today, PCGS and NGC have combined assigned MS65 or higher grades on only 28 occasions, which no doubt includes duplicate submissions.

PCGS 0, NGC 1. As mentioned this is the FINEST example certified by either PCGS or NGC. While this coin has a record from the depths of the 2015-16 downturn of the market, we do not think that level represents this coin's true value. Consider that an NGC MS66 last sold in 2006 for \$20,700. This coin has a great look that should appeal to any advanced Seated Liberty half dollar collector, or type collector. Good luck!

From the Dale Larsen Collection. Among the amazing coins presented in this sale, the cataloger (GC) has a fascination with this beautiful, totally original, exceptionally high end GEM. A bold, semi-reflective luster beams from below the rich blue, teal, amber, and apricot toning. The design elements are crisply struck throughout, even the highest design points in the central portions. The surfaces are free of all but the most microscopic ticks that you need a high power glass to locate.

PCGS 22, NGC 17, CAC 8. There are a mere two coins graded MS65+, neither has sold in auction. The only MS65+ to sell was the Rev. McClure NGC coin that sold in June 2016 for \$6,463.

Only seven coins are graded finer, an an MS66 approved by CAC will cost around \$10,000! This coin should bring more than the McClure coin, as its eye appeal is nearly beyond adjectives! You need to view this coin in hand to fully appreciate its beauty.

A halo of golden toning frames the obverse, while a concentric toning pattern in shades of blue, gold, and russet graces the reverse. Rotating the reflective surfaces in a light and viewing with a strong glass, you can find some tiny stray

lines in the fields that do not detract from the great overall eye appeal.

An important Civil War issue that saw a mintage of only 500. PCGS 8, NGC 8. The most recent coin to sell realized a VERY STRONG \$32,900 in November 2013. Impressive, rich, and original vibrant toning really comes to life when rotated in the light. As the coin twirls at different angles, the subtleties in the colors. Gold, blue, olive, tan, and iridescent pastel hues blend together on both sides. The eye appeal is very high end and impressive.

Only 550 proofs were coined. PCGS 10, NGC 15, CAC 2. This is the ONLY PR65+ graded at either firm, and only a single PR66 is graded finer at PCGS in the non-CAMEO designation. The last PCGS PR65 to sell in auction was not CAC-approved, selling for \$12,925 in August 2013 and the sole PCGS PR66 CAC sold in June 2014 for \$35,250. We love the look of this GEM, and it is totally captivating in eye appeal—You will have a hard time putting it down!

LOT 255

50C 1876 PCGS PR64 CAC

From the Dale Larsen Collection. A very pretty essentially GEM-quality centennial year proof. Lovely blue, apricot, gold, and teal iridescent toning. Well struck and beautifully reflective. Of course, the eye appeal is what you expect—wonderful!

PCGS 38, NGC 46, CAC 8. It has been nearly two years since the last PCGS PR64 sold in auction, realizing \$2,115 in the 2016 FUN auction. The current PCGS value is listed at \$1,875. The eye appeal is quite nice.

PCGS #6437 | EST: \$1,600+

LOT 256

**50C 1886 NGC PR66 CAM
EX JULES REIVER COLLECTION**

Superb eye appeal! Deeply mirrored fields provide much reflection against the well struck and frosty details in Ms. Liberty's drapery, hair, face, and other details. The rims are framed by a lovely totally original toning imparted from the long term storage in Mr. Reiver's collection.

PCGS 4, NGC 8. The first time this coin sold was as lot 21398 in the January 2006 sale of the Jules Reiver Collection. It was then graded PR66 by NGC without the CAMEO designation and sold for \$4,600. The Reiver pedigree is well remembered by collectors of early silver collectors, especially those who collect by die marriage, as his collection was very in depth in those coins, but he also had beautiful proofs, like the presently offered GEM!

PCGS #86447 | EST: \$4,000+

LOT 257

50C 1887 PCGS PR67+

A bold and high grade example, tied for FINEST in the category at PCGS! Deep toning bathes both sides of this highly reflective superb GEM. Sharply struck and very eye appealing.

Only 710 proofs were struck, and this is the highest graded example at PCGS. PCGS 2, NGC 0. Neither PR67+ has sold in auction and the most recent PR67 graded by PCGS sold in August 2011, realizing \$16,100. Collector's Universe suggests a value of \$18,500. Bound for an amazing set of Proof Seated halves.

PCGS #6448 | EST: \$15,000+

LOT 258

50C 1893 PCGS MS66 CAC

Among the FINEST graded at PCGS for the date. Displaying a pearly originality, the surfaces are thickly frosted. The surfaces have a pleasing silver, olive, russet, with lilac iridescence. Even using a strong glass, we cannot find anything but the most insignificant abrasion. The eye appeal is strong on this early high grade Barber half.

PCGS 11, NGC 5, CAC 9. PCGS has graded 3 finer, two in MS66+ and one in MS67. Prior to its most recent auction appearance, this GEM has realized between \$4,677 and \$5,175. The current PCGS Price Guide value is listed at \$4,750; other examples have sold in the \$4,500 to \$5,500 range. Bound for a fine set of Barber halves!

PCGS #6465 | EST: \$3,500+

LOT 259

50C 1898 PCGS MS66+ CAC

There is no doubt as to why this coin is tied for second finest certified by PCGS! First of all the technical qualities are superb--the strike, surfaces, luster, and toning are all very high end. Light pastel toning gracefully dusts both sides of this stunning GEM and is amplified by the glowing satin luster. Every details on Ms. Liberty and the eagle are fully defined.

PCGS 13, NGC 2, CAC 13. There are five coins graded by PCGS as MS66+ and a single coin finer, an MS67. The most recent example to sell realized \$5,405 in the 2017 FUN auction. Keep in mind that one did sell in 2014 for \$18,800 and the sole MS67, the ex Dale Friend coin last sold for \$37,600! The current PCGS Price Guide value is listed at \$6,000. An important opportunity for the advanced Barber collector. Now is a great time to build a set!

PCGS #6480 | EST: \$5,000+

**LOT 260****50C 1912-D PCGS MS66+**

Tied for SECOND FINEST graded at PCGS, there is only one MS67 finer. A pearly, satin-like mint frost lights up the pleasing iridescent golden-brown toning on both obverse and reverse. Nicely struck and displaying only a few teeny, stray ticks, but the eye appeal is quite nice.

PCGS 3, NGC 1. The last one to sell realized \$5,875 but was CAC-approved. The current PCGS value is listed at \$6,500. Since only one coin is finer at PCGS, if you are building a Registry Set, be sure to take a look at this high grade 12-D. It is our strong opinion these are just too cheap today!

PCGS #6525 | EST: \$4,200+

**LOT 261****50C 1897 PCGS PR67+ DCAM CAC**

An exceptional and SUPERB GEM that is one of the most visually impressive in terms of eye appeal and cameo contrast that we have handled in our sales. Deep, gleaming mirrors boom on both sides, providing a nearly full black contrast to the frosted white devices. In terms of technical quality this coin is virtually flawless, we can not locate a single defect even under close inspection with a strong glass. Clearly one of the finest that survives today for collectors!

Only 731 proofs were coined. PCGS 16, NGC 11, CAC 16. Only three coins are graded PR67+ DCAM by PCGS, and it is amazing to think that there are five coins listed finer on the PCGS Population Report. The last example sold for \$17,625 in January 2014. What a great coin for any high end set of Proofs! Bound for the finest cabinet of Barber proofs!

PCGS #96544 | EST: \$14,000+

LOT 262

50C 1908 PCGS PR66 CAM CAC

This heavily mirrored SUPERB GEM is the real deal!

Really deep means beam vividly from all over. The mirrors are super clean, have great clarity, and are intensely reflective. If you were to twirl the coin, the mirrors would look like a flood of liquid mercury coming at you. Both sides have strong contrast and are untoned. Miss Liberty and every detail are fully struck and have thick silvery white frost. The eye appeal is fantastic!

ONLY 545 were minted. PCGS 8, NGC 2, CAC 5. An interesting note: PCGS has graded 3 higher of which only ONE is beaded.

The last PCGS CAC piece sold for \$3,7560 in July 2017. We scratch our heads at that number. The market over spanked these rare coins. We feel they are worth \$4,500-\$5,000. You can still do a complete set of these for a reasonable price.

Opportunity knocks loud here!

PCGS #86555 | EST: \$3,500+

LOT 263

50C 1916-S PCGS MS65 CAC

This is a rare wonderfully toned GEM 1916-S half! Rich multihued graces the rims on both sides. Shades of olive, russet, gold, blue, and rose tones are beautiful and are really brought out by a bold satiny mint bloom. Expertly struck with exacting precision, the details are all crisply impressed. This GEM is one of the prettiest we have seen in this grade. Our consignor paid a very strong price for this GEM raw out of an old collection, thinking it might grade MS66. The eye appeal is SUPERB!

PCGS 109, NGC 61, CAC 26. The most recent PCGS coin approved by CAC sold for \$19,975 in April 2017. That coin was blast white, while this GEM's colorful toning is totally original and adds to the allure. Rarely does this date come with such attractive toning, and certainly because of its premium technical and aesthetic qualities will see very spirited bidding!

LOT 264

50C 1918 PCGS MS65 CAC

A brilliant, rolling satin luster blooms from all over on this exceptionally eye appealing GEM. Crisply struck throughout, the intricate details of the design are fully brought out on both sides. The fields and devices are clean, without any marks of consequence worthy of mention. The eye appeal is very high end!

PCGS 116, NGC 106, CAC 33. The most recent example sold for \$3,760 in a November 2016; the one before that was in our September 2016 Regency Auction, where one sold for \$4,348 and in the 2016 FUN, a record for a PCGS/CAC coin sold for \$5,758. This one should bring around the current CU value of \$4,500. Keep in mind the finest graded is MS66, and one of those will cost between \$15,000 and \$20,000. Good luck!

OUR ESTIMATES

The estimates you see published in this catalog are just that: estimates. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so collectors can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 265

50C 1919-S PCGS MS65 CAC

A major condition rarity in the Walking Liberty series, and this one is a really HIGH END gem. A satiny luster glows in the fields.

The surfaces are very clean and free of any distracting marks. Generally well struck devices show only slight weakness which is often the case with examples of this date. A light dusting of pale iridescent gold can be seen when rotated in a light, but mostly the surfaces show a satiny-pearly silver glow. The eye appeal is quite nice.

PCGS 38, NGC 19, CAC 12. The most recent example to sell in auction realized \$24,675 in the 2017 Central States sale and the two before that realized \$23,500. This lovely, brilliantly lustrous GEM should bring a similar price when it crosses the block..

PCGS #6579 I EST: \$20,000+

LOT 266

50C 1919-S PCGS MS65+ CAC

RARE in such high grade, and this GEM is exceptional in every way! A blooming satin mint sheen glows on both sides of this nicely struck 19-S half. A touch of clear golden iridescent tone accents a nicely struck coin. A few insignificant ticks are noted under a strong glass and mentioned for full disclosure—none distract the eye.

PCGS 41, NGC 19, CAC 12. There are only three coins graded MS65+ and only 11 are graded MS66 finer. The last one to sell realized \$32,900 in the recent ANA auction. The current Collector's Universe value is \$30,000. Bound for one of the best sets of Walkers, so if that is what you are building you owe it to yourself to view and bid on this GEM! An opportunity NOT to be missed!.

PCGS #6579 | EST: \$25,000+

LOT 267

50C 1921-D PCGS MS65+ CAC

Super high end quality! Among the absolute FINEST examples of this important KEY date; of the 208,000 struck there are only three coins graded MS65+ at PCGS, with only three finer. Looking at this GEM it is not hard to see why it grades so fine. Even the pickiest of collectors will fall in love with this coin.

First both sides are brilliantly lustrous with a full mint bloom. A light dusting of clear gold tone graces the surfaces accenting the definition of the sharply struck design elements. The central portions of the design, including Liberty's arm are outlined. The eye appeal is SUPERB and extremely HIGH END! Even upon close inspection with a strong loupe, we are unable to locate a single defect that warrants individual mention.

PCGS 34, NGC 18, CAC 12. This is one of only three coins that are assigned the MS65+ grade at PCGS; only 3 are graded finer, all MS66. This is not the one that sold in a June 2017 auction, which realized \$49,350. The only other CAC coin to sell was the Reverend McClure coin graded by NGC that sold for \$56,400 in June 2016. The current PCGS Price Guide suggests a value of \$47,500 in MS65+. Keep in mind that a marginally finer MS66 will sell in auction for about double (if you can find one)! If you are building one of the finest sets of Walking Liberty halves, be sure to view and bid on this beautiful GEM! You will likely not find a finer example any time soon!

50C 1929-S PCGS MS65 CAC

A frosty satiny GEM example of this earlier date Walker. Light gold toning comes to life when rotated in a light. Crisply struck showing full definition to all the details. The eye appeal is really nice.

PCGS 224, NGC 134, CAC 44. Over the last two years, PCGS/CAC coins have sold in the \$3,055 to \$3,995 range. The Collector's Universe price is listed at \$3,000, but as you can see, CAC pieces do bring more. RARE any finer. A great coin for any GEM set.

PCGS #6590 | EST: \$2,500+

LOT 269

50C 1933-S PCGS MS66+ CAC

SUPER HIGH END. We assure you, there probably are a few MS67's not as nice out there! Sensational surfaces are a delight to see. Even when using a strong glass, you will find virtually NO impairments. The dreaded right field only has one microscopic tiny reeding divot, others is perfectly clean. All of the surfaces are satiny smooth in texture. A full booming luster shows off the original white surfaces. This coin has not been dipped. Miss Liberty and the details are frosty and are sharply struck.

PCGS 104, NGC 62, CAC 39. PCGS has graded 11 in MS66+ and 15 coins higher. Still, we are willing to put this coin up against ANY MS66/MS66+ and even most of the 5 MS67's in terms of quality and eye appeal. The last MS66+ PCGS CAC to sell in auction brought \$7,638 in August 2017. We expect this coin to be in the same range. If you are a very picky Walker collector, this coin is for you!

PCGS #6591 | EST: \$7,000+

**LOT 270****50C 1935-D PCGS MS66 CAC**

A beautiful SUPERB gem 35-S. Radiating, swirling mint bloom shines on both sides of this clean, well struck Walker.

PCGS 144, NGC 44, CAC 41. The most recent example to sell in auction was the Blue Moon coin that sold in June 2017 for a whopping \$14,100. The typical PCGS/CAC coin sells in the \$2,800-\$3,300 range, and the current CU value is \$2,750. This GEM has a bold eye appeal and should satisfy even the pickiest of Walker collectors!

PCGS #6597 | EST: \$2,000+**LOT 271****50C 1936 PCGS MS67 CAC**

A delicate iridescent clear gold patina glows with the superb blazing silver mint luster. Silky smooth surfaces and sharply struck devices add the allure.

PCGS 169, NGC 113, CAC 89. The most recently auctioned example realized \$1,116 in the 2017 FUN auction, but there are a wide range of prices for PCGS/CAC examples, all dependant on eye appeal. This one should sell for a strong premium bid!

PCGS #6598 | EST: \$850+**LOT 272****50C 1937-D PCGS MS67 CAC**

A brilliant SUPERB GEM with exceptionally fresh mint bloom over silky smooth silver surfaces. The eye appeal is amazing, combining a sharp strike, bold luster, and exceptionally smooth fields. Housed in an old green tag holder.

PCGS 60, NGC 36, CAC 32. Only two coins graded MS67+ are finer at PCGS. This coin last sold in July 2009, realizing \$3,738. The current Collector's Universe value is listed at \$3,850. A great coin for any advanced Walker collector.

PCGS #6602 | EST: \$3,500+**LOT 273****50C 1941-S PCGS MS66+**

A beautiful GEM with bold luster and an arc of lovely toning at the right obverse rim. Typical for the date, there is touch of weakness of strike in the central devices.

PCGS 70, NGC 14. Only 9 are graded finer at PCGS. Non-CAC coins have been selling in the \$1,000 to \$1,500 range, however the CU value is currently listed at \$3,250. This beauty should see good bidding; we just do not see really nice pieces any more.

PCGS #6613 | EST: \$1,300+

LOT 274

50C 1942-D PCGS MS67+ CAC

Not only is this marvelous SUPERB GEM tied for second finest certified by PCGS, its eye appeal is simply stunning! Rich midnight blue and sunset orange form an arc around the silken lustrous silver centers. The bold strike and brilliant luster all combine for a spectacular look!

PCGS 184, NGC 137, CAC 54. Only nine are graded MS67+ with a mere five MS68s finer. It is hard to imagine a nicer looking MS67+. The current PCGS Price Guide value is listed at \$2,250. The only CAC-approved MS67+ to sell was an NGC coin in July 2015, that coin realized \$1,645—the last PCGS MS68 sold over 14 years ago! Clearly this coin represents a VERY important opportunity for the advanced Walker collector! Good luck!

50C 1945 PCGS MS67

What an eye popping toned SUPERB GEM. Vivid luster, colorful original rim toning, and a bold strike all combine to give this superb GEM outstanding eye appeal.

PCGS 165, NGC 115. With most recent examples selling in the \$600-\$800 range, the current CU value is listed at \$850. We think with its dramatic eye appeal, this lovely coin could indeed surpass that level. Only 18 are finer all MS67+. A great opportunity for a registry collector who appreciates fabulously toned coins.

LOT 276

50C 1945-S PCGS MS67+ CAC

What an incredible GEM MS 45-S Walker! We strongly believe this coin is as close to being an MS68 as there ever will be! Incredible surfaces are actually beyond perfect. How can that be? We do not even think we have seen any Walker with ZERO imperfections. Even when we put a strong glass to it, we were stunned to find

NOTHING. The dreaded right field is textbook perfect-really unheard of. A moderate luster beams from all over. The obverse is coated by sensational bands of rainbow colors that frame the peripheries. The reverse has just a touch of color by the rims.

PCGS 42, NGC 34, CAC 6. PCGS has graded TWO MS67+ 1945-S's-NOTHING finer. A toned PCGS MS67 CAC (NO +) just sold in Heritage Long Beach for \$9,000. We do not think the colors were as pretty as this coin (that coin was darker). We expect powerful bidding from many Walker buyers for this possibly finest graded piece! Be ready!

Highly reflective mirrored surfaces show off a vibrant totally original toning from long term, unmolested storage. An arching band of sunset gold that shows hints of azure tone grace the left periphery while the rest of the coin has a pearly, shimmering, silver white. The surfaces are impeccable with essentially flawless fields and sharply struck devices.

PCGS 44, NGC 84, CAC 22. There are only FIVE graded finer, four in PR67+ and a single PR68. The most recent PCGS/CAC coin to sell in auction realized \$8,225 in the 2017 ANA auction. Before that, one sold for \$9,400 in July 2017 and we sold the Cheyenne Collection piece for \$12,338 in our December 2016 Regency Auction. The current PCGS Price Guide value is listed at \$11,500, and it would not not be a surprise if this superb GEM brought a price in excess of that price. Keep in mind the sole PR68 last sold in 2005 for over \$80,000!

50C 1942 PCGS PR68 CAC

From the Dale Larsen Collection. On a scale of 1-10, we rank this coin an off the charts 11! The eye appeal of this SUPERB GEM is beyond description! Blazing deep, brilliantly mirrored fields are blinding in their reflectivity. They are totally free of any distracting lines or haze that would negatively effect their depth and brilliance. Both the obverse and reverse have a halo of awe inspiring toning at the rims. The obverse is a sunset-like hue with rich orange, red, and gold. The reverse has those hues, which blend with subtle accents of sea-green and powder blue. The eye appeal is exceptional!

**LOT 285****50C 1954-S PCGS MS66+ FBL CAC**

This satiny, superb GEM is tied for second finest of the date in FBL and only 3 are graded finer. Richly toned on the obverse, the reverse is untoned and fully lustrous, likely an end roll toner, rather than from storage in a mint set holder. Well struck and very high end.

PCGS 173, NGC 10, CAC 27. Twenty are graded MS66+ FBL, with only three in MS67 FBL finer (none of which are CAC). The current PCGS value is listed at \$2,850 and recently they have sold in the \$1,500 to \$2,100 range in auction. This coin represents a great potential value, as a 67 FBL will cost around \$13,000-\$15,000. Building a set? Bid on this one!

50C 1956 TYPE 1. PCGS PR68 CAM CAC

A SUPERB looking coin with stunning mirrors and awesome frosted reliefs. The Type 1 is about 10x as rare as the Type 2. The contrast is exceptional!

PCGS 58, NGC 86, CAC 36. APRs have ranged between \$2,000 and \$3,000 and the current CU value is \$3,350. None are graded finer by PCGS in the CAM designation.

PCGS #86686 | EST: \$2,000+

LOT 292

50C 1957 PCGS PR68+ CAM CAC

A superb marvelous GEM has amazing deep mirrors that shine and reflect the light and boldly contrast against the frosty reliefs to create a visually stunning look. Scarce with such a lofty grade.

PCGS 212, NGC 411, CAC 57. Only TWO coins have graded PR68+ CAM at PCGS and none have ever sold in auction. An NGC coin sold in 2012 for \$1,955 and the current PCGS value is listed at \$2,250. None are graded finer in the CAM designation! A prime piece for a Franklin Registry set!

PCGS #86698 | EST: \$1,800+

LOT 293

50C 1962 PCGS PR69 DCAM

Visual PERFECTION. Bold, black mirrored fields contrast against impressive, frosty white reliefs. Even close inspection with a strong glass fails to find a single flaw anywhere on either side.

The eye appeal is SUPERB!

PCGS 20, NGC 34. The most recent example sold in the recent ANA auction, realizing \$6,463. Before that, one sold in the 2017 FUN auction for \$8,225, which explains the CU value of \$8,250.

PCGS #96703 | EST: \$5,500+

**LOT 294****50C 1964 PCGS MS66+**

Lustrous with colorful end roll toning, this lovely superb gem has clean surfaces and a bold, high end look! It is crazy to think how many of these just get thrown into bags of silver!

PCGS 62, NGC 67. This coin is bound to bring a very strong premium over the current PCGS value. Good luck!

PCGS #6706 | EST: \$350+

**LOT 295****50C 1967 PCGS MS67**

QA approved. A beautiful kaleidoscope of technicolor toning blankets the obverse. Rich, deep colors are brought to life by the bold luster. In contrast the reverse is completely blast white and untoned. The eye appeal is stupendous and rare in this lofty grade.

PCGS 22, NGC 11. There is only one coin graded finer, slightly finer in MS67+. Nothing remotely close to this coin has been sold in auction, but a neatly toned coin sold for \$4,230 in February 2016. But even that coin does not have the superb eye appeal of this wonderful GEM..

PCGS #6710 | EST: \$3,700+

**LOT 296****50C 1969-D PCGS MS6**

A modern condition rarity, nearly 130 million halves were struck, but to date, only 19 have been graded MS67 or finer at PCGS.

That says a ton about how unappreciated these are! Boldly lustrous with soft golden tone, this superb gem has a great look!

PCGS 18, NGC 10. Only one coin is graded finer, a MS67+. The most recent example to sell in auction brought \$1,880 and the current CU value is listed at \$3,750. Bound for a top ranked PCGS Registry Set!

PCGS #6712 | EST: \$1,800+

**LOT 297****50C 1964 PCGS PR69 DCAM**

Virtual PERFECTION! Deep beaming mirrors are blinding in the light that provide amazing contrast against the frosty reliefs. The eye appeal is fantastic!

PCGS 100, NGC 128. The most recent PCGS graded coin realized \$2,056 in June 2017; the CU value is listed at \$2,750. Bound for a type set or high end registry of JFK halves.

PCGS #96800 | EST: \$1,800+

LOT 298

50C 1964 ACCENTED HAIR. PCGS PR68 DCAM

Tied for SECOND FINEST Accented Hair JFK at PCGS! No question this coin is SUPERB in every way with bold contrast between the heavily frosted devices and superbly deep mirrors. You cannot beat the eye appeal. Scarce, estimates of the original mintage is about 2.5% of the entire original mintage, apparently Jackie didn't approve the portrait details.

PCGS 17, NGC 11. Only a single example is graded finer at PCGS. The most recent PR68 DCAM to sell realized \$17,625 in the 2017 ANA auction. Anyone working on a serious Registry Set should appreciate the importance of this opportunity!

PCGS #96801 | EST: \$14,000+

LOT 299

50C 1966 SMS. PCGS MS68 DCAM

WOW! This cataloger has handled countless SMS sets over his career, and never has he seen such a HIGH END 1966 half! This SUPERB GEM looks like a full on PROOF! Smooth, glassy, deep mirrors shine and beam from all over, blindingly contrasting against the frosted, well struck reliefs. Clearly these do NOT come like this--just take a look at the pops!

PCGS 7, NGC 18. NONE ARE GRADED FINER AT PCGS. The most recent example sold for \$5,170 in April 2017, and one sold last year for a record \$16,450. The current PCGS Price Guide value is listed in the middle at \$10,500! Good luck!

PCGS #96846 | EST: \$6,000+

LOT 300

50C 1967 SMS. PCGS MS68 DCAM

A SUPERLATIVE coin! Ultra deep mirrors shine against the frosted devices. The SMS coins were a sort of hybrid between business strikes and proofs in an era when the mint was not producing proofs. This one, at first glance does look like a full proof!

PCGS 18, NGC 21. The most recent example brought \$4,818 in our July 2017 Regency Auction and the CU value is listed at \$6,750. There are NONE graded finer in the DCAM designation. Good luck!

PCGS #96847 | EST: \$5,000+

LOT 301

\$1 1795 2 LEAVES. PCGS F15

B-1, BB-21. Pleasing, medium dove and slate overtones over generally smooth surfaces. Upon close inspection, we note some nearly invisible ancient lines from a gentle wiping. The eye appeal is really nice for the assigned grade.

PCGS 80, NGC 14. The most recent coin to sell realized \$4,113 in March 2017. That coin had very visible signs of a cleaning. This one should sell for more, as the eye appeal is much better. The current CU value of \$5,150.

PCGS #6853 | EST: \$3,500+

LOT 302

\$1 1795 SILVER PLUG. PCGS VF30

Like many of the silver plugged 1795 dollars, this one is a B-7, BB-18. Hints of luster cling to the protected areas of the devices, which were sharply struck, still displaying bold definition, despite its moderate wear. The fields show some light scratches, including what looks like a fancy script "M" behind Liberty's head. The central silver plug is fully outlined and visible to the naked eye. Despite the minor flaws, this CHOICE VF has a very nice eye appeal. The mint inserted silver plugs into planchets deemed too light. A small hole was drilled (usually in the center), and a small plug of silver was inserted before striking, bringing the weight within tolerance.

PCGS 9, NGC 4. A very pleasing looking coin, finer in eye appeal than the one that recently sold for \$17,038 in the 2017 ANA auction. We had the pleasure of selling one in July 2013 for \$23,000. The current PCGS value is listed at \$21,500. A rare and important artifact of the first U.S. mint.

PCGS #6854 | EST: \$17,500+

LOT 303

\$1 1799/8 15 STARS REVERSE. PCGS XF45 CAC

B-3, BB-141. The only 1799/8 that has the 15 Star reverse die. Dove, slate, and accents of charcoal blend over smooth problem free surfaces. Touches of gold and lavender add to the visual allure. Lightly worn from a short stay in circulation has not caused any serious marks or defects. Hints of luster remains in the protected areas of the well defined devices.

PCGS 33, NGC 7, CAC 7. The only CAC-approved example sold for \$6,613 in April 2012. More recently a PCGS OGH sold as part of the Hamilton Collection in the 2016 ANA auction, realizing nearly \$10,000. This pleasing example will certainly bring a strong price.

PCGS #6883 | EST: \$4,300+

LOT 304

\$1 1799/8 13 STARS REVERSE. PCGS XF45 CAC

B-1, BB-142. Well defined devices and problem free fields show light wear on the high points. Rich, deep toning shows amber, gold, and slate blue-gray toning from longtime storage, probably in an old paper envelope or leather pouch. The eye appeal is superior to many in this grade. This obverse die was used to strike all three overdate varieties, and is the first of two reverses with 13 stars above the eagle on the reverse.

PCGS 20, NGC 2, CAC 6. Only one PCGS/CAC has ever sold in auction, back in November 2012, realizing \$5,605. The current PCGS Price Guide value is \$5,200 and we think this coin will bring a strong price, as rarely do you see early dollars like this with such originality!

PCGS #6884 | EST: \$4,200+

LOT 305

\$1 1800 PCGS MS62

A very late die state for the B-4, BB-186, with more extensive obverse die cracks than described as B-4a, Bowers Die State III. Richly toned, whose subtle accents are brought out by a soft, underlying luster. Most of the devices are well struck except for the ribbon. Accents of teal really come out when twirled in the light. Lots of neat, spidery die cracks traverse the obverse. The eye appeal is pretty cool for a near-Choice Uncirculated early dollar. The finest known for the variety, the finest in the Condition Census in Bowers' encyclopedia is the NGC MS61 from the Warren Miller Collection.

PCGS 7, NGC 3. Only two examples have sold in auction, the most recent selling in July 2013 for \$38,188 and the only one before that brought \$48,875. The current PCGS Price is \$39,500. Mint State early dollars are very popular and the supply is never enough to satisfy demand. We anticipate strong bidding!

PCGS #6887 | EST: \$29,000+

LOT 306

\$1 1846 PCGS MS64+ CAC

VERY HIGH END! Easily worthy of its + designation, 1846'S are famous for not being the prettiest date. This one certainly is an exception to that rule!

Unusually lively surfaces have traces of light semi-prooflike mirrors. Overall, the surfaces look totally defect free. Only with a strong glass will you find a few scattered ticks or two. A strong luster coupled with reflective surfaces really enhances the totally original toning. Both sides have shades of rich (but not dark) olive/gold/deep champagne/pale blue colors that blend together nicely all over. Miss Liberty and the details are frosty and have crisp full strikes. The eye appeal is excellent!

PCGS 22, NGC 21, CAC 5. PCGS may have graded only 4 in MS64+, and only 3 coins are graded higher at PCGS. This coin sold in auction \$28,200 in December 2016. We had another one that recently sold in our July 2017 Regency Auction offering of the 1994 Collection (which sold for \$30,550. If you could find a PCGS CAC MS65, one would easily set you back \$90,000+. Keep in mind, the last MS65 to sell brought \$97,750 and that was back in 2005! A choice set in MS63/64 of Philadelphia Mint Seated Dollars would make an interesting project. This coin would be a great addition.

PCGS #6932 | EST: \$20,000+

LOT 308

\$1 1861 PCGS XF40

A scarce, lower mintage Civil War silver dollar issue. Moderate worn surfaces show just some small marks from honest circulation.

PCGS 15, NGC 1. The last one to sell in auction realized \$2,585 back in April 2015 and the current CU value is \$3,000. These are scarce to be sure!

PCGS #6951 | EST: \$2,000+

LOT 307

\$1 1854 PCGS AU58 CAC

A borderline Mint State coin that shows only the most microscopic evidence of friction. Sharply struck devices are accented by a satiny sheen that is covered by a rose-gold patina with deeper charcoal accents. A lower mintage date, with only 33,140 struck, this year is quite scarce in AU and RARE in Mint State.

PCGS 14, NGC 4, CAC 3. A hint as to how rare this date is in AU58: The last PCGS coin sold in 2004. At the 2017 ANA show, a major dealer offered our sister firm, Legend Numismatics a decent piece for \$10,000, and even an AU55 sold for \$9,400 in August 2013A great coin for any collector of Seated dollars.

PCGS #6942 | EST: \$8,000+

LOT 309

\$1 1862 PCGS XF45

Only 11,540 silver dollars were struck during this important Civil War year. Medium dove-gray with light gold and rose hues. Sharply struck devices remain defined on both sides. Decent eye appeal.

PCGS 13, NGC 5. NO PCGS XF45 has ever sold in auction. The most recent example was a CAC-approved NGC coin that brought \$4,113 in November 2013. The current CU value is listed at \$3,250. A great collectible coin for any dollar collector.

PCGS #6952 | EST: \$3,000+

LOT 310

\$1 1869 PCGS AU55 CAC

Excellent quality with light silver gray dominating the toning but accented by rich jewel tones which flash against the semi reflective fields. A scarce date to find this well preserved.

PCGS 31, NGC 16, CAC 5. This coin realized a very strong \$2,174 in our December 2015 Regency Auction, and is the only CAC-approved example to ever sell in auction. Good luck!

OUR ESTIMATES

The estimates you see published in this catalog are just that: estimates. Keep in mind that a coin could be either low or high end for the grade,

have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so collectors can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin.

The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality.

There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 311

\$1 1861 PCGS PR65+

From the Dale Larsen Collection. The highlight of the selection of toned coins from Dale's collection, this GEM 1861 is one of the most beautifully toned No Motto dollars this cataloger has seen. Bold mirrored fields and exceptionally well struck devices are bathed in a captivating blend of red, orange, gold, and icy blue hues. This coin's vivid eye appeal seduces the eye from across the room. It is only under intense magnification that reveals a tiny patch of hairlines hidden near the eagle's wing that keeps this beauty from obtaining a coveted CAC bean. The eye appeal is stunning regardless.

Only 1,000 proof dollars were struck during the first year of the Civil War, many of which disappeared over the years. The presently offered coin is among the finest graded, with only four coins that have received a higher grade at PCGS.

PCGS 2, NGC 2. None of these have ever sold in auction. The most recent PCGS PR65 sold in November 2011 sold for \$13,513 and the most recent PCGS PR66 sold for \$21,150 in October 2015--however, the current Collector's Universe value is listed at \$32,500. With it's superb eye appeal, we can see this wonderful coin bringing a very strong price. You really need to see this gem in hand to fully appreciate its beauty!

PCGS #7004 | EST: \$18,000+

LOT 312

\$1 1870 NGC PR65 ULTRA CAMEO

This is a big, boldly contrasted GEM Proof! Deep, beaming mirrored fields are blinding in the light. The mirrors are quite flashy and icy-smooth save for a tiny planchet flake in the lower right obverse field. The Sharply struck devices are brilliantly frosted and create a just superb CAMEO contrast. There is a hint of gold that frames the obverse. The eye appeal is nice.

PCGS 3, NGC 3. A PCGS PR64 DCAM sold in January 2014 for \$13,513 before this one sold for \$14,100 in the 2017 FUN auction. Only 2 NGC coins are graded finer at NGC in the Ultra Cameo designation. The last PCGS PR65 DCAM sold for \$23,000 in July 2008! These clearly do not appear in auction with any frequency!

PCGS #97018 | EST: \$13,000+

LOT 313

\$1 1871 PCGS PR66+ CAC

SUPER ULTRA HIGH END everything! If this coin were in a PR67 holder, we would not flinch. Everything about this coin is wild! Incredible mirrors are super deep and blaze from all over; they are crystal clear, ultra clean, and have intense reflectivity. The surfaces do look like a freshly formed perfect sheet of ice. An outrageous original mix of circular royal blue/green/reddish gold/amber/violet colors all dazzle to no end. Miss Liberty and the details are fully struck and have thick frost. We do grade the reverse a full PR67 and the obverse a 66.9+. The eye appeal of this monster is full PR68+ caliber (yes, you read that right).

PCGS 1, NGC 0, CAC 1 (there are NO regular PR66's). There is only one PR67. This coin last sold for \$52,875 in April 2014. It is more than worth the money-don't just take our word on it-see the coin in person. This piece is light years superior to most other Seated Proofs we have ever seen! Plus, it has colors that would make a peacock blush. In the end, PCGS was too tight on this coin. This coin will be a stand out in any GEM Set it is placed in.

PCGS #7019 I EST: \$45,000+

LOT 314

T\$1 1873-CC PCGS AU53

Richly toned on both sides the eye appealing AU 73-CC Trade dollar. Some light marks, acquired during its brief stay in circulation do not detract and are appropriate for the assigned grade.

PCGS 19, NGC 10. The most recent example to sell in a major auction was nearly a decade ago, bringing \$3,450 in April 2008. A PCGS AU55 sold for \$2,938 in April 2017 and an AU50 sold for \$2,585 in June 2014. The current CU value is \$3,400. A neat coin for the collector!

LOT 315

T\$1 1878-CC PCGS MS64 CAC

Yes, this coin did very much sell for \$73,437.50 in our July Regency Sale. Since then the collector decided to concentrate on other areas (he bought the Lord St. Oswald-Norweb 1794 Dollar in PCGS MS64 CAC out of the recent ANA Sale). He quickly realized this coin did not really fit into the set he is building, so here it is-back for sale totally UNRESEVED.

Here is our description from the last sale:

Welcome back to the market! This coin has been away for a minimum of 20+ years. It is from the estate of a major Trade Dollar collector. This coin's quality is great. Outstanding super satiny smooth surfaces are visible all over. Even using a strong glass you will find hardly any scrapes or ticks. A moderate luster greatly enhances the totally original colors. A thick band of navy opens into deep champagne centers. There are no spots or discolorations. Miss Liberty and the details are sharply struck and are way above average. We assure you, this is not your typical 1878-CC Trade Dollar. The overall eye appeal is very pleasing!

PCGS 8, NGC 5, CAC 4. The last PCGS MS64 CAC piece to sell in auction brought \$69,000 in August 2012. We paid \$54,050 for a NGC MS63+ CAC in June 2016. The current Collectors Universe

Value is \$79,000. PCGS has graded only 2 coins higher (the MS65 last sold for \$143,750 back in January 2007). The extreme rarity of this date and grade are undeniable. We know this will be a great fit in any choice CC or MS Trade Dollar set. We expect strong bidding here! Now collectors have a second chance to own it.

PCGS #7047 | EST: \$60,000+

LOT 316

T\$1 1876 PCGS PR65 CAM CAC

You can see the flash of the mirrors from across the room! Deep and seemingly endless mirrors beam from all over; the mirrors are extremely clean, have stunning clarity, and of course are highly reflective. The only lines you will find are on the old holder! A gorgeous ring of totally original reddish gold frames the rims on both sides. Miss Liberty and every detail are thickly frosted and stand out with crisp full strikes.

PCGS 9, NGC 9, CAC 9. The last one of these to sell in auction actually slipped through the cracks. It brought \$7,638 in January 2017. Our sister company, Legend Numismatics, bought the coin and immediately sold it for much more. You can NOT buy a crisp clear mirrored untoned GEM for under \$10,000 in a normal setting (FUN was again, a weaker auction because it was too big). One thing we know better than anyone—GEM Proof Trade Dollars (Legend has built the FINEST set of those too).

PCGS #87056 | EST: \$10,000+

LOT 317

T\$1 1881 TRADE. PCGS PR65 CAM CAC

Beautiful! A true GEM! Boldly, shimmering watery mirrors shine in the light. Soft iridescent pastel toning adds depth to the fields, heightening their contrast against the fully struck and boldly frosted reliefs. Dappled blue, gold, and rose hues blend together giving this GEM a superb look.

PCGS 29, NGC 20, CAC 6. Only two PCGS/CAC examples have sold in auction. We think the example that sold for \$5,875 in the 2017 FUN auction represents a buy back, as that coin sold for \$9,400 in a March 2013 auction. The only other PCGS/CAC coin sold for \$8,625 back in 2011. A non-CAC recently sold for \$8,813 and the current Collector's Universe value is listed at \$9,750. A great type coin or example for a high end set of GEM Proof Trade dollars.

PCGS #87061 | EST: \$6,500+

LOT 318

**\$1 1879-O PCGS MS64 CAC
EX SUNNYWOOD-SIMPSON**

From the San Francisco Set. From our Regency Auction IX offering of the Sunnywood-Simpson Collection, where we described this coin was cataloged as: "Not only is this the most exceptionally colored 1879-O that we have ever seen, but it is also superior in technical quality to the two PCGS MS65 examples we have owned. In cased like this, we are willing to sacrifice registry ranking to include a superior coin, even if the slab grade is a point lower than our other candidates."

We can't really remember seeing many beautifully toned 79-Os in the past few years, especially with this kind of high end quality. Opportunity knocks!"

This coin realized \$2,820 on a \$1,000-\$1,100 estimate. After five sales of Northern Lights, we know the toned dollar market is very much alive and well and this is a great opportunity to acquire this wonderfully pedigreed 79-O!

PCGS #7090 | EST: \$2,500+

LOT 319

\$1 1879-S PCGS MS67 CAC

From the San Francisco Set. Ex Sonnier Collection--one of the greatest cabinets of toned Morgan dollars to ever be assembled. Beautiful! Arching bands of rainbow color blanket about 60% of the obverse starting with rich cranberry, then fading and blending into teal, violet, gold, magenta, apricot, and orange hues before stopping to semi-reflective silver. The luster radiates brilliantly on both sides, especially on the obverse where the colors burst in the light. Well struck, Ms. Liberty and the details are fully formed and frosty. We would rate the colors an 8.5+ on our 10-point scale. The current PCGS CoinFacts.com plate coin. The eye appeal is quite high end! Worthy of a serious bid from the specialist collector!

PCGS #7092 | EST: \$1,500+

LOT 320

\$1 1881 PCGS MS65+ CAC EX SIMPSON

From the San Francisco Set. A beautifully toned GEM from the Simpson Collection. Both sides display a wealth of antique, multicolored patina, likely a coin stored for many years in an album. We note a few micro-ticks under close inspection, but the eye appeal is quite bold.

PCGS 1321, NGC 667, CAC 157. Of those graded, 72 are MS65+ at PCGS. There is no record for this coin selling. With the superb eye appeal and Simpson pedigree we think this one will bring a strong price.

PCGS #7124 | EST: \$1,000+

LOT 321

\$1 1881-O PCGS MS65 CAC EX SUNNYWOOD-SIMPSON

From the San Francisco Set. Another AMAZING toned dollar from our historic Sunnywood-Simpson sale. It was described in lot 142 in our Regency Auction IX, as:

"Truly a monster toned 1881-O, this PQ gem is the best of five colorful examples of this date that we have owned. By consensus, it is also the best '81-O any toned dollar specialist has ever seen. The obverse is blanketed with deep but attractive shades of deep magenta, purple, eggplant, deep blues and greens, and golds, such as could only have formed during decades of absolutely undisturbed storage in the original Mint bag. Ex Jack Kelly's "Toned Dollars" collection. Jack called this coin "The Purple People-Eater" and it was one of his favorites, along with his 1921-P (now also part of the Sunnywood Collection). We paid record premiums to pry these prize coins away, but they were worth it!"

If you only buy the very best in toned Morgans, how do you pass up a date that you almost never see toned? This coin realized a whopping \$9,694 on a \$3,500-\$4,000 estimate, and this GEM does rival the color and quality of many of the Northern Lights coins! A grand opportunity to buy a great pedigreed Monster toner!

PCGS #7128 | EST: \$8,500+

LOT 322

\$1 1881-S PCGS MS66 CAC

From the San Francisco Set. "JINGLE BELLS"

WOW! You would think after selling the Northern Lights Collection we would be jaded, but this coin is nothing less than STUNNING! Amazing blue, green, magenta, and gold toning blend together across the wonderfully clean surfaces. We rate the colors a full 10 out of 10 on our color scale. If this coin had been on the market while we were building the Northern Lights Collection, we would have placed it in that remarkable collection. Now is your chance to own this amazing toner! Good luck!

PCGS #7130 | EST: \$4,000+

LOT 323

**\$1 1882-O PCGS MS65+ CAC
EX SUNNYWOOD-SIMPSON**

From the San Francisco Set. A great toner from one of the greatest toned Morgan collections ever Sunnywood-Simpson. Beautiful orange-magenta and rose-gold patina are draped across the obverse, interrupted by a line of sky-blue/silvery surfaces, likely caused by something that was touching the surface; whatever it was, the effect is quite dramatic indeed! Sunnywood purchased this magnificent GEM from Mike DeFalco, who knew how to find impossible coins with both killer colors and quality. So few 82-Os could come close to the eye appeal of this one!

The present consignor purchased this GEM out of the Sunnywood-Simpson Auction, paying \$6,169 against a \$4,500-\$5,000 estimate. We anticipate strong bidding on it again when it comes back around the block this time!

PCGS #7136 | EST: \$5,500+

LOT 324

\$1 1883-O PCGS MS65 CAC

From the San Francisco Set. A very unique looking toner, nicknamed "Twiggy" for its linear toning pattern. Shades of peach, russet, blue, and gold blend and make for a dramatic look! The reverse is more evenly toned with amber, gold, rose, and blue shades, making you wonder how this coin was stored to take on this neat look!

PCGS #7146 | EST: \$1,250+

LOT 325

**\$1 1884-O PCGS MS65 CAC
EX SUNNYWOOD-SIMPSON**

From the San Francisco Set. Wow, did Sunnywood have a great eye! Last sold in our October 2014 Regency Auction, described as: "Heavy, thick, intense rainbow colors make this common date toner a powerful standout. Try as we might, we have yet to locate a more compelling 1884-O in any grade. For this reason, we have chosen to include this MS65 in our set even though higher-graded examples of the issue could easily be located. Amazing rich colors are splayed across the obverse, including the most desirable crimson and emerald colors. This is perhaps the most intensely toned coin in the collection."

Yet again, even with all the resources at Sunnywood's disposal, this was the only 1884-O deemed worthy of inclusion. If it were not being sold here, it would certainly stand out in any other set."

This remarkable GEM sold for \$3,643 on a \$2,500-\$2,750 estimate. We think it could sell for even more today!

PCGS #7154 | EST: \$3,000+

**LOT 326****\$1 1885-O PCGS MS66+ CAC**

From the San Francisco Set. A beautiful, bag toned SUPERB GEM. A band of sexy rainbow colors, the remaining surfaces of the obverse have a light, pastel sea-green patina. We rank the colors a full 9 on our 10-point scale, and is oh so close to Northern Lights quality. The surfaces are VERY clean, free of any distracting marks, and the strike is full. Worthy of inclusion in a world class collection of toned Morgan dollars and truly worthy of a premium bid!

PCGS #7162 | EST: \$1,250+**LOT 327****\$1 1887-O PCGS MS64+ CAC
EX SUNNYWOOD-SIMPSON**

From the San Francisco Set. This is a stunning, rainbow-toned gem, with a full MS65 reverse that realized \$4,230 on a \$1,500-\$1,750 estimate in our sale of the Sunnywood-Simpson Collection, October 2014, lot 165, where we described it as:

"The distinctive, beautiful banded rainbow bag toning found on this coin is a classic hallmark found only among toned Morgan dollars, but it is extremely rare on an 1887-O. While it is reasonably easy to find this kind of color on common date coins such as an 1881-S, it is an exciting treat to find it on better dates. For that reason, we have opted to include this example in the set rather than any of the MS65's that we have owned. Those coins were album-toned, but the colors could not compare to the vibrant, true banded rainbow bag-toning on this MS64+."

PCGS #7176 | EST: \$3,750+**LOT 328****\$1 1888-O PCGS MS65 CAC**

From the San Francisco Set. A lovely textile-toned GEM from the Sonnier Collection. The obverse is about 50% toned in a pastel teal and sea green. A broad swath of richer blue and another band of gold complete the toning on the obverse. The reverse is untoned, save for a hint of gold at the rim. For a New Orleans dollar, the strike is strong and bold.

PCGS #7184 | EST: \$650+**LOT 329****\$1 1889 PCGS MS65 CAC
EX SUNNYWOOD-SIMPSON**

From the San Francisco Set. A lovely GEM that was a duplicate in the remarkable Sunnywood-Simpson Collection, and sold privately to our present consignor.

Arching bands of rainbow iridescence grace both sides starting at the left rims. The violet hues dominate, but accents of gold, green, and blue add to the visual allure on both sides. Typical of the date, some striking weakness in the central portions of the design is noted. This GEM will certainly see spirited bidding when it crosses the block, worthy of a very strong bid.

PCGS #7188 | EST: \$700+

**LOT 330****\$1 1890-O PCGS MS64 CAC**

From the San Francisco Set. Nicely toned with gold at the rims, blending to orange and then sky-blue in the centers. Lustrous with a typical blunt central strike. An eye appealing example of a date that rarely comes with nice color.

PCGS #7200 | EST: \$450+**LOT 331****\$1 1891-S PCGS MS65 CAC**

From the San Francisco Set. This frosty and well struck GEM is housed in a Green Tag PCGS slab, and the obverse is exceptionally clean! The fields, cheek, and neck are all free of any significant lines, bagmarks, or other defects. A tiny mark, well hidden among the eagle's breast feathers is the only reason we do not think this coin graded MS66. A blast white luster swirls over both sides enhancing the eye appeal.

PCGS 531, NGC 231, CAC 81. Very scarce any finer, LRCA sold the last PCGS/CAC example in Regency Auction XXII, realizing \$1,410. The current PCGS Price is \$1,650, and it would not be a shock if this coin brought more!

PCGS #7210 | EST: \$1,300+**LOT 332****\$1 1892-O PCGS MS64+ CAC
EX SUNNYWOOD-SIMPSON**

From the San Francisco Set. A fantastic duplicate from the Simpson-Sunnywood Collection, one that did not appear in our Regency Auction IX. Light pastel iridescent toning graces the near-GEM obverse, but flip the coin over, and the reverse shows peripheral rainbow hues and a brilliant silver-gold center.

Conditionally rare in any grade finer, this coin should bring a very strong bid from dollar specialists. The current PCGS Price Guide lists a value of \$1,550 and the value doubles in 65.

PCGS #7216 | EST: \$1,000+**LOT 333****\$1 1896 PCGS MS66 PL CAC**

From the San Francisco Set. At first glance, depending on the angle the light hits this marvelous GEM, you would think it is a deeply toned proof. Upon close inspection, it is "just" a very reflective fully Prooflike coin. Fully defined devices are frosty and have ample contrast with the deeply watery fields surrounding.

Both sides are draped in a gorgeous pattern of brilliant blue centers that blend to a frame of golden orange at the rims. The eye appeal is spectacular!

PCGS 21, NGC 10, CAC 12. The most recent example to sell in auction realized \$2,115 in an April 2016 auction--and that coin was totally untoned. That realization was quite the premium to the current PCGS Price Guide value of \$1,350. A real prize for either the toned or PL dollar collector.

PCGS #7241 | EST: \$1,300+

**LOT 334****\$1 1897-S PCGS MS65 CAC**

From the San Francisco Set. Boldly lustrous with a brilliant flashy cartwheel that rolls uninterrupted over satiny smooth surfaces. The strike is crisp and full, about as complete as you could hope for.

PCGS 1285, NGC 720, CAC 132. Generally selling in the \$550-\$650 range, do not let the pops fool you, there has not been one sold in a major auction this year. Good luck.

PCGS #7250 | EST: \$600+**LOT 335****\$1 1898-O PCGS MS67 CAC
EX SUNNYWOOD-SIMPSON**

From the San Francisco Set. Many dealers who have seen this beast have pronounced it the finest ever 98-O with rainbow toning. Unusually pristine surfaces are thickly blanketed with an equally pristine layer of deep and substantial rainbow bag toning. The somewhat darker than normal rainbow toning immediately conjures a silent tale of decades of absolutely undisturbed storage.

The quality is great, but the eye appeal is off the charts! This would be a perfect fit in any Type or gem Morgan set.

PCGS #7254 | EST: \$3,500+**LOT 336****\$1 1899-O PCGS MS65 CAC**

From the San Francisco Set. Here is a date that you almost never see with any really stunning color; usually 99-Os come with a creamy, silvery white hue. What a great toner this is, a coin that would have found itself right at home in the Northern Lights Collection. Cool cobalt, sultry crimson, blooming teal hues are brought to the utmost vividness with a bold mint luster. We would rate the colors a 8+ on our 10-point scale. Clearly a "MOOSE" for the grade, and a highly attractive coin for the specialist! Let the bidding war commence!

PCGS #7260 | EST: \$1,250+**LOT 337****\$1 1900-O PCGS MS66 CAC
EX SUNNYWOOD-SIMPSON**

From the San Francisco Set. Ms. Liberty must have seen herself in the mirror she is blushing so much on this very nicely toned GEM. Aside from that dash of rose patina on her cheek. Liberty is framed in rings of sky blue and amber-gold; the reverse is blanketed in a seductive blend of sultry red and violet hues. A crisp strike for the date and a vivid mint bloom add to the wonderful eye appeal.

In our ninth Regency Auction, this coin realized \$2,938 against a \$1,500-\$1,750 estimate. This coin should see a similar strong bid today! Good luck!

PCGS #7266 | EST: \$2,700+

LOT 338

**\$1 1902-O PCGS MS66+ CAC
EX SUNNYWOOD-SIMPSON**

From the San Francisco Set. From our October 2014 sale of the Sunnywood-Simpson Collection, described as: "An absolutely beautiful coin pedigreed to two previous owners known for their discerning taste for coins with great eye appeal. As with all the issues from 1898 through 1902, here again the "O" mint is more readily found with beautiful color, but a coin as pretty as this one is nonetheless quite scarce. In our opinion, this coin has so much color it is one of the highlights of the collection. In addition to the killer colors, this coin has superior quality, with no negatives to be found. The luster is intense and really makes the colors stand out. We expect strong bidding on this magnificent coin!"

We certainly got that strong bidding when this SUPERB GEM sold for \$8,813 against a pre-sale estimate of \$1,500-\$1,750.

PCGS #7280 I EST: \$7,750+

LOT 339

\$1 1903-O PCGS MS66 CAC EX SIMPSON

From the San Francisco Set. The fabled 1903-O dollar was once considered the premier rarity of the Morgan dollars series, with virtually no examples known in mint state. However, in late 1962, the Treasury began releasing Morgan dollars that had been stored in its vaults for many decades. Among these was a significant number of 1903-O dollars - all in mint state! Essentially all known uncirculated examples stem from this 1962 release. Most, however, are untoned, and it is rare to find a lovely envelope or album toned piece such as this one, particularly in such high grade

This is actually a very colorful paper toned piece. Both sides of this high end are bathed in even shades of warm, slightly iridescent gold/green/blue/rose/violet colors.

PCGS #7286 I EST: \$2,500+

LOT 340

\$1 1878-CC PCGS MS66 CAC

A superb and beautiful GEM example of the first CC Morgan dollar issue. Razor sharp definition of the design elements are brought to life by a radial, brilliant mint luster. The obverse is awash in old textile toning with shades of sky blue, light aqua, pale gold, and hints of rose showing the delicate pattern of the canvas bag. The eye appeal truly is something special!

PCGS 310, NGC 213, CAC 58. The most recent PCGS/CAC coin to sell was the Ex Bella Collection coin in our December 2016 auction, which realized \$7,050. That coin, while attractive, was blast white. This coin, with its lovely, totally original bag tone, should bring a significant premium.

PCGS #7080 I EST: \$5,000+

LOT 341

\$1 1878-S PCGS MS66 CAC

A beautiful, semi-reflective cartwheel luster swirls under a light blanket of teal, gold, olive, and iridescent hues accenting the well struck and frosty devices. Both sides are clean and free from any singularly distracting marks.

Ex. Regency Auction II, February 2013, lot 10184, where it realized \$891. A beauty like this should bring a similar price today.

PCGS #7082 | EST: \$750+

LOT 342

\$1 1879-CC PCGS MS64 DMPL CAC

WOW! What a brilliant and reflective DMPL 79-CC! First off, Ms. Liberty and the eagle are boldly frosted and sharply struck. The mirrors are like sheets of ice, offering rich mirrors that beam a full 8+” deep. Despite a dusting of clear gold this beauty will fit in very nicely in an untoned DMPL set. Many of the known mint state survivors came out of the treasury department in the 1950s and then later on in the GSA releases. It is likely that this coin came from one of those more recent distributions, than in 1879.

PCGS 19, NGC 11, CAC 4. There are only three PCGS-graded examples that have been graded finer, and all seem to be off the market, ensconced in collections. No other CAC coin has sold in auction, and keep in mind that the MS65 DMPL last sold 11 years ago. This gem is going to be the finest DMPL 79-CC to hit the market in the foreseeable future, take full advantage of the opportunity!

PCGS #97087 | EST: \$18,000+

LOT 343

\$1 1879-S PCGS MS66 CAC

Stunning mint brilliance bursts through the wonderful bag toning. The original canvas bag pattern can be seen in the lower left obverse quadrant. Powder blue, teal, gold, violet, and orange. The devices are sharply and fully struck with a frosty texture. The eye appeal is superb, and we rate the color a 9 on our 10-point scale. Worthy of a strong bid, as it brought \$1,380 in April 2012 (while the CU value is listed at \$250). Expect to see fierce bidding!

PCGS #7092 | EST: \$1000+

LOT 344

**\$1 1880-S PCGS MS67+ CAC
EX SUNNYWOOD-SIMPSON**

From our October 2014 offering of the Sunnywood-Simpson Collection, lot 231, where it was described as:

"Both sides are extremely clean and a full, booming luster really lights up the killer end roll toning. The reverse is a beautiful light reddish gold, while the obverse has triangles of blue/green/gold/purple/violet. Miss Liberty and the details are frosty and fully struck. The eye appeal is jaw dropping! Any color lover would be more than happy to place this coin in their finest color set!"

Spirited bidding ensued, realizing \$5,053 when the hammer fell on an estimate of \$4,000-\$4,500. With its excellent eye appeal and important provenance, we suspect similar strong bidding.

PCGS #7118 | EST: \$4,000+

LOT 345

\$1 1880-S PCGS MS68

Legend Rare Coin Auctions will only offer reverse toned Morgan dollars if they are truly special. Lustrous surfaces shine through a pearly-gold on the obverse, but it is the reverse that makes this coin special. Bold blue, gold, teal, amber, fuchsia, and olive blend together with a lovely dappled pattern. We rate the colors an 8 on our 10-point color scale. The devices are very well struck and razor sharp in definition in Ms. Liberty's hair curls. The eye appeal is superb!

PCGS 212, NGC 304. Worthy of a strong bid from the advanced collector. If the toning was on the obverse, this coin would sell for \$10,000 or more! Since the toning is on the reverse, you get the color, but save on the price. Good luck!

PCGS #7118 | EST: \$4,500+

LOT 346

\$1 1880-S PCGS MS68+ CAC

Virtual perfection! Satin smooth surfaces are amplified by a bold, radiant cartwheel luster. The sharply struck devices are totally frosty and fully defined. A subtle band of rainbow toning at the left rim and a hint of semi-prooflike reflectivity on the reverse adds to the superb eye appeal.

PCGS 240, NGC 308, CAC 113. PCGS has graded 28 examples in MS68+ with a mere five coins graded MS69 finer. We sold the most recent example, which brought \$14,688 in our July 2017 Regency Auction. PCGS lists a value of \$20,500 in their price guide. This coin's superior eye appeal should see very strong bidding when it crosses the block! Good luck!

PCGS #7118 | EST: \$15,000+

LOT 348

\$1 1881-S PCGS MS64+

A very neat double sided toner. Brilliant yellow-gold and magenta-rose colors dominate and totally blanket the obverse. The reverse has bands of teal, crimson, and mustard covering about 60% while the remaining surface is brilliant and original silver. The eye appeal is very neat, and we rate the colors an 8 on our 10-point scale, and we think PCGS was spot on with the MS64+ grade.

PCGS #7130 | EST: \$500+

LOT 347

\$1 1881-O PCGS MS65+ CAC

A totally UNIQUE rainbow hued pattern dominates the obverse. Shades of rose, gold, aqua-blue, magenta, and violet blend together brilliantly. Angular areas of untoned, original silver surfaces are evidence of old paper roll storage, where the paper folds prevented the toning from forming. We rate the totally unique toning pattern as an 8.5+ on our 10-point scale. The coin is very lustrous and nicely struck.

PCGS 842, NGC 503, CAC 94. This is among 65 examples called MS65+ at PCGS. The most recent example to sell realized \$5,288 in the recent ANA auction, but that coin was blast white and did not have the neat toning that this coin does. This date rarely comes with such dramatic color. RARE any finer!

PCGS #7128 | EST: \$5,000+

LOT 349

\$1 1881-S PCGS MS65 CAC

Glowing luster blooms under resplendent rainbow toning that graces the obverse, that we would rate a 9 on our 10-point scale. Combined with the bold strike and very clean surfaces for the assigned grade. What great eye appeal!

PCGS #7130 | EST: \$1,000+

LOT 350

\$1 1881-S PCGS MS65

Semi-prooflike reflectivity and frosty luster bring out the subtleties of the color on both sides of this nicely struck two-sided toner. Deep color forms an arch along the lower 30% of the obverse, while the reverse has an impressive array of iridescent colors that are really brought out when rotated in a light. The reverse is the more impressive side, and if the color was on the obverse this coin would really see very strong bidding. Even still, we can see it bring a handsome price when it crosses the block.

PCGS #7130 | EST: \$500+

LOT 351

\$1 1881-S PCGS MS65

Beautiful rainbow toning dominates the obverse, covering about 1/3 of that side. Rich colors are brought out by a bold, radiating cartwheel luster. We rate the color a 8+ on our 10-point scale; the eye appeal is superb!

PCGS #7130 | EST: \$500+

LOT 352

\$1 1881-S PCGS MS65+ CAC

A beautiful swath of rainbow toning shines in front of Ms. Liberty's profile, is brought out by a full, booming cartwheel luster. The color fully defines the well struck devices and silky smooth fields on the obverse, covering about 50% of the surfaces. The reverse is mostly untoned toward the centers with a lovely ring of rainbow at the rim. The eye appeal is exceptional for the assigned grade, and the color is fantastic!

PCGS #7130 | EST: \$750+

LOT 353

\$1 1881-S PCGS MS66 CAC

Rolling cartwheel luster swirls along both sides of this beautiful GEM. Rich, totally original bag toning in amber gold, teal-blue, and peachy hues show the canvas bag fabric texture imparted from the storage in the original bag. A very pretty coin worthy of a serious bid from the colored dollar collector.

A true superb gem with immaculate lustrous surfaces. The lustrous cartwheels are so vibrant a pair of dark sunglasses should be used to save your eyes! Some light eggplant and pale cherry toning blends with blueberry accents on the obverse, while a dusting of clear gold graces the reverse. The devices are sharply struck and the surfaces throughout are very clean.

PCGS 153, NGC 283, CAC 115. This coin realized \$5,875 in an October 2012 auction. Only 16 pieces are graded finer. Bound for a wonderful set of dollars! Good luck!

\$1 1881-S PCGS MS68 CAC

What a killer 81-S! This coin was placed in our sale by a dealer who paid a lot for it and tried it twice for a MS68+. Obviously, it is not an MS68+. Still, it is one heck of a coin!

Shocking virtually perfect surfaces like this piece has are not something you see often. We used a strong glass to look around and for the most part found NO imperfections. A strong luster illuminates both sides. The color is a totally original silvery white with some faint gold spread around. Miss Liberty and the details are fully struck and have delicate frost. Most important, her cheek will please any picky collector. The eye appeal is superb!

PCGS 154, NGC 283, CAC 116. This is the coin that sold for \$5,640 in February 2017. The owners are saying uncle. Time for someone to add a really nice 1881-S Morgan to their holdings!

\$1 1882-S PCGS MS66 CAC

This lovely GEM is vividly lustrous and richly toned. The obverse displays a superb blend of deep blue, violet, and sea-green with accents of magenta and gold. We would rate the colors on this old hoarded beauty an 8.5+ out of 10 on our color scale.

This coin was last offered in the 2013 ANA auction, where it was part of the Gimbel New Heart Collection, realizing \$2,115. Before that it appeared in a May 2011 and April 2006 auction, each time realizing a strong price!

LOT 360

\$1 1882-S PCGS MS66 CAC

A very visually impressive end roll toner! Where the folds of the paper roll met has imparted a very interesting angular coloration, in which a beam of teal, cobalt, and amber burst from Liberty's eye, while below has lovely sunset golden-orange, and above has vivid lemon-yellow and behind is a brilliant silvery lustrous surface with accents of icy blue-lilac. A radial cartwheel luster rolls along both sides adding to the superb eye appeal. The details are all fully struck up and the surfaces are very clean.

Our consignor has named this coin "Ms. Lazer Beam"--although the Beatles fan that is this cataloger, perhaps "The Girl with Kaleidoscope Eyes" is also appropriate. The visually effect is dramatic, even without the majority of the coin being toned!

\$1 1882-S PCGS MS66 DMPL

Among the FINEST Deep Mirror Prooflike 82-S dollars graded by PCGS. Its rich mirrors are a full 8" deep in their reflectivity and they contrast beautifully against the sharply struck and frosty devices. A few teeny marks are exaggerated by the nature of the surfaces, and do not really detract for the overall quality of this wonderful GEM.

PCGS 12, NGC 8. There has not been an example sold in nearly a DECADE! These really are VERY RARE and NONE ARE GRADED FINER! The one that sold in July 2008 realized \$12,650 and the current PCGS Price Guide value is listed at \$11,000. These are never available to collectors and we expect that this coin will be hotly contested when it crosses the block!

OUR ESTIMATES

The estimates you see published in this catalog are just that: estimates. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so collectors can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin.

The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 365

\$1 1883-O PCGS MS67+ CAC

This coin is SUPERB and very close to full MS68! Remarkably clean surfaces are just that. We used a powerful glass and found ZERO imperfections of any size, anywhere. The luster is strong and of course highlights the killer original color. A rainbow crescent pattern of violet/pearl green/gold/pale lime blends together from left to right on the obverse. Any Peacock in heat would be jealous of these colors. On our 1-10 color scale, we rank this coin a full 10 (10 is the best). The ONLY thing that we believe keeps this coin from being a full MS68 is a touch of softness in the strike. Regardless, this coin ranks among the very best of the best toners and the very best of the best 1883-O's in existence quality wise!

The collectors who missed the Northern Lights coins will be thrilled with this incredible GEM.

LOT 366

\$1 1883-O PCGS MS66 DMPL

This is truly a spectacular DMPL Morgan. Exceptional black and white cameo-like contrast between the blazing reflective fields and essentially snow white cheek. The surfaces are generally very clean. The strike is razor sharp for the issue, with all of Ms. Liberty's hair details, eagle's feathers fully and crisply struck up. We do note two parallel lines that blend in with Liberty's lower hair curls that are mint made. We have had some discussion whether it is die grease or planchet slag, but either way it is part of the manufacturing process and does not affect the grade.

A very low population, in 66 DMPL, and there are none graded higher. Our consignor says that this one is fresh to the market, and we have not been able to locate this specimen in any recent auction. This is the current PCGS CoinFacts plate coin.

PCGS 21, NGC 3. There are NONE FINER in the DMPL designation at either service. The more recent examples to sell in auction did not have the stunning eye appeal of this GEM. The most recent example was in June 2016, which realized a very cheap \$3,995. The other two sold since 2008 sold for \$4,583 and \$4,935. The current PCGS Price Guide value is listed at \$5,500 and it is possible that this coin will surpass that level.

Very well struck and vividly lustrous, the obverse displays cascading bands in shades of blue, gold, and rose predominating. The eye appeal is strong and alluring.

The value of this superb gem is going to be determined by its wonderful eye appeal. The current CU value is \$1,450 and in the 2013 ANA auction, this gem brought \$1,880.

PCGS #7152 | EST: \$1,500+**LOT 368****\$1 1884-CC NGC MS66+ PL**

Exceptional everything! There are so many wonderful characteristics to describe about this SUPERB coin! First the luster is vibrant and flashy with a brilliant cartwheel that blazes over highly reflective proof-like mirrored fields. This provides a stunning back light to the distinctive rainbow colored bands that dominate the left half of the obverse. Ms. Liberty and the details are fully struck and very frosty.

PCGS 4, NGC 4. At NGC there are 10 graded finer in the PL designation. This coin has not been in auction for over three years, selling in the 2014 FUN auction for \$3,819. The visual appeal of this coin is so superb, we would not be surprised if it brought more than our estimate range when it crosses the block!

PCGS #7153 | EST: \$3,600+**LOT 369****\$1 1884-CC PCGS MS65 DMPL**

A light pearly iridescence dusts over fully DMPL mirrored lustrous surfaces. The mirrors do reflect a full 8"+++ and offer neat clarity.

The devices are fully struck up and nicely frosted giving both sides of this impressive gem a very neat cameo appearance. There are a few teeny ticks but they are exaggerated because of the characteristics of the surfaces, otherwise this GEM has a great look!

PCGS 660, NGC 263. The last PCGS 65 DMPL to sell in auction realized \$2,703 in our July 2017 Regency Auction (that coin was CAC-approved). Without CAC-approval, these have been selling in the \$1,000-\$1,500 range and the current CU value is \$1,600.

PCGS #97153 | EST: \$1,200+**LOT 370****\$1 1884-CC PCGS MS66 DMPL**

Really deep 8"+ mirrors beam boldly from all over. The mirrors have remarkably cleanliness (barely any ticks), clarity, and a full blooming flash. The mirrors look like freshly formed ice glistening on a lake. Miss Liberty and every detail are fully struck and have gorgeous thick white frost. Even the eagle is stand out fully struck-and one of he ones from the corroded dies. The eye appeal is phenomenal!

PCGS 151, NGC 66, CAC 23. The last one to sell in auction was a NON CAC piece which brought \$2,585 in June 2017. We must comment, this is a rare case where we do not agree with CAC not beanimg a coin. The mirrors are not shallow, there are NO big hits, and we really can't see any other issues. If you seek a really nice fully cameo 1884CC, check this piece out!

PCGS #97153 | EST: \$2,000+

LOT 371

\$1 1884-S PCGS MS63+ CAC

The generous mintage of 3,200,000 would make anyone believe that the 1884-S dollar would be a common issue. However, due to a high rate of circulation of the issue, this is one of the MAJOR condition rarities in the series. VERY RARE in choice, and virtually unobtainable in GEM or better grades. This is one of those issues that most collectors only dream of owning in Mint State--many opting for a high end AU58.

A bold cartwheel luster rolls along the generally smooth, clean surfaces. Well struck, Ms. Liberty and all the details are crisply impressed on both sides, and a light golden toning mostly along the rims provides definition and depth to the eye appeal.

Although a strong glass will reveal a tiny tick or two, they are completely appropriate for the assigned grade and are not in any of the focal areas. The eye appeal is very high end for the issue!

PCGS 55, NGC 46, CAC 11. There are only THREE graded MS63+ at PCGS and a total of fourteen coins graded finer, from MS64 (11), and one each in MS65, MS67, MS68. Generally MS63s sell in the \$40,000-\$50,000 range, and in MS63+, three CAC-approved examples have sold; the most recent selling for \$56,400 in April 2017 and one sold in an April 2016 auction for \$76,375. The third sold in March 2015 for nearly \$100,000! The price jumps into the \$115,000-\$125,000 range in MS64, making this a wonderful opportunity for an advanced collector! Do not let this coin pass you by if you are building a high end set! You will regret it if you do!

PCGS #7156 | EST: \$65,000+

**LOT 372****\$1 1885 PCGS MS66 DMPL**

Razor sharp in strike, the highly frosted and fully defined devices contrast against deep, chrome-like mirrored fields. The mirrors are clear, free of any singularly distracting marks or lines, the frosty cheek is clean and smooth. A light dusting of clear gold adds to the appeal. The eye appeal this GEM is superb.

PCGS 91, NGC 53. Non-CAC DMPLs have been consistent in auction, with several of the most recent example sold in our July 2017 Regency Auction for \$2,703, and the current PCGS value is listed at \$3,700. Only four coins are graded finer. We think you will like the quality.

PCGS #97159 | EST: \$2,400+**LOT 374****\$1 1885-O PCGS MS67 CAC**

A highly satiny lustrous superb GEM with a strike superior to most examples of this date. The surfaces are clean and free of all but the most insignificant tick.

PCGS 297, NGC 564, CAC 163. The last CAC coin to sell brought \$1,645 in a September 2016 auction. The current CU value is \$1,500 and we think with its superb look, it should bring more!

PCGS #7162 | EST: \$1,500+**LOT 373****\$1 1885-O PCGS MS67 CAC**

Superb in every way! For a coin of this vintage, the strike is as bold and sharp as you can hope to see—the devices are well embossed and frosty. The obverse is awash in gold, amber, honey, with bold accents of violet, magenta, and bluish-green hues. We rate the color a full 9+ out of 10 on our scale. The reverse is completely untoned and both sides display a full satiny luster.

PCGS 298, NGC 568, CAC 163. PCGS has graded two dozen examples finer, including the sole finest MS68. This remarkably colorful SUPERB GEM is ex 2011 FUN auction, where it realized \$2,760.

PCGS #7162 | EST: \$2,300+**LOT 375****\$1 1886 PCGS MS67 CAC**

A classic, album toned SUPERB GEM dollar! Rich multihued iridescent shades of blue, crimson, violet, and gold blend, primarily towards the rims, lightening to silver on toward the centers. Nicely struck devices and silky smooth. The eye appeal is fantastic.

PCGS 440, NGC 952, CAC 324. The current PCGS Price Guide value of \$1,200 will be surpassed when this very pretty superb GEM crosses the block.

PCGS #7166 | EST: \$1,200+

\$1 1886 PCGS MS67 CAC
 A majestically toned SUPERB GEM Morgan dollar. Deep violet, rich orange-gold, lovely green and blue tones all blend together over silky smooth and boldly lustrous surfaces. We rate the colors a 9+ on our 10-point color scale. The reverse is generally untoned but with hints of a pearlescent toning.

PCGS 440, NGC 952, CAC 324. Truly worthy of any high end toned dollar collection. Toned dollar specialists, prepare for battle!

PCGS #7166 | EST: \$1,600+

\$1 1887 PCGS MS65+ CAC
 A stunning, wonderfully colored GEM! Rich layers of original iridescent colors cascade on the obverse. Electric shades of pearly green, violet, blue, amber and gold blend across the surfaces. We rate the color at an 8.5+ on our 10-point scale. The surfaces are very pleasing quality and the eye appeal is HIGH END!

Ex. Our Regency Auction V, December 2013, lot 195 realizing \$1,380.

\$1 1886 PCGS MS67+ CAC

A superb GEM, which our consignor purchased directly from our sister company, Legend Numismatics, so you know that the quality is all there and then some!

A bold, vibrant luster swirls over both sides of this impressive SUPERB gem. Nicely struck and frosty devices are mostly a creamy silver white with a halo of gold and teal at the extreme periphery. The eye appeal is wonderful.

PCGS 502, NGC 975, CAC 324. There are 62 graded MS67+ at PCGS and 22 at NGC. Only 9 coins are finer at PCGS. The most recent PCGS MS67+ CAC sold for \$2,585 in the recent 2017 ANA auction-- the current CU value is listed at \$2,500. A great coin for a date or type set!

PCGS #7166 | EST: \$2,000+

\$1 1888 PCGS MS66 CAC

Dappled iridescent apricot, lilac, lavender, blend over highly lustrous surfaces. Smooth surfaces, have a nice, frosty satin sheen that graces both sides of this well struck gem.

PCGS 841, NGC 910, CAC 254. The current CU value is listed at \$525, but this coin realized \$1,880 in a June 2013 auction.

PCGS #7182 | EST: \$1,500+

**LOT 380****\$1 1889 PCGS MS65 CAC**

A beautiful GEM with superb end roll paper toning on the obverse. The angular pattern suggests where the paper folded over the surface. A phenomenal mix of totally original blue, purple/violet, green, and gold colors are vividly brought out by a bold luster on the obverse, while the reverse has a pale, golden-tan and bluish hue. This is a rare date to find with any real color like this.

Ex. Our Regency Auction V, December 2013, lot 199, where it realized \$1,265 on a \$650+ estimate. Anticipate strong bidding for it again!

PCGS #7188 | EST: \$900+**LOT 381****\$1 1891-O PCGS MS65**

With a generous mintage, one would think this date would be relatively common even in gem grade--this is not the case. In MS65 this date is rather rare, and there are none finer than MS65+ at PCGS. This coin is boldly lustrous and frosty with a boldly defined strike. The eye appeal is really nice.

PCGS 120, NGC 69. There is a very wide range of Auction Prices Realized, from \$3,290 into the \$5,000-\$6,000+ range. The current PCGS Price Guide value is \$6,500. As said, the finest at PCGS is MS65+ and there are only six graded as such. A true condition rarity that is not given the same respect as other dates in the series.

PCGS #7208 | EST: \$3,500+**LOT 382****\$1 1891-S PCGS MS64 DMPL CAC**

No question this coin has full DEEP Mirrors. You don't usually see strong contrast on 91-S like this coin exhibits.

Full 8"+++ mirrors beam boldly from all over. Like a typical 91-S, they do exhibit several light (but not problematic) ticks. These mirrors are so deep and bright, you can forget solar energy and have this coin light up your house at night. The clarity of the mirrors is off the charts. There is some thin rim toning and a small area of color splashed across the left obverse. Miss Liberty and every detail stand out with crisp full strikes and remarkable white frost. The eye appeal is remarkable!

PCGS 35, NGC 34, CAC 11. PCGS has only graded 5 coins higher. The current Collector's Universe value on the 64DMPL is \$4,250. We can see this coin easily hitting that number. ALL DMPL's (including 80-S) have become impossible to find. Opportunity knocks loud here!

PCGS #97211 | EST: \$3,250+**LOT 383****\$1 1892-S PCGS AU58**

One of the major condition rarities of the Morgan dollar series--common in grades to XF45, but once you enter the AU grades, they become scarce, and because Mint State coins are VERY RARE, there is a lot of demand for AU58s.

The presently offered example has a frosty-pearly luster. The details are very sharply struck. Lightly abraded surfaces show some minor marks from the brief stay in circulation, and nothing is inappropriate for the assigned grade.

PCGS 130, NGC 134. The last PCGS AU58 to sell in auction realized \$12,338 in our July 2017 Regency Auction XXII. The current Collector's Universe value is listed at \$13,500. Remember a Mint State coin will cost, at minimum \$35,000-\$40,000!

LOT 384

\$1 1892-S PCGS MS67 CAC EX ELIASBERG-CORONET

LOT 384

\$1 1892-S PCGS MS67 CAC EX ELIASBERG-CORONET

One of the most famous condition rarities of the Morgan dollar series. Any Mint State 92-S is a major rarity, and the higher up the grading scale you go, the harder they are to find. This MAGNIFICENT SUPERB GEM is the second finest known, and a real prize for any specialist. Not only is the quality all there, and then some, the Eliasberg-Coronet pedigree should speak for itself in terms of quality, eye appeal, and prestige.

Listed as lot 2290 in the April 1997 sale of the Eliasberg Collection, and described as: "MS67 or finer. An incredible specimen, breathtaking in its beauty and unsurpassed in its appeal. Delicate champagne toning over satiny, lustrous surfaces change to splashes of gold and blue at the rims. One of the keys to the Morgan dollar series, in Mint State, and one of the very rarest at this 'impossible' level. An American numismatic landmark."

Today, 20 years later, the coin is just as spectacular! The luster swirls over the velvety surfaces nearly the way an S-mint coin from 1879-1882 would. The lovely toning mostly clings to the rims, keeping the central devices shimmering in their silvery brilliance. The surfaces are essentially without flaws, and as expected for the lofty grade designation, the eye appeal is SUPERB!

J. Colvin Randall sold this magnificent coin to J.M. Clapp in March 1894 (Randall likely bought this coin directly at the mint at the time of issue). Passing to John H. Clapp, this coin was purchased by Louis Eliasberg as part of the Clapp estate purchase brokered by Stack's in 1942. It sold in 2001 and placed in the Arno Collection. Arno was sold in the 2009 FUN Auction, and this coin realized \$460,000 and placed into the Coronet Collection, the all time #1 PCGS Registry Set of Morgan Dollars. Appearing as lot 61 in our June 2015 Regency Sale, where it realized \$446,500. We are proud to reoffer this AMAZING COIN in our Regency Auction XXIII. Coupled with the Vermeule-Coronet 1893-S, this is truly an historic offering!

PCGS 5, NGC 5, CAC 2. Only a single MS68 is finer, the famous Jack Lee coin that has not been seen since it sold in a November 2005 auction. To show the depth of the demand for high end examples of this date, four bidders brought a PCGS/CAC MS64 to \$200,000 and two of them duked it out all the way to a final realization of \$293,750 in our recent Regency Auction XXII; this one will certainly see very strong bidding as it presents a wonderful and important opportunity for any advanced Morgan dollar specialist--the opportunity to buy one of the absolute FINEST 92-S dollars that exist!

LOT 385

\$1 1893 PCGS MS63 CAC

WOW! A rare date to find with real colors! Plus, the quality is very high end. The surfaces exhibit no problems-just a few light stray lines and ticks that you need a glass to see. A strong luster enhances the very pretty original colors of blue/violet/reddish gold/amber that swirl all over. Miss Liberty and the details are frosty and have above average strikes. The eye appeal is gorgeous!

PCGS 1359, NGC 695, CAC 66. The value of this beauty is in its colors, it last sold in our Regency Auction XVII in May 2016 where it realized \$2,174 against an estimate of \$1,000-\$1,200. We think there will be some serious bidding here yet again-good luck!

\$1 1893-CC NGC MS64+ CAC

One of the most eye appealing circulation strike examples of this final CC-mint Morgan that this cataloger has had the pleasure of cataloging! Starting with a bold, robust, semi-reflective cartwheel luster blazes on both sides of this near GEM. Marvelous cobalt and amber-gold tones form an arc along the upper reverse rim, as well as on the lower obverse rim. The details are full and expertly impressed by an exacting blow from the dies. All that keeps this coin from a FULL GEM grade are a few tiny ticks, but none of them detract from the high end visual allure!

PCGS 600, NGC 207, CAC 58. Only 8 examples are graded 64+ at NGC. This date is VERY RARE any finer! Fewer than 10 grade finer at NGC. Unlike many of the other examples from the CC-mint, there was only a SINGLE example that came out of the GSA hoard! The most recent CAC-approved coin was a PCGS-graded MS64+ that realized \$35,250. The only CAC-approved NGC coin sold in June 2015 for \$23,500. This coin will certainly see very strong bidding from Morgan dollar specialists! Keep in mind a 65 will cost \$70,000+ if you can find one. This is a very important opportunity for the collector!

LOT 387

\$1 1893-O PCGS MS66 PL CAC EX ELIASBERG-CORONET

A MONUMENTAL example of this very scarce date--the highest numerically graded example at PCGS, and among the absolute FINEST example for the date. Boasting one of the greatest pedigrees in numismatics, Louis Eliasberg, this coin is essentially traced since the time it was struck. This remarkable coin was cataloged in our June 2015 Regency Auction as follows:

"This is yet another special former Eliasberg coin that makes you wonder if it's really a Specimen or possibly a Proof. One thing's for sure, this off the charts coin is the all time finest 1893-O!"

If you want to really scrutinize this piece, there are a few microscopic ticks scattered around, but overall the surfaces are extremely clean. Both sides exhibit nearly flawless, icy, 4" mirrors, and nearly 6" mirrors on the reverse with great clarity. A warm, sensational mix of original blue/violet/pale burnt orange/lavender colors is spread all over. Miss Liberty and the details are frosted and well struck.

The eye appeal is phenomenal!"

Like the 1892-S offered above, this coin was purchased by J.M. Clapp from Colvin Randall in March 1894. John H. Clapp estate sold en bloc to Louis Eliasberg Sr. in 1942. Eliasberg Collection, April 1997, lot 2293. Sold in the 2004 FUN Auction; dealer intermediaries to Legend Numismatics; to the Coronet Collection, Legend Rare Coin Auctions, June 2015, where it realized \$458,250.

PCGS 1, NGC 0, CAC 1. The current PCGS Price Guide lists a value of \$450,000, based on the above cited realization. What an amazing opportunity for any advanced Morgan dollar collector or any one seeking truly special, sexy coins. This remarkable, SUPERB GEM will be a cornerstone of the next WORLD CLASS cabinet it graces.

LOT 388

\$1 1893-S PCGS MS67 CAC

LOT 388

\$1 1893-S PCGS MS67 CAC

Legend Rare Coin Auctions is proud to have been consigned the world's most valuable Morgan Dollar! Pedigreed back to the San Francisco mint in 1893, the Vermuele-Jack Lee-Coronet 1893-S is the undisputed FINEST KNOWN example of the rarest, and most important circulation strike Morgan dollar.

Everything about this coin is SUPERB! The first time it ever sold, was in the Stack's November 2001 sale of the Cornelius Vermeule III Collection, where, as lot 548 it was described as:

"This is a simply incredible 1893-S Dollar. It surpasses every other specimen seen by the cataloguer and is rivalled only by the magnificent Norweb coin...It is a challenge to adequately describe the gorgeous appearance of this coin. If we employed all the superlatives necessary to do justice to its magnificent colors and surfaces which we might be criticized for saying too much. That is until the coin is actually seen in person. Then, the reader would know that words almost fail to do justice to the superb quality of this coin. The obverse and reverse are as satiny smooth as one could ever hope for from a common date Philadelphia Mint coin, let alone a great rarity of this importance. The piece is beautifully toned in a pleasing combination of deep russet, gold, iridescent blue and pale green. The fields are pristine with nary a mark to be seen anywhere. The strike is as sharp as ever seen..."

Today, the quality is still as mesmerizing as it was 16 years ago. The luster, with its satiny brilliance brings out not just the dominant hues, but also the subtle shades throughout the surfaces. After handling many damaged, low grade, circulated pieces, you have to sit and marvel at how lucky we are that Cornelius Vermeule put this coin away at the time of mintage, and cherished as a family heirloom until his grandson, Cornelius Vermeule III sold the collection in 2001. Vermeule, was a lifelong numismatist, having worked for Stack's early on in his career, then becoming the curator of antiquities at the Boston Museum of Fine Arts. He also authored several numismatic references that are still used today, some fifty-sixty years after being published. At the time this coin was sold by Stack's it was uncertified, and called SUPERB GEM BRILLIANT UNCIRCULATED, and the cataloguer noted that it rivaled the then PCGS-graded MS67 Norweb coin, which before this coin was offered was considered the finest known. Since that time, the Norweb coin, has been conserved, and the originality of the coin has been lost. PCGS has not regraded that coin as an MS67, and currently resides in an NGC MS66 encapsulation. Other impressive examples of this rare date include the PCGS MS65 CAC coin, ex Randall-Clapp-Eliasberg-Stellar-Sunnywood-Simpson. Each of these coins can trace their provenance back to the cashier's window at the San Francisco mint.

The 1893-S, like all the dollars struck that year are lower mintage issues, as the nation battled a serious financial panic. San Francisco struck 100,000 silver dollars for general circulation where they would remain in commerce for many years. Any bags that were stored, unlike other dates, were melted under the 1918 Pittman Act. No large holdings of 1893-S in mint state have ever come out. The technical qualities of this SUPERB GEM are beyond your wildest imagination. This cataloger, was a young numismatist in the summer of 2001 when the Vermeule collection was being prepared for auction (originally to be held on September 11, 2001). One summer afternoon before classes started up again, he walked into Stack's where one of their numismatists came over and said, "Greg, do you want to see something really cool?", and brought over this coin, raw (not even in a flip) on a velvet tray for me to view. For a 17 year old, that left a major impression, and planted a seed for the future.

PCGS 1, NGC 0, CAC 1. This coin has only sold in auction one time before, way back in November 2001, where it sold for a then record \$414,000. In October, 2014, Legend Rare Coin Auctions proudly sold the Eliasberg-Sunnywood-Simpson PCGS MS65 for \$646,250. Our consignor purchased this coin via private treaty sale from Legend Numismatics in October 2008 for a price "in excess of \$1,000,000," again a record. While we sold the rest of the Coronet Collection in 2015, this coin was being offered for direct sale, with an asking price of \$2,000,000. The Coronet Collector has decided that now is the time to sell the coin. We believe that the record books will have to be completely re-written when this SUPERB GEM crosses the block. A true trophy for any advanced Morgan dollar collector. This is an important opportunity that should not be taken lightly. It could be a very long time before another true GEM 93-S is offered. Good luck to all bidders, and a hearty congratulations in advance to the winning bidder, your name is now added to one of the most famous coins in the entire U.S. series!

Bold frosty lustrous surfaces bloom on both sides and accent the strongly defined devices. A few tiny ticks are noted, but totally appropriate for the assigned grade. A very scarce date in Mint State. Only 400,000 were struck for circulation and very few were saved at the time of striking. **VERY RARE** any finer.

PCGS 420, NGC 219. Over the last few years, these have sold in the \$7,000-\$8,000 range, and the current CU value is \$8,500.

Spectacular rainbow toning comes together over about 80% of the obverse. Dominated by moderate-purple, bands of teal, gold, lighter purple, blends with gold, magenta, and orange. We would rate the color an 8 on our 10-point color scale. The reverse is brilliant and untoned and both sides are well struck and lustrous.

PCGS 246, NGC 73, CAC 70. PCGS has graded 25 in MS67+ with only two MS68s finer. This SUPERB GEM brought \$5,581 in February 2014. Another beautifully toned example sold for \$9,988 in March 2014. The current PCGS Price Guide value is listed at \$6,000. Anticipate another strong round of bidding when this tied for second finest certified crosses the block!

**LOT 391****\$1 1897 PCGS MS66 CAC EX SIMPSON**

Last offered in our Regency VII Auction where it was described as:

"You rarely see this date with real color! the surfaces are clean and smooth, while a full booming luster shows off the rich blue/green/pale violet/purple/gold colors that swirl all over. Miss Liberty and the details are frosty and fully struck. The eye appeal is nice."

PCGS 467, NGC 160, CAC 133. Then, as now, the value of this GEM, is derived from the exceptional color and eye appeal. The when sold in 2014, it realized \$2,820 on a \$1,500-\$2,000 estimate. Good luck!

PCGS #7246 I EST: \$2,000+**LOT 392****\$1 1898 PCGS MS65 CAC EX SUNNYWOOD-SIMPSON**

Our consignor purchased this BEAUTIFUL GEM from our historic offering of the Sunnywood Simpson Collection, October 2014, lot 202 where it was described as: "These vivid bands of rainbow colors would be a "wow" on any date in this series, but even more so on a gem 1898-P. The "P" mint Morgans get increasingly difficult after 1889, culminating with the non-existent 1895. Starting with 1896, the coins are more available, but not necessarily with attractive color. Who else could this coin have come from but the late Mike DeFalco, the long-standing guru of beautifully toned Morgans! This high end coin rivals any 80-S or 81-S in terms of cascading rainbow colors. We could see it in an MS65+ holder one day, but until then, sit back and enjoy!"

This amazing coin saw serious bidding, where it realized \$6,169 on a \$3,500-\$4,000 pre-sale estimate. We would be shocked if it didn't bring a similar price today. This is a rare issue to find with such wonderful colors!

PCGS #7252 I EST: \$5,000+**LOT 393****\$1 1899-O PCGS MS66 CAC**

Both sides are dominated by a blush of rich periwinkle-blue, lilac, teal, gold, and accents of amber, all brought together by a lovely satin mint frost. For an O-mint, the strike is excellent. The surfaces are clean and free of any significant contact. The eye appeal is high end!

PCGS #7260 I EST: \$1,000+**LOT 394****\$1 1900 PCGS MS65 CAC**

Rarely will you see a 1900 Morgan that looks like this GEM. Boasting killer, original, double sided toning in a swirling blend of mixed blue, magenta, gold, and green hues that yield to areas of creamy silvery surfaces. The reverse is a touch more toned than the obverse. Both sides' wonderful colors are enlivened by a bold luster that shows hints of semi-PL reflectivity.

This coin is from our December 2013 Regency Auction V, and at the time we expected strong bidding, and it did see spirited bidding when it realized \$1,840 against a \$500+ estimate. Prepare for another spirited round of bidding.

PCGS #7264 I EST: \$1,400+

LOT 395

\$1 1900-O/CC PCGS MS66+ CAC

We fully agree with the designation PCGS bestowed on this coin making it one of the finest graded. Remarkable surfaces are as clean and smooth as you will see on ANY Morgan. Even when using a strong glass, you will find a microscopic tick -only after really searching. The texture of the surfaces is satiny smooth. A strong luster illuminates the totally original, slightly off-white surfaces. Miss Liberty and every detail are well struck. You can clearly see the over mintmark without a glass. The eye appeal is fabulous! A very popular variety in the Morgan series, where an old reverse die, originally prepared for use at the closed mint in Carson City, had the "CC" mintmark partially removed, then the New Orleans "O" punched over.

PCGS 128, NGC 12, CAC 40. PCGS has graded only 5 in MS66+ with just two coins higher. The last PCGS CAC piece to sell in auction brought \$9,400 in August 2016. We can see this piece easily bringing that.

LOT 398

**\$1 1921 MORGAN. PCGS MS65+ CAC
EX SUNNYWOOD/ SIMPSON**

Sold as lot 224 in our October 2014 offering of the historic Sunnywood-Simpson Collection of toned Morgan dollars, where it was described as:

"Most 1921 dollars are either untoned, or have mottled unattractive toning. One commonly seen feature on toned '21-P dollars is a distinctive form of "scratchiness" in the toning, a form of mottling undoubtedly related to some particular method of planchet preparation and treatment that was peculiar to the 1921 issue. It is quite uncommon to encounter a 1921-P dollar with attractive colorful toning, and which is also not scratchy or mottled in the toning quality. This example is possibly the best colored 1921-P known; none of the toned Morgan specialists has ever seen a more attractively toned example. Ex Jack Kelly to Sunnywood in 2006, as part of a group of prized coins from the "Toned Dollars" collection. Previously from Elliot Goldman, Allstate Coin Co. of Tucson, AZ; to toned dollar specialist Art Ricci (1988); to Jack Kelly (2003). Note: several other nice colorful examples of this date can be found in our duplicates and triplicates Registry Sets."

This coin has moderate, even, unmottled "Christmas" colors. Not your typical 1921 toned Morgan!"

Realizing \$2,468 on a \$1,500-\$1,750 estimate, we know toned dollar collectors pine for beautifully toned 1921 Morgans, as they are truly RARE. Prepare to bid liberally for this GEM!

\$1 1891 PCGS PR65 CAM CAC

A very nice and original CAMEO GEM PROOF. Richly frosted devices are nicely struck up and contrast wonderfully against the watery reflective mirrored fields. The surfaces show a frame of gold toning that frames the otherwise frosty-silver white iridescent toning. We note a few light lines that appear only at certain angles, in a light, with a strong glass. Despite these, the eye appeal is very nice and toward the high end for the assigned grade.

Only 650 were struck. PCGS 12, NGC 14, CAC 6. Before this GEM appeared on the market, the somewhat mottled toned example from the Blue Moon Collection realized \$7,050 in March 2017--and before that, one sold for \$7,638 in November 2013. The current PCGS value is listed at \$7,250. Bound for a GEM set of Proof Morgans.

\$1 1891 PCGS PR66+ DCAM CAC

What a stunning and picture perfect GEM coin. If you can dream what you want a PR66 DCAM Morgan to look like, this is it! We are not sure what keeps it from a full PR67 DCAM.

Exceedingly deep mirrors boom from all over. The mirrors enjoy being the ultimate of clarity, cleanliness, and of course blinding reflection. When you twirl this coin, the mirrors roll like thick liquid mercury. Miss Liberty and every detail are fully struck and have thick original creamy white frost. The eye appeal will knock you off your feet!

ONLY 650 were minted. PCGS 3, NGC 0, CAC 2. This is the ONLY PR66+ DCAM graded and PCGS has graded NOTHING higher. In March 2015 a regular no + PCGS PR66 DCAM CAC sold for \$22,325. We expect this coin easily bring a record price. It is huge that after 30+ years of grading, this coin stands alone at the very top! If you are building the ultimate CAM or DCAM set, this coin is a must have!

\$1 1892 NGC PR68

Tied for FINEST GRADED at either PCGS or NGC. The presently offered SUPERB GEM PROOF Morgan dollar has deeply mirrored fields that really do present bold reflection, which provide a wonderful contrast to the nicely frosted devices. The frost and mirrors are just shy of a CAMEO designation. Both sides are exceptionally clean and brilliant. Only the slightest golden halo frames both sides, adding to the very high end eye appeal.

A great proof Morgan for a type set, as the mintage of 1,100 is higher than most other years. PCGS 2, NGC 7. Look at this fact: the one that sold in January 2017 was the first one to sell in auction since September 2006! Clearly they DO NOT appear with any frequency. There are perhaps as many as 10 coins graded PR68 CAM or DCAM but it is possible that the Populations are inflated with duplicate submissions. Do not let this opportunity pass you by if you seek a superb Proof Morgan! This one is brilliant and very attractive!

\$1 1894 PCGS PR67 DCAM

The second finest graded by PCGS, bested only by a single amazing PR68+ DCAM. Ultra deep mirrored fields are icy-smooth and free of any distracting lines or marks. The surfaces stand up to intense scrutiny with a strong glass. The crisply defined design elements are fully frosted and contrast brilliantly against the clear mirrors.

Only 972 proofs were struck. PCGS 3, NGC 0. Before this coin sold in April 2017, the only other PCGS PR67 DCAM to sell in auction realized \$37,375 in August 2011--six years ago! This coin should see very strong bidding, as who knows when the PR68+ DCAM will ever come up, so if you are building a top end set of Proof Morgans, this needs to be added to your set! Good luck.

\$1 1899 PCGS PR66+ CAM CAC

This coin is so flashy if you were on the Space Station you could see it! We are not hyping it when we say it is a Proof Morgan Dollar collector's fantasy piece! Near ultra deep mirrors beam boldly from all over. They have outstanding clarity and reflection; are super clean, however with a strong glass you can detect some light DIE POLISHING LINES-NOT cleaning or problem lines (something common to Morgan Proofs). When you twirl the coin, it looks like a river of liquid mercury rolling around. Miss Liberty and the details are fully struck and have thick silvery frost. The eye appeal is intense!

ONLY 846 were minted. PCGS 7, NGC 9, CAC 6 (we think there was a resubmission in this number). PCGS has graded only 2 in PR66+ Cameo. Neither has ever been sold via auction (nor has any regular PCGS CAC PR66 Cameo). Next step up will cost you at least \$23,500 (what a PR67 sold for in 2016). Not a date or grade you see with any frequency. And its awful nice! This coin will make a great addition to ANY GEM collection.

\$1 1883-CC G.S.A. HOLDER. NGC MS66* PL CAC

An incredible GEM with very impressive, prooflike surfaces that border on full DMPL status. The mirrors are bold, deep, clean, and blindingly brilliant! Both sides were struck from an early state of the dies; you can clearly see the extensive die polishing lines on both sides, particularly on the reverse. The surfaces are totally untoned, and the well struck and clean devices are beautifully frosted.

PCGS 0, NGC 45, CAC 47. (The PCGS and NGC data represent only those in the original GSA holders, CAC for all MS66 PLs regardless). The only GSA graded MS66* PL was a fantastically toned example that realized \$5,715 in the 2012 FUN auction. A non-“star”, non-CAC designated example sold in the 2017 FUN auction for \$1,880. This CAC-approved, “**” designated, borderline DMPL should bring a VERY strong price from the specialist collector! We do anticipate a fierce bidding war when this one crosses the block.

\$1 1922-S PCGS MS65+ CAC

Despite a very healthy mintage of nearly 14.5 million, the 1922-S dollar is a condition rarity. This satiny, pearly silver coin takes on an opalescent sheen when rotated in a light. The surfaces are generally clean and do not have any singularly distracting marks. Liberty's hair tresses are fully formed and crisp in definition, but the eagle's feather details are just slightly flat.

PCGS 412, NGC 255, CAC 108. There are only 32 graded in MS65+ at PCGS, 7 at NGC. A dozen coins are certified higher at PCGS, the finest being a single MS66+. The most recent example sold for \$2,820 in the recent 2017 ANA auction, while before that, a non-CAC sold for \$3,525 in June 2016. The current PCGS Price Guide value is listed at \$3,850. \$1 1934 PCGS MS66+

A beautifully lustrous and brilliant 34 Peace. A vibrant mint frost shows bold swirls of cartwheeling brilliance. Liberty's hair curls and the eagle's wing feathers are all sharply struck and expertly impressed into the planchet. As expected for the lofty grade, there are only a small number of very minor ticks that we note for full disclosure--all of these are well hidden and do not affect the superb eye appeal at all!

In MS66+ the pops are: PCGS 21, NGC 1. There is a trio of MS67s reported at PCGS as finest graded, but none have been sold in auction. The most recent PCGS MS66+ to sell in auction was a CAC approved example that we sold for \$7,931 in our December 2016 Regency Auction. The current PCGS Price Guide value is listed at \$8,500, which is a good average of the previous APRs. This coin should see very spirited bidding!

The eye appeal is premium quality.

PCGS 618, NGC 314, CAC 131. Two PCGS/CAC examples sold in March 2017 for \$6,463 and the current Collector's Universe value is listed at \$6,950. This one with its amazing originality should see spirited bidding!

LOT 412

G\$1 1836 J-67. PCGS PR66 CAM CAC

The first pattern for the gold dollar denomination, struck 13 years before the series began in 1849. Authorized in what would become the Coinage Act of January 18, 1837, which authorized the gold dollar denomination, and it has been suggested this was done because of the popularity of the Bechtler gold dollars that were circulating in the south. Christian Gobrecht is credited for the design, which features a Liberty Cap within a burst of rays on the obverse, similar to contemporary coins of the Mexican Republic, and the denomination within a palm wreath on the reverse. Struck in gold with a plain edge, this pattern is considered R-5, making this one of the only collectible pattern issues struck in gold (aside from Stellas which are technically patterns but collected along the regular U.S. gold series, which has catapulted them into the high five figure price range for even the lower quality examples).

The presently offered example has a rich golden color that really beams with the awe inspiring mirrors. Every detail is fully struck up. Close examination with a powerful glass reveals a few light die lines.

PCGS 1, NGC 1, CAC 2. PCGS reports two coins finer on their Population Report in the CAMEO designation. The most recent example to sell was in the 2014 ANA sale and was not CAC-approved and it realized \$30,550. Because of this, the CU value is listed at \$32,000. We think that this CAC-approved example should bring that or more. If you collect Gold dollars or patterns and would like an affordable gold pattern STRUCK in GOLD in GEM condition, this is a coin that should be of interest to you! We can see intense bidding for this beautiful jewel.

1C 1863 J-299. PCGS PR66+ BN

Tied for the finest numerically graded example of this R-3 pattern issue. A transitional pattern, struck in bronze with a plain edge, and struck in medal, not coin turn. Amazing cameo contrast, not recognized by PCGS in any color designation other than RD, provides a good portion of this coin's great eye appeal. Blistering mirrors shine in a light and reflect a teal-blue overtone that graces icy smooth, brilliant brown mirrors. A few indents at the rim appear to be in the planchet and not post mint damage, and do not affect the wonderful overall eye arresting allure.

PCGS 2, NGC 0. Neither 66+ BN has ever sold in auction and the CU value somehow has a listing at \$4,500. We think that may prove to be low! If this was a regular PR66+ 1863 cent the CU value is \$7,250. We will see at the end of the day what this remarkable survivor is worth.

This piece is nothing less than a full blown VERY HIGH-END MONSTER ULTRA CAMEO coin! It is an R-4 with 76-200 minted.

This piece is the FINEST graded! It is struck in Nickel even though it looks like a silver proof! Mega MONSTER mirrors knock your eye balls out they are so exceedingly clean, have the best clarity you can imagine, and are ridiculously reflective. When you twirl this coin will get lost in the mirrors. Miss Liberty and every detail are thickly frosted and have full strikes.

PCGS 3, NGC 0, CAC 3. This coin is the ONLY PR66+ DCAM graded-making it the FINEST. We strongly doubt any others are even close to this coin's MONSTER mirrors or MEGA MONSTER eye appeal. It should be noted about value, if this were a regular

5C 1868 PCGS PR66+ DCAM CAC, it would easily be worth \$10,000+. We strongly believe a coin like this is valued too cheap in today's market.

WOW! Why CAC did not bean it is anyone's guess. This coin is beyond SUPERB. The mirrors are way superior for an aluminum coin, they have practically NO oxidation. The mirrors display stunning clarity, cleanliness, and are as smooth as a sheet of glass. The reflection is nearly blinding. The cameo contrast is sensational. Miss Liberty and the details are thickly frosted and are so sharply struck they look sculpted. The eye appeal is phenomenal!

Miss Liberty and the details are sharply struck and have a silvery frosting. The eye appeal is pretty neat!

PCGS 1, NGC 0. This is the FINEST J-862 graded. A NON-CAC PR66 (non-CAMEO) sold for \$3,819 in April 2014. Mr Simpson paid \$7,750 for this coin back in 2008 (another coin from the famed \$36,000,000 pattern collection he bought privately, through our sister firm Legend Numismatics). R-7+ 4-6 Minted. Struck in aluminum with a reeded edge. We are mystified why PCGS did not designate this coin a DCAM. Sure looks it! Outrageous mirrors are incredibly deep, clean, and are crystal clear (rare for an aluminum coin)-- the reflection is so strong you almost need Ray Bans to view the coin. There is no toning or spots. Miss Liberty and the details are needle sharp in strike and have thick creamy white frost. The eye appeal is a full WOW! Followed by even more WOW's!

PCGS 1, NGC 0, CAC 1. Of course this is the FINEST KNOWN J-910. It should be noted Legend Auctions did sell a PR65 CAM in December 2016 for \$9,106 and this coin blows that coin out of the water in every respect (and that J-910 was pretty darn nice)! A beautiful GEM Cameo example of James Longacre's Indian Princess Seated design, struck in aluminum with a reeded edge. Rated as R-7+ with an approximately three examples known, this piece, is an old friend, ex Denali Collection (plate matched, pedigree not on holder).

The mirrors are beaming and reflect like a frozen lake. All of the details are fully frosted and exacting in the precision in which they were struck. Aluminum is a very soft metal, and is often susceptible to corrosion or hairlines; this GEM displays none of the former, and only the faintest of the latter, producing an AMAZING eye appeal.

PCGS 1, NGC 0, CAC 1. This is the FINEST example graded at PCGS. NGC has a PR66 (no CAM) on their population report. This coin sold in April 2017 for \$11,163; the only other sale of a J-1019 we can find is a PCGS PR64 (no CAM) in September 1993 for \$8,250. Finer than the famed Simpson coin, which is a PR65 without the Cameo designation, this GEM is a real prize and major rarity. If we can only find two examples sold in auction going back 24 years, that is VERY RARE indeed!

A gorgeous GEM example of the Barber/Longacre Indian Princess design. Struck in silver with a reeded edge, considered to be R-7+, with about 4-6 examples known.

Deep, bold mirrors have a blistering reflectivity that contrasts brilliantly against the razor sharp, frosted devices. Every detail is fully rendered and boldly impressed from an exacting, forceful blow from the dies.

PCGS 1, NGC 0, CAC 1. This is the FINEST CERTIFIED example at either service. If you are an advanced collector of patterns, this piece is a MUST! Bid liberally!

T\$1 1873 J-1294. PCGS PR66 CAM CAC

What a beautiful pattern! Barber's Liberty seated on a globe facing right, with wheat, plow and hay bale behind. Barber's standing eagle holds a Union shield with ribbon in his talons and a ribbon with E PLURIBUS UNUM in his beak. Struck in silver with a plain edge, this beautiful pattern trade dollar variety is rated R-7+ with fewer than 6 specimens known.

The mirrors are crisp and clean with only a few microscopic hairlines that can be seen on the icy smooth surfaces. In a light they reflect back and create a great contrast to the frosty devices. Like many patterns of the era, the design elements are generally well struck, with only minor weakness at the highest points in the centers of the design. The faintest touch of clear gold forms a subtle halo at the rims of both obverse and reverse.

Silver dollar coinage halted in 1873, with the advent of the heavier Trade dollars designed to compete with the Mexican silver that dominated trade in the Orient. A large number of proposed designs were submitted before settling on the adopted design. In this cataloger's opinion, this design is superior to the one that ended up being struck.

PCGS 1, NGC 0, CAC 1. This is the only CAMEO example graded by PCGS. There are two records for an NGC PR66, one was CAM and sold for \$21,150 and the Newman coin was not CAMEO, and sold for \$25,850. PCGS has graded only 2 others, a PR63 and a PR64. This one is likely FINEST KNOWN for the Judd number, and it is spectacular!

50C 1877 J-1514. PCGS PR66 DCAM CAC

What better provenance for a pattern to have than J. Hewitt Judd? Aside from that important provenance the eye appeal of this Morgan designed pattern half dollar is SUPERB in every way!

Morgan's Liberty head inside a beaded border, his spread eagle design on the reverse. Struck in silver with a reeded edge, this issue is rated R-7-, with perhaps as many as a dozen examples extant. This one is among the FINEST known examples, tied for second highest PCGS graded coin with a DCAM designation. Both sides are framed by an amber-orange gold with accents of cobalt-teal mixed in for a SUPERB visual effect. Dazzling silver mirrors beam from all over, offering a bold contrast to Morgan's frosted design elements.

In 1876, George Morgan came to the U.S. mint from England, and in 1877 he and Barber set to work to come up with a replacement for the long running Seated Liberty motif in use since 1839. A flood of patterns came out, making a collection of 1877 half dollar patterns a very cool specialty. If you were to take on such a project, this SUPERB GEM J-1514 would certainly be a cornerstone to your collection! The pedigree chain includes such early to mid 20th century luminaries as Waldo Newcomer, F.C.C. Boyd, and J. Hewitt Judd. Subsequently sold a few times since the 1980s.

PCGS 2, NGC 0, CAC 1. Nothing finer than PR65 DCAM has ever sold in auction. In the current grade, PCGS lists a value of \$42,500. The Garrett coin, last sold in 2011 was a non-CAM or DCAM PR66 that realized \$43,125 in August 2011. The Lohr-Cox-Champa-Queller/Lemus coin was NGC PR67* CAM with a very similar look, and sold for \$48,875 in January 2009. This coin's amazing look and pedigree should entice any serious pattern collector. We can see record bidding on this SUPERB GEM!

50C 1879 J-1597. PCGS PR67 CAM CAC

This R-6+ pattern, featuring Charles Barber's famed Wash Lady design, is among the most popular and desired types in all of the patterns listed in the Judd book. Barber presents Liberty's head facing left with her hair up in a pony tail, headband inscribed Liberty. IN GOD WE TRUST and 13 stars surround. The reverse has a perched eagle with olive branch and arrows, E PLURIBUS UNUM above.

Tied with just one other as FINEST graded in the CAMEO designation at PCGS. Indeed, only the PR67 DCAM in the Simpson Collection is finer. Superb, watery mirrors beam from below variegated cobalt, violet, and rose toning that evenly blankets both sides. Typical to the type the central portions of the design types are somewhat blunt in strike, showing some softness in the eagle's breast feathers. The eye appeal really is special, and this pattern issue

PCGS 2, NGC 0, CAC 1. The most recent J-1597 in CAM to sell in auction was the Queller-Lemus NGC PR66 CAM that sold for \$32,900 in May 2016. We sold a PCGS PR66 in February 2014 (Regency Auction VI) for \$30,550. As the finest available on the current market, and with new collectors coming into the pattern specialty, this coin could see a runaway price. Somehow, PCGS has come up with an estimate of \$45,000 for their Price Guide, but when this AMAZING SUPERB GEM crosses the block, that level may prove low! It may well be a very long time before another high grade example becomes available! Bid liberally here if you want to bring home one of the most beautiful of all pattern coinage designs that happens to be one of the finest examples in existence!

\$1 1879 J-1611. PCGS PR67 CAM CAC

A beautiful SUPERB Morgan dollar pattern, essentially a twin to the J-1615 we sold in our July 2017 Regency Auction.

Struck using a regular issue proof die for the 1879 dollar, paired with Morgan's large perched eagle design. Struck in Silver with a reeded edge, and rated R-7- with about a dozen or so pieces believed to survive.

Both sides of this impressive Premium Quality superb gem have an icy smooth, reflective mirrors that beam through lovely iridescent toning. Shades of gold, orange, teal, and blue blend on both sides, adding depth of character to the exceptional eye appeal. For the type the details are very sharply struck and frosty with bold contrast. The eye appeal is spectacular.

PCGS 1, NGC 0, CAC 1. It cannot be denied that this coin is among the absolute FINEST KNOWN examples. In April 2017, a non-CAMEO example brought \$30,550 and Collector's Universe does not yet have an estimate for CAMEO. The above mentioned J-1615 was graded PCGS PR67+ CAM CAC realized \$39,950. \$1 1879 J-1622. PCGS PR67 CAM

The SECOND FINEST J-1622 Goloid Pattern Dollar that exists, just behind the Bob Simpson PR68 CAM. Struck using George Morgan's rarely seen portrait of Liberty facing left. The reverse has the composition spelled out within a beaded circle inside a wreath of corn, wheat and cotton. Struck in the Goloid composition (89.58% silver, 0.42% gold, and 10% copper) with a reeded edge, the J-1622 is rated a low Rarity-7 (7-12 examples estimated).

Both sides are superbly reflective in the fields and the devices are razor sharp in terms of strike, the hair strands are fully and crisply brought out by the bold impression from the dies. Totally untoned, the fields and devices are free from all but the most minute of microscopic hairlines. The eye appeal is superb.

In his work on patterns, Andrew Pollock, enumerates 8 different provenance chains. This SUPERB GEM does not appear to plate match the Woodin-Newcomer-Boyd-Judd-Sieck coin.

PCGS 1, NGC 0. Only one coin, the one ensconced in the Bob Simpson Collection is graded finer! This coin will find itself in a great collection of pattern coins when it crosses the auction block; remember, this is the finest that will be available in the foreseeable future. \$1 1879 J-1629. PCGS PR67 CAC

A fantastic, SUPERB example of the smaller sized Goloid Metric dollar that is totally fresh to the market and VERY high end quality!

Featuring William Barber's Liberty head design on the obverse and the Goloid composition on the reverse, this pattern is rated R-7+ (fewer than half a dozen known) and is struck in aluminum with a Reeded Edge.

The technical qualities are all there and then some on this SUPERB GEM. The aluminum surfaces have a semi-lustrous reflective character in the fields. The devices are very well struck with full definition on both sides. Unlike many patterns struck in aluminum, this one lacks any distracting hairlines, corrosion, or any other post minting issues that usually plague coins in this composition. The eye appeal is quite high end. It is also fresh to the market, coming to us from a client who put it away years ago. It is ex. Lester Merkin's March 1968 Auction, lot 360. It is our great pleasure to offer this magnificent coin to the current generation of collectors.

PCGS 1, NGC 0, CAC 1. There are no recent auction records for a J-1629 in any grade. The most recent example to sell was the Tree Many Feathers coin in November 2001. The Garrett Coin, which is now graded PCGS PR69, is now in the Simpson Collection and will not be available anytime soon! A grand opportunity not to be missed by any advanced collector of patterns. It may well be a VERY long time until another comes up for sale!

S\$1 1880 J-1646. NGC PF67 RD

The finest graded example of this Metric Goloid dollar pattern. The obverse depicts William Barber's head of Liberty originally utilized on the 1877 Half Union \$50 patterns. The reverse has the composition spelled out inside of a cereal wreath. Struck in copper with a reeded edge, Judd has a rating of R-6, while Pollock lists it at R-7.

Rich watery mirrors beam through variegated shades of red. Rich mahogany, magenta, brick, and burnt orange hues accent the ultra smooth surfaces and well struck devices.

While the Stella \$4 gold pieces are the most famous attempt for an internationally accepted coinage, using a metric composition standard. The Goloid patterns are a part of that very interesting series.

PCGS 0, NGC 1. In the 2017 FUN auction, a PCGS PR67 RB realizing \$12,338 and a PCGS PR65 RB sold for \$11,168 in April 2017. 5C 1882 NGC J-1680. PF68 CAMEO

The FINEST J-1680 certified by either service! One of the many iterations of Barber's Liberty Head that would find itself on the regular nickel series the following year is surrounded by UNITED STATES OF AMERICA and 1882 on the obverse and the reverse has a large Roman V within a wreath of corn, wheat, and cotton, with E PLURIBUS UNUM in small letters at the top. Struck in nickel with a plain edge this is a low R-6.

Rich frosty reliefs are crisply struck and contrast nicely against the warm mirrored field. A light champagne hue dusts over the simply SUPERB and outstanding quality surfaces.

PCGS 0, NGC 1. As said, this is the FINEST graded by either service. The only "comparable" example was a PCGS PR67 CAM that sold in 2015 for \$7,050. This coin should exceed that level today. 25C (1965) J-2115. COPPER-NICKEL. PCGS MS66 CAC

A VERY RARE modern pattern. The mint created these Martha Washington dies to test new compositions beginning in 1965 (and they have been used in various other tests since, most notably in 1999 with the change over from the Susan B. Anthony dollar to the Sacagawea dollar). The obverse depicts Martha Washington facing right and the reverse shows a 3/4 view of Mount Vernon. Struck on a copper-nickel clad planchet as adopted in 1965 with a reeded edge, rarity unlisted in Judd, thought unique in Pollock. We conjecture that the rarity is R-7+. In the 10th Edition of the Judd reference Q. David Bowers writes: "Somewhat similar to the scenario of 1942, fantasy designs were prepared with no relation to current coinage motifs, in the present instance to avoid creating 'rarities' by using regular dies."

Full brilliant mint luster shines on both sides of this radiant premium GEM. The strike is bold with a very strong eye appeal.

When we think of important coinage milestones in American history, clearly the 1792-95 period, establishing the mint and the beginnings of our federal coinage stick out. Also the gold rushes and the introduction of the \$20, the Act of 1873 ending the coinage of silver dollars, Act of 1878 bringing back the silver dollar and the mountains of Morgan dollars that were struck. And of course even today the various actions in 1933-34 which took gold out of our economy is familiar to most collectors. What is often overlooked in modern numismatics is when, in the early 1960s, the silver price began to move up, making the use of silver for circulating coinage impractical. Judd lists a dozen different compositions that were tested using these dies. The listed composition for the J-2115 is 75% copper, 25% nickel. This coin was recently discovered in Europe by a sharp-eyed numismatist who purchased it (along with the J-2131 in the following lot) raw, and consigned them to us for this sale. PCGS had yet to certify ANY of the patterns J-2115 to J-2126. Two sets, each containing 3 dime, 3 quarter, and 3 half dollar sized patterns, encased in acrylic, were donated to the National Numismatic Collection at the Smithsonian, a few others are known, but mostly of the J-2116, which is still considered R-7+.

PCGS 1, NGC 0, CAC 1. This is the ONLY J-2115 graded by either service. Looking at auction records for J-21116, the values are all over the place, as they exist in grades from MS61 to MS65 (all NGC). The NGC MS65 sold in April 2008 for \$5,750 and in the 2006 ANA auction an MS63 sold for an astonishing \$25,300! We are certain that this GEM will entice any pattern collector!

ORIGINAL 1902 GOLD PROOF SET PCGS PR65-67 CAC

Legend Rare Coin Auctions is proud to present for your consideration a SUPERB GEM matched original 1902 Proof Set:

\$2.5 1902 PCGS PR65 CAC

Full deep mirrors beam from all over. The mirrors are clean and have good clarity. You can see the flash from a distance. Like on all the coins there is some super light original toning. The color matches all the others-a deeper yellow gold. Miss Liberty and the details are frosty and have crisp full strikes. A very eye appealing GEM.

193 Minted. PCGS 11, NGC 9, CAC 4.

\$5 1902 PCGS PR66 CAC

This coin is VERY high end. The deep and super flashy mirrors also can be seen everywhere. The mirrors do have remarkable clarity and cleanliness. There are NO spots or discolorations anywhere. This piece is gently toned like all the others-a deeper yellow gold color. Miss Liberty and every detail are needle sharp and have thicker frost. There is some contrast on this piece. The eye appeal is great!

162 Minted. PCGS 1, NGC 1, CAC 1.

\$10 1902 PCGS PR67 CAC

Not only is this coin more than worthy of being designated the FINEST 1902 Proof \$10 ever, it is more than worthy of its grade too! Incredible deep mirrors beam vividly from all over. The mirrors offer strong clarity, cleanliness, and of course bold flash.

The same light toning that is seen on the others is here too.

The color is also the same deep yellow. There are NO spots or discolorations. Miss Liberty and the details are frosty and are fully struck. There is some light contrast. The eye appeal is tremendous!

113 Minted. PCGS 1, NGC 3, CAC 1.

\$20 1902 PCGS PR65+ CAC

This \$20 isn't just the last coin in the set-it's the most high end and coveted of all! We grade the coin a full PR65+.9! Superior original deep mirrors powerfully beam from all over. The mirrors are incredibly clean, have strong clarity, and are highly reflective. The color of this GEM is the same as the others-deeper gold with a hint of light toning. There is some light contrast here too. Miss Liberty and every detail are fully struck and do exhibit light frost.

The eye appeal is incredible

ORIGINAL 1902 GOLD PROOF SET PCGS PR65-67 CAC

Of ALL the sets Legend Numismatics and Legend Rare Coin Auctions has ever owned or handled this by far is the greatest. Many years ago, we did own a complete 1891 Ultra Cameo set (which is now in Japan), that is the only set to come close. A matched original GOLD Proof set is rarer than ANY silver proof set (which we love as much as anything). You will see a very rare and occasional Cameo Proof set from the 90s, but this date-NEVER (along with most from 1901-1907)!

To know how special and different this set is-you need to understand how Proof coins AFTER 1901 come. They are typically soiled, have dull mirrors, and just do not look good. Each coin in this set on their own would be coins to die for! So having a totally MATCHED ORIGINAL SET is beyond comprehensible.

About the value, you can NOT even go by Collectors Universe as a semi guide. Since nothing similar has EVER traded, the values reflect nothing. Example, the \$10 PR67-Collectors Universe has only \$95,000. It is well agreed by our fellow dealers who handle Proof Gold that ANY PR67 \$10 is worth at least \$125,000-and we know of a few dealers who WILL happily pay that. In addition, there is a premium for the entire set (we figured it around 5-10%).

If you are a Proof Gold buyer, you will have noticed over the past 2 years, there has been almost NO proof gold offered ANYWHERE-especially PCGS CAC. ANY GEM Proof cool gold has been selling for "moon money" at auctions because so little of it appears.

As you know ANY matched original set is special to the Legend family. We want this set to be placed in a good home where it won't be broken up, messed with, or dipped out. This set we consider a numismatic treasure of a lifetime. You sure won't see any others-of ANY date! Good luck!

WELCOME TO THE CROW RIVER COLLECTION OF \$10 INDIANS

#2 ON THE PCGS REGISTRY FOR BASIC SET

Legend Rare Coin Auctions is proud and honored to present the fabulous Crow River Collection of \$10 Indians. This set has been many years in the making. The only coin missing in the set is a 1933. Every coin in the set is a minimum of GEM status.

The Crow River collector bought his very first coin (the \$10 1915S PCGS MS65 CAC) from us outside a June Long Beach Show around 2007. We bonded with him and agreed to help him build a great collection. Over 85% of his coins came from Legend. At times, he would grow very frustrated with the lack of \$10 Indians we were finding or were being offered in auctions. We're glad he was able to shift his energies elsewhere. He built the Northern Lights Collection of toners while waiting for \$10's to appear. As we all know, that was one of the greatest ever Morgan Toned sets ever yielding outrageous world record prices!

Every coin included in the Crow River Collection is of the highest quality and all pieces have superb eye appeal. Even his duplicates are superior to most coins in those grades. We can remember passing on many coins on his behalf. We enjoyed delivering him his coins as he would always whip out his huge hand held magnifying glass then smile. Dinners were fun as he'd always question us why we had not found him any new coins. We'll miss the thrill of the hunt with him.

Like so many other great collectors, the Crow River Collector will miss these coins as badly as his heart misses the Northern Lights Morgans. We've promised him his coins will be placed into great homes. This is not his final curtain call with coins. He is still working on a small specific collection. It's so in his blood that even with retirement looming, he wants to keep collecting!

Our sincere congratulations to our good friend for building yet another memorable quality collection.

\$10 1907 WIRE RIM. PCGS MS66 CAC CROW RIVER

What an amazing coin to start off this wonderful GEM set of \$10 Indians. We very much consider this coin HIGH END.

Exquisite surfaces are virtually perfect! Even if you use a strong glass the worst you can find is a tiny scuff/frost break at the lower left obverse. We can't stress enough how clean and smooth the surfaces are. A strong luster beams from all over. Both sides are a gorgeous and totally original yellow gold color. There are NO spots or discolorations. Miss Liberty and the details are frosty and are fully struck. The eye appeal is like the coin, sensational!

The Wire Edge is a one year type coin, a prototype for what was to become the Indian Head eagle. Like the double eagle that Augustus St. Gaudens designed, the original design called for a high relief. While technically a pattern, enough were struck (500) that they are considered an integral piece in a complete set of \$10 Indians.

PCGS 16, NGC 20, CAC 6. This coin last sold in September 2014 where it realized \$129,250. Keep in mind, we really do rank this coin as MS66+, just PCGS has not agreed so far. We sold a PCGS MS67 CAC (the only MS67 beanned) for just over \$400,000 this year! If you seek a superb Wire Rim and are ultra-picky, this is the coin you want! Good luck as we expect strong bidding here!

This coin is the real deal MS67!

Extraordinary surfaces cannot be any more pristine. When we examined this coin with a strong glass all we could find are a few scattered and MICROSCOPIC frost breaks. We mean it when we say clean. A strong luster beams from all over. Both sides are a gorgeous original and even gold color. There are NO discolorations or stains. Miss Liberty and the details are fully struck and do standout. The eye appeal is really dreamy!

PCGS 9, NGC 29, CAC 5. NO PCGS CAC piece has ever been sold via auction. The published numbers are all wrong as we have never seen a PCGS CAC piece sell for below \$70,000.00.

The only coins that do sell for under \$70,000 are the lesser quality NON-CAC pieces. Take our word on it, the majority of NON CAC pieces do have issues and are nowhere near the quality of this piece. This coin will be a star in \$10 Indian or Type set!

This piece is an outstanding work of art! And it is HIGH END too!

Remarkable surfaces are extremely clean and have a thick satiny smooth texture. Only using a powerful glass can you detect a microscopic ticks and frost breaks. NONE are visible to the naked eye. A strong luster beams from all over and makes the colors stand out. Totally original shades of orange gold/yellow gold magnificently swirl all over. Miss Liberty and the details are slightly frosty and are fully struck. Mother Nature and the US Mint teamed up to create a real masterpiece here!

PCGS 8, NGC 14, CAC 5. The last PCGS CAC piece to sell in auction brought only \$35,250 back in February 2014. Since then a few "lesser" quality MS66's have traded (no beans of course) for much less. For Legend Numismatics to include a coin in any major set they build (like Crow River) it has to be special. Of course, this 08-D is VERY special and very high end!

We'll be blunt, the reverse has a few TINY ticks that keep this coin from a MS66 designation. The obverse is a full MS66 in our opinion. Overall, both sides appear clean and satiny smooth. A full shining luster beams from all over on both sides enlivening a rich pale orange gold color. There are NO discolorations or spots anywhere. Miss Liberty and the details are lightly frosted and are fully struck. The eye appeal is wonderful!

PCGS 3, NGC 10, CAC 2. This is the ONLY MS65+ at PCGS.

The last auction record for this coin was in February 2013 where it sold for \$55,813. The last MS66 to sell in auction was a NON-CAC which brought \$82,250 in August 2013. We estimate a PCGS/CAC (pop 2) piece to be worth very close to \$100,000 today. We can NOT stress enough how RARE and UNDER valued this date is in real GEM. Opportunity knocks loud here for ANY serious \$10 enthusiast.

We were surprised when CAC did not bean this coin--they called it a near miss--and we fully agree. We believe a small die chip on the face is all that is keeping it from a bean. So for us, it is an opinion issue vs. a doctoring issue.

Overall, the surfaces are clean and smooth. However using a strong glass you can detect a small scrape and tick or two. Again, you need to use a glass to see these microscopic ticks. A full booming luster enlivens both sides vividly, giving life to a superb mix of totally orange orange/deep gold colors swirl all over (a peacock in heat would blush at the colors!). There are NO spots or discolorations. Miss Liberty and the details are frosty and are fully struck. The eye appeal is gorgeous!

PCGS 6, NGC 4. There are only 3 coins finer. The last 08-D Motto in PCGS MS66 to sell in auction brought \$39,950 in April 2017. That is a relatively lower price since the current Collector's Universe value is \$47,500. As it did in the Crow River Collection, this coin will be an excellent fit to ANY GEM \$10 Set!

A magnificent SUPERB GEM in every respect! This coin is on fire!

Outstanding surfaces reveal only a tiny tick or two only under strong magnification. An intense headlight type luster enhances everything all over. Both sides are a totally original fiery orange gold color. The copper toning dots prove the originality, otherwise there are NO flecks or discolorations. Miss Liberty and every detail are frosty and are fully struck. The eye appeal is magnificent!

PCGS 11, NGC 4, CAC 7. PCGS has only graded 2 in MS66+. The last one to sell brought only \$35,251 in October 2015. Get this, the last PCGS MS66 (NO CAC) that was back in 2004! As you can see, this date and grade is not as common as the pop reports make you think. Even the in MS67, there have been NO auction appearances since 2007. These are legit rarities in SUPERB GEM!

This is a VERY HIGH-END GEM. We think the satiny luster not being so strong is what holds it back from a 66 designation,

Remarkably clean and satiny smooth surfaces appear flawless to the naked eye; even using a strong glass we only found one tiny tick. This coin really is that clean. A softer satiny luster shines all over and this really is NOT a dull or drab coin. Both sides enjoy a totally original and even deeper yellow gold color. There are no spots or discolorations. Miss Liberty and the details are fully struck and do standout. The eye appeal is great!

PCGS 17, NGC 23, CAC 5. The last PCGS/CAC piece to sell in auction brought \$19,975 in August 2016. Of course, PCGS made the Collectors Universe value \$19,500; it is our opinion that after 30+ years of grading with only 17 graded (5 of which are CAC) that real GEM MS65 should be worth more. No matter what the price, this coin will make a great addition to any GEM set.

Good luck!

We've seen many examples of this date that are horribly hacked up. This coin is way above average-even though, for whatever reason CAC did not bean it.

Outstanding satiny surfaces are as smooth as a baby's behind and are that clean; even using a strong glass, we could not find ANY ticks or even decent size frost breaks anywhere. We will note there is a tiny tick hidden in the Eagle on the reverse. A full luster beams boldly from all over and both sides are bathed in a mix of pale orange/pale pink/yellow gold colors. Miss Liberty and the details are frosted and are pinpoint sharp in strike and stand out boldly. The eye appeal is great!

The texture of the surfaces is satiny smooth. A full booming luster makes this coin visible from outer space! Really! Both sides are bathed in an outrageous and totally original mix of neon-like orange/deep yellow/pale pinkish gold colors. When you twirl this coin all you see are flaming orange colors. \$10 1932 PCGS MS66+ CAC CROW RIVER

Hands down, we declare this masterpiece one of the prettiest 1932 \$1 Indians that exists. We would happily challenge its quality vs the lone NON-CAC PCGS MS67.

Killer surfaces are exceedingly clean, satiny, and smooth. Using a strong glass, you will find only 2-3 tiny old ticks that are well hidden (vs how hacked up this date typically comes). A full booming luster makes the coin visible from across the room.

Incredible and totally original flaming colors of yellow gold/orange gold swirl wildly all over. Miss Liberty and the details are fully struck and stand out. The outrageous eye appeal is better than any other 1932 you will ever see!

PCGS 111, NGC 153, CAC 31. PCGS has graded 16 in MS66+ and only one coin an MS67 (NO CAC). The last MS66+ that sold in a major auction brought \$15,275 in February 2017. We expect this wonder GEM to realize much more than that! get ready, this is a really killer 1932 \$10!

CROW RIVER**

What? This is a duplicate? This coin is the ultimate in GEM quality and GEM eye appeal!

Out of this world surfaces are just tremendous. They are the ultimate in perfection-not just cleanliness! Even using a strong glass all you can find is a pin point tick. The texture is thick and satiny. There actually traces of light prooflike mirrors. The luster is as intense as a ray from the sun--WOW-you almost need Ray bans in which to view this coin (we are not kidding). A wild and totally original color scheme would make Picasso roll over. Neon like shades of yellow/pinkish/orange gold all wildly mix together all over. There are NO spots or discolorations. Miss Liberty and the details are so fully struck and frosty they look like they were chiseled from a frosty block of gold. The eye appeal is heart pounding!

PCGS 110, NGC 162, CAC 59. The last PCGS CAC piece to sell brought \$16,450 back in January 2015. We know that coin had nowhere near the eye appeal this monster has! If you seek a perfect coin for a \$10 Indian or major Type set, check this piece out! We doubt any image can do this piece justice. Hard to believe it was a duplicate replaced by something better.

Everything about this GEM is fabulous!

We fully agree this coin is a solid MS65 every day. Only with a strong glass can you find a tick or two and frost break or two. Nothing stands out to the naked eye save for a small obverse planchet chip. A strong luster illuminates the pretty and original colors. Both sides are an even shade of yellow gold. There are no spots or discolorations. Miss Liberty and the details are of course sharply struck. The eye appeal is superb!

PCGS 63, NGC 85, CAC 19. The last CAC coin to sell in auction was an NGC piece. It brought \$9,400 in a November 2014 auction. This is yet another date that does NOT appear in any frequency. Keep in mind, this was the original coin in the Crow River Collection-not too shabby!

This coin is dear to our sister company, Legend Numismatics. They loved it so much, they had still placed it in the Crow River Collection even though it did not CAC. The coin is phenomenal!

Absolute incredible surfaces re sleek yet satiny. There is not a mark to be found without a glass-and even then there are hardly any. Only one tiny patch if irregular color is what kept the coin from a CAC bean. If we did not tell you that, you never would have noticed. Legend is in total disagreement about not beaning it. Regardless, all the other qualities are killers! The luster is really strong and glowing. Both sides have a mix of gold/yellow gold/pale rose gold colors. Only under a strong glass can you see a pinpoint copper stain or two-which show originality. Miss Liberty and the details are fully struck. The eye appeal is gorgeous!

PCGS 8, NGC 9. The last NON-CAC to sell brought only \$17,625 in June 2014. We assure you, this coin blows that one away! We do value this coin close to what a CAC could be worth-as we think it should have been. We suggest you or your agent check this coin out in person. Its really sweet!

This is a great coin with one of the all-time great pedigrees for 20th Century gold-Duckor. The quality is all there and then some!

Fantastic surfaces reveal no problems-only a tiny frost break or two. Even using a strong glass there no problems to be found. The only mark-a small tick (not a whack) on the cheek (and we mean tiny). A full glowing luster beams from all over. Both sides are a beautiful gold/orange gold coloration. There are NO spots or discolorations. Miss Liberty and every detail are fully struck and stand out. The eye appeal is tremendous!

PCGS 18, NGC 30, CAC 6. hard to believe, NO PCGS CAC MS 66 1926 has ever been sold in auction. This particular coin last sold in 2006 for \$19,200. We can't see it really being worth less than that. G\$1 1853-D PCGS MS62+

Extremely RARE in mint state, this MS62+ is among the top ten or so coins graded by PCGS for this date.

Well struck devices are atypical for the date. Pleasing, original golden luster blooms on both sides. The surfaces show a few little ticks which account for the assigned grade. With so few mint state pieces, if you are building a collection of southern mint gold dollars, or specialize in D-mint gold, you will not find many with this coin's lovely eye appeal.

PCGS 1, NGC 0. The most recent PCGS MS62 sold in the 2016 ANA Auction for \$11,750 and in June 2015 a PCGS MS63 sold for \$17,038. The current PCGS Price Guide value is listed at \$17,000 and with only five in MS63 and 3 in MS65 finer this one is in the condition census and should appeal to anyone interested in southern gold.

\$2.50 1839-D PCGS XF45 CAC

A totally original and VERY pleasing example of this very tough early D-mint \$2.50. Rich honey gold color is amplified by a bold satin luster. The obverse is very well struck with full definition in Liberty's hair curls, dentils, and other portions of the obverse design. The reverse shows some slight weakness in the central eagle details. A very scarce early southern branch mint issue that saw a mintage of 13,674. These do not appear very often, and perhaps 200 examples survive today, most in the VF to XF. This fully GEM XF example displays a better than normally encountered eye appeal--nicer than normally seen.

PCGS 34, NGC 18, CAC 6. The only CAC-approved XF45 to ever sell in auction was an NGC coin that sold in the 2014 FUN auction for \$8,813 and the last PCGS-graded coin to sell was back in 2010--seven years ago! Clearly they are not as common as the populations might have you think!

LOT 481

\$2.5 1848 CAL. PCGS AU50

An incredibly historic and important coin, a classic in the annals of American numismatics. After gold was discovered in the America River in California in 1848 near Sutter's Mill, 228 ounces were sent back to east in December of that year by the military governor, Col. R.B. Mason, directed to the Secretary of War, William Marcy. The gold was to be used to strike gold medals for General Zachary Taylor and General Winfield Scott--any remaining metal was to be used to strike quarter eagles, with "CAL." stamped in the field to recognize the historical significance of the source of the gold, resulting in a mintage of 1,389 pieces. The gold rush that ensued created one of the largest mass migrations in history, and changed the course of not just American history, but also world history.

Like many of the CAL. \$2.50s, the surfaces show a semi-prooflike reflection, which can still be seen despite the light wear. Pleasing orange gold coloration accents the nicely struck up devices. We do note a few tiny marks, totally acceptable for the assigned grade. Housed in an old green tag holder.

PCGS 11, NGC 5. There has not been an example of this rarity sold in auction since June 2011. The current PCGS value is listed at \$51,500. Owning an example of this VERY RARE issue is a goal for many collectors, but they just do not appear with enough frequency for most collectors to even see one, let alone being able to bid on and own one! Hard to believe, but after 30+ years of operations, this piece is the second finest known! It does have real MS65+ quality (we actually rank the coin a MS65.9+).

Superior surfaces glow with a booming luster all over. The surfaces look thick and satiny, but slightly semi-prooflike. You can clearly see the light mirrors. Flashy, semi-reflective luster catches the light of this first year of John Reich's Capped Bust \$5, which replaced Robert Scot's "Draped" bust design that was used from 1795 to 1807. This essentially CHOICE coin shows light ticks and marks but is fully uncirculated and truly un molested. The strike is sharp, Ms. Liberty, the eagle, and all the star and dentil details are boldly impressed. The color is exceptional.

PCGS 51, NGC 43, CAC 9. Here is another coin that the Population data explains how these generally come, not nice or original. There also may be some duplication in attempts at receiving a 62+ or 63 grade. This lovely coin sold for \$19,975 in our September 2016 Regency Auction, the same price as another example that sold in the 2017 FUN auction. This coin's overall look is stronger than that one.

PCGS 10, NGC 40. A very under rated date, as are many Philadelphia mint \$5s from the 1840s. David Akers noted that "this date is available only in VF or EF condition." The most recent PCGS coin to sell brought \$2,000 in the weak 2016 FUN auction.

Before that, one sold in 2011 for \$2,530. It is especially telling that Ed Milas, who formed one of the all-time greatest collection of No Motto half eagles, only had a MS61.

Close inspection with a glass does reveal light contact marks, but nothing that individually mars the eye appeal. A great coin to represent the Charlotte mint in a mintmark set, thanks to a 72,574 mintage, and a small hoard of Mint State coins found in the 1980s.

PCGS 11, NGC 10. There has not been one sold in auction since June 2014, realizing \$6,463. Before that, the last one sold in 2006! Clearly they do not appear at auction with ANY frequency! All Carson City half eagles are very scarce, the 1874-CC being particularly so in AU and better grades (although it is the most commonly encountered date from 1870-1878. This wonderful AU50 is incredibly lustrous for a coin that saw this much friction on the surfaces. The bright golden surfaces do show some richer orange accents in the protected areas of the well struck devices. A scattering of ancient ticks from old west commerce are noted for accuracy, but DO NOT detract from the overall delightful eye appeal. The original mintage of 21,198 half eagles were released into circulation where they would remain for many years. Dave Akers noted that the typical example found in his survey was a VF.

We are most impressed with the coin's cleanliness. Even the dreaded right reverse field is clean and smooth (that is really rare). Overall, there are just a few hidden light ticks to find. A surprisingly strong luster enhances the beautiful original glowing gold colors. There are NO spots or discolorations. This coin has not been messed with in any way. This is the second finest example of this date and Mint graded by PCGS, just missing the top honors by a half a grade point at MS64. Radiant Mint luster dances across the obverse and reverse, and the strike is bold and complete. Although most Philadelphia Mint issues with a decent number struck are widely available in Mint State, this is not at all the case here, where limited numbers exist, and most are in lower grades like MS61 or MS62. This example stands tall as MS63+! Struck in rich greenish gold with a dash of orange. The surfaces are an absolute delight to study, with satin smooth luster on Liberty's cheek and no distracting nicks or cuts. While not quite as rare as the 1848 or 1852 issue, the 1856 still deserves hard won respect for its rarity at this grade level. An important offering for the specialist!

\$10 1907 INDIAN. NGC MS65

A very attractive, exceptionally well struck and totally original GEM No Motto 1907 \$10 Indian. Smooth satiny luster glows around the sharp devices and provides a back-lighting for the rich orange gold coloration. The eye appeal is bold and pleasing.

PCGS 238, NGC 316. The last NGC example to sell in auction realized \$5,463 in July 2017. Popular as the first year issue for the series, gems are particularly in high demand from collectors.

PCGS #8852 | EST: \$5,500+

LOT 504

\$10 1908-D NO MOTTO. PCGS MS64 CAC

A VERY high-end coin. It's a myth this date comes nice.

Superior surfaces are pretty clean and smooth. The texture is a thick satiny type. Only when using a strong glass will you find alight frost break on the obverse and a few scattered tiny ticks on the reverse. Nothing is visible to the naked eye. A strong glowing luster fires up the original colors on both sides. Deeper shades of orange gold glow all over. There are NO spots or discolorations.

Miss Liberty and every detail are sharply struck and do stand out. The eye appeal is neat!

PCGS 56, NGC 30, CAC 10. The last PCGS MS64 CAC one to sell in auction brought \$21,150 in February 2014. Do not let the populations fool you. These are tough coins! We assure you, no matter how picky you are, this coin will more then please you-and be a great fit into ANY GEM \$10 Indian Collection.

PCGS #8854 | EST: \$17,500+

LOT 505

\$10 1908 MOTTO. PCGS MS64+ CAC
A no question SUPER HIGH END piece.

Superb and satiny smooth surfaces are all over. Even using a strong glass there are no serious imperfections to be found. The surfaces look like and original skin. There is a tiny copper stain on the reverse-proving this coin to be fully original. A moderate luster (typical) glows on both sides. Every detail is sharply struck and stands out. The eye appeal is excellent!

PCGS 276, NGC 184, CAC 43. PCGS has graded 11 in MS64+. The last PCGS CAC piece to sell in auction brought \$7,637 in January 2014-- 3 years is a long time! We seldom see these offered, which leads us to believe the pops are mis-stated. A perfect coin for any choice set!

PCGS #8859 | EST: \$4,500+

OUR ESTIMATES

The estimates you see published in this catalog are just that: estimates. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so collectors can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 506

\$10 1912 PCGS MS66 CAC

Truly a beautiful example—fully GEM 1912 with a bold radiant luster that shines over gorgeous two-tone gold surfaces. The details are crisply defined and sharply embossed. The luster is full and complete is totally eye appealing. A tiny number of little ticks are mostly hidden and do not take away from the overall eye appeal of this stunning beauty! While the mintage of 405,000 allowed for ample survivors for collectors to be able to acquire an example, in GEM and finer grades, so few exist, making it very difficult to find one if you demand a high grade example for your collection.

PCGS 10, NGC 11, CAC 5. There are a mere 3 pieces that have graded higher at PCGS, 1 in MS66+ and two in MS67. The 66+ is a featured coin in the Crow River Collection, offered earlier in this sale. The most recent MS66 to sell was the Bentley Shores Collection coin sold in the 2013 ANA auction, realizing \$23,500. That coin was NOT CAC-approved, and we think that this coin will certainly see very serious bidding activity. If you missed out on the Crow River coin, here is a very rare and important opportunity for the advanced 20th Century gold collector!

PCGS #8871 | EST: \$23,000+

LOT 507

\$10 1914-S PCGS MS66

Legend Rare Coin Auctions is honored to have been consigned the FINEST 1914-S \$10 that exists after 35+ years of grading by PCGS. Typically, this date comes rough and dullish. This coin is the total opposite. The surfaces are exceedingly clean and have a satiny smooth texture. Even when using a strong glass all you can find are a few microscopic contact ticks hidden on the face. A full headlight type booming luster shows off the deeper orange color. There are no spots or discolorations. Miss Liberty and the details are exceptionally well struck. If the date did not say 1914 and have an S on the back you'd think this coin was a commoner 1911 that comes nice. The eye appeal is fantastic!

PCGS 1, NGC 0. This coin last sold for \$161,000 back in 2007. Still in its original holder, this coin has been off the market with the same buyer ever since. It is VERY IMPORTANT to note: prior to 2007, this coin last sold for \$253,000 in June 2006. As you can see, it's been 10 years and no similar coins have surfaced. If you are building one of the finest \$10 Indian sets, this coin is a "must have". We think the coin's reserve is more than reasonable.

PCGS #8877 | EST: \$140,000+

LOT 508

\$20 1851 PCGS AU58+ CAC

A marvelous, totally original super slider. Rich orange-gold with vivid honey-amber accents. Only the slightest hint of high point friction keeps this coin from a full Mint State designation. Typical of a large gold coin there are a few tiny ticks, but the eye appeal is SUPERB for an early Type I twenty!

PCGS 62, NGC 182, CAC 30. There are TWO coin graded AU58+ at PCGS, and neither have sold in auction. There is an APR for an NGC coin, not CAC approved for \$5,288 back in October 2012 and the current PCGS Price Guide value is listed at \$5,950. Bound for an "Everyman" set or just a neat collection of totally original double eagles.

PCGS #8904 | EST: \$5,000+

LOT 509

\$20 1857-S NGC MS65

A marvelous GEM that likely came from the recovery of the wreck of the S.S. Central America. Glowing mint bloom brings out the brilliant two tone golden hues. The devices are sharply struck. A few tiny marks and ticks are seen under very close scrutiny, but do not detract from the overall eye appeal of this wonderful GEM.

The history of the S.S. Central America is one of great loss, then recovery. The ship went down carrying millions of dollars in freshly minted gold coins, mostly 1857-S double eagles.

PCGS 40, NGC 124. The most recent examples to sell have realized \$10,575 and the PCGS Price Guide value is listed at \$14,000. Thanks to the S.S. Central America, this date is readily available in GEM making it a perfect example for a type set.

PCGS #8922 | EST: \$9,000+

LOT 510

\$20 1865-S PCGS MS63 EX BROTHER JONATHAN #679

As a general rule, Type 1 double eagles are rare in Mint State, but thanks to three very famous shipwrecks, the S.S. Central America, S.S. Brother Jonathan, and S.S. Republic, there are certain dates that are available. This very choice and attractive 65-S \$20 is from the Brother Jonathan, which sank off the coast of California in 1865, carrying a load of freshly minted \$20s. Some 1,200 coins were found in the wreck, including around 600 mint state 1865-S \$20s.

A warm golden-orange glow is enlivened by a satiny mint frost. The devices are well struck and despite 120+ years under the water, the surfaces are of AMAZING quality. The original treasure was auctioned by Bowers & Merena in May 1999, where this coin was sold as lot 644.

PCGS 173, NGC 60. Coins from the Brother Jonathan generally bring between \$14,000 and \$17,000, but don't let these pops fool you, most of these are impounded in collections. What a great opportunity to add this really neat shipwreck coin to your collection.

PCGS #8944 | EST: \$15,000+

LOT 511

\$20 1876-CC PCGS XF45 CAC

A lovely borderline mint state coin. Well struck and very frosty the eye appeal of this scarce Type 2 double eagle is superb and totally original.

PCGS 151, NGC 296, CAC 24. According to our auction prices database, only one PCGS/CAC coin has ever sold in auction, realizing a weak \$3,290 in a February 2017 auction. Since that time, gold prices have inched upward. The current PCGS Price Guide lists a value of \$4,000 and keep in mind a bagmarked MS60 costs well over \$5,000.

PCGS #8959 | EST: \$3,000+

LOT 512

\$20 1876-CC PCGS XF45 CAC

The final Type II Carson City \$20, and this pleasingly original coin shows just honest wear from its stay in wild west commerce. Hints of luster cling to the protected areas and the surfaces show no signs of cleaning or conservation, with a wonderful "dirty, crusty" look.

PCGS 373, NGC 317, CAC 29. Four PCGS/CAC coins have sold in auction going back to 2012, all selling in the \$3,450-\$3,760 range, the current PCGS value lists \$4,000. This totally original coin should appeal to so many collectors looking for an unmolested CC \$20.

PCGS #8977 | EST: \$3,000+

1884

LOT 513

\$20 1884-CC PCGS AU55 CAC

Light friction is noted only on the highest of points of the design, otherwise this popular Carson City double eagle is nice and lustrous, well struck and eye appealing. A light golden luster swirls on both sides.

PCGS 177, NGC 329, CAC 48. The two most recent PCGS/CAC coins sold for \$5,405, and before that one sold for \$6,364 and prior to those selling an NGC/CAC coin sold for 5,640. The current CU value is listed at \$6,750.

PCGS #9001 | EST: \$4,700+

LOT 514

\$20 1884-CC NGC MS61+

A lustrous Mint State Carson City double eagle that has very pleasing satiny frost beams on both sides. Sharply struck devices display full frosty details on Liberty's portrait. A few teeny ticks are noted, but they are hidden and appropriate for the assigned grade.

PCGS 149, NGC 156. This is one of only 2 NGC MS61+ graded.

An NGC MS61 CAC sold in February 2017 for \$14,100 and a non-CAC NGC MS62 sold for \$18,800 in January 2017. This coin was removed from a PCGS MS62 holder and the consignor gave up trying to get it back in. His loss could be your gain. This coin really does have a good look and will fit in nicely in any high grade set of Liberty double eagles. Good luck!

PCGS #9001 | EST: \$12,500+

LOT 515

\$20 1906 PCGS MS65 CAC

An ULTRA HIGH END '06 \$20--vastly superior to most MS65s we have seen. Indeed, better than most 65s we see of ANY date!

The surfaces are exceptionally clean and devoid of any marks, lines, or ticks of any size. The velvety surfaces show off a dramatic luster that brings out a totally ORIGINAL rich, orange-gold patina. The well struck devices are extremely frosty.

The eye appeal is beyond reproach and impeccable!

PCGS 5, NGC 4, CAC 2. This was the most recent example to sell in auction, realizing \$32,200 in our Regency IV Auction, July 2013, lot 321. There has not been an MS65 sold since then. Only 2 coins are graded finer, both MS66. We are honored that we have the privilege of re-offering this AMAZING \$20 again! We anticipate VERY strong bidding when it crosses the block, and we know it will end up in a wonderful collection of double eagles.

A very important opportunity not to be missed!

PCGS #9049 | EST: \$28,000+

LOT 516

50C 1936 ALBANY. PCGS MS67 CAC

A superb Albany. Satiny lustrous surfaces bloom from below rich, original, autumnal orange, gold, and auburn hues. Wonderfully preserved with mark free fields and devices. The resplendent eye appeal will certainly attract strong bidding from Commemorative collectors.

PCGS 182, NGC 144, CAC 76. Clearly there is some duplication in the population reports. Only 24 coins are graded finer at PCGS. The CU value is listed at \$775 and the most recent example to sell realized \$881 in a June 2017 auction. This one should bring a strong price.

PCGS #9227 | EST: \$800+

LOT 518

50C 1936-D ARKANSAS. PCGS MS67+ CAC

This gorgeous, SUPERB GEM is bested by only a SINGLE coin. The surfaces are ultra smooth and free of any marks, lines, or ticks. A bold satin frost glows on both sides, bringing life to the pleasing color around the rim. Every detail is exceptionally well struck. The eye appeal of this coin is unimprovable and it amazes us that PCGS has one coin finer on their population report.

PCGS 13, NGC 8, CAC 6. There are but 3 coins in PCGS MS67+, and there are none in + at NGC. The MS68 has not sold in auction since 2004, when it sold for \$29,900 as part of the JFS Collection. The current PCGS Price Guide value is listed at \$9,500. We know the advanced collectors of classic commemoratives will battle it out to own this beauty! Good luck!

LOT 517

50C 1937 ANTIETAM. PCGS MS67 CAC

An amazingly toned, SUPERB GEM Antietam. Displaying a classic tab toning pattern imparted a lovely reddish gold, violet, sky blue, emerald, and lemon-yellow hues frame the lustrous silver centers. Both sides are fully struck up and the eye appeal cannot be beaten!

PCGS 348, NGC 185, CAC 126. We cannot find a similar example to sell in auction recently. Worthy of a very strong bid, so just throw away your price guides. We can see this coin selling for a record price for the grade!

PCGS #9229 | EST: \$2,000+

PCGS #9250 | EST: \$8,500+

LOT 519

50C 1936-S BAYBRIDGE. PCGS MS66 CAC

Offered is the 76th Bay Bridge half struck, and offered with OFFICIAL documentation from the San Francisco Mint--a certificate on Mint letterhead noting it was struck on November 4, 1936 and signed by the Superintendent of the Mint.

The coin itself has a soft satiny luster under a layer of dove and russet-tan patina, imparted from unmolested storage in the accompanying manila envelope. Well struck devices are accented by the patina and luster.

PCGS 931, NGC 592, CAC 190. Forget the populations and auction data, this coin, certified as one of the first 100 examples struck with the surviving documentation is a major rarity. Beautifully preserved, and a real prize for the advanced collector.
Good luck!

PCGS #9254 | EST: \$6,000+

LOT 520

50C 1935-S BOONE. PCGS MS67+ CAC

A beautifully toned and exceptionally lustrous Boone half! One of the lower mintages in the series, with only 5,005 struck. Rich gold, olive, orange, and tan toning has a dappled look on both sides, imparting a wonderful eye appeal. Not only is the eye appeal SUPERB, but this coin is among the four FINEST graded examples and it is no question as to why!

PCGS 37, NGC 37, CAC 17. PCGS and NGC has each graded only 3 in MS67+, and each has a sole MS68 as finest graded. This does NOT appear to be the example that sold in March this year for \$5,640. Keep in mind the PCGS MS68 has never sold in auction, giving this SUPERB GEM the honors of being the finest available on the market. We expect a strong bid from commem specialists when this beauty crosses the auction block!

PCGS #9260 | EST: \$3,500+

LOT 521

50C 1936-D BOONE. NGC MS67+ CAC

The sole finest NGC-graded 36-D Boone and its visual allure is superb! Sharply struck and lustrous, this coin has a very pretty toning on both sides. Only 5,005 were struck.

PCGS 42, NGC 14, CAC 17. Only two PCGS coins have sold in auction, and neither had the eye appeal of the presently offered SUPERB GEM. Bound for the finest cabinets of classic commemorative half dollars.

PCGS #9267 | EST: \$1,800+

LOT 522

50C 1925-S CALIFORNIA. PCGS MS66 CAC

A superbly toned and brilliantly lustrous GEM. Very sharply struck devices on both sides are accented by the wonderful color and luster. The eye appeal is great!

PCGS 418, NGC 420, CAC 144. This colorful GEM is worthy of a premium bid and we expect strong bidding.

PCGS #9281 | EST: \$1,000+

LOT 523

50C 1936 CLEVELAND. PCGS MS66 CAC

Offered here is an important Cleveland half dollar, the 16th coin struck, and this lot includes the original cardboard coin holder, and a letter addressed to Judge Jos. F. Sawicki, dated July 27, 1936 from the Cleveland Centennial Commemorative Coin Association, certifying it as #16 of the first 200 coins, struck at the Philadelphia mint.

A frosty mint bloom can be seen on both sides, and the reverse is deeply tones in rich autumnal hues.

PCGS 699, NGC 504, CAC 184. A very cool piece of commemorative Americana, making this Cleveland half a unique piece of history. Beautifully preserved, and a real prize for the advanced collector of classic commemorative half dollars.
Good luck!

PCGS #9288 | EST: \$7,000+

LOT 524

50C 1892 COLUMBIAN. PCGS MS67+ CAC

The presently offered Columbian Expo half dollar is among the FINEST graded examples at PCGS and a wonderful SUPERB survivor of the original mintage of 950,000 pieces.

A rich luster glows from below a layer of deep toning surrounding nicely struck devices. The surfaces are generally smooth, as expected for this exceptionally high grade. We do note only a single mark, which is hidden among Columbus's locks. The eye appeal is totally original and generally high end.

PCGS 40, NGC 49, CAC 36. Only 9 are graded MS67+, and one is finer at PCGS. Only two examples have ever sold, the Bruce Scher coin that sold for \$35,250 in the 2013 ANA Auction, and this one, which sold for \$8,813 in the 2017 FUN auction, and the current PCGS Price Guide value is listed at \$20,000. This superb GEM should sell for a premium bid to someone building a top ranking commemorative set.

PCGS #9296 | EST: \$10,000+

LOT 525

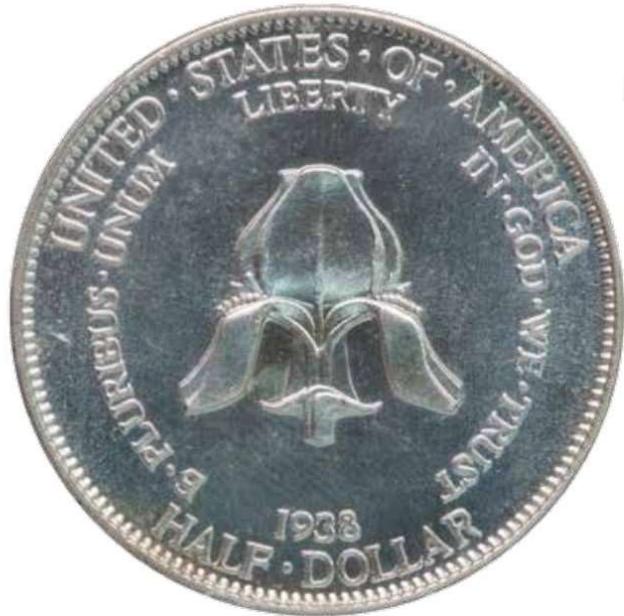

50C 1938 NEW ROCHELLE. PCGS SP67+ CAC

A very rare variant to the New Rochelle half dollar. During the production run, mint employees struck 50 examples on polished planchets after polishing the dies. What keeps them from being full PROOFS, is that each coin was struck only once, rather than two or more times as required for striking proofs. As expected for the 67 grade level, this coin has no hairlines, ticks, marks or carbon spotting. The strike is full and the fields are fully reflective and prooflike and display rich mirrors. The eye appeal is superb!

PCGS 9, NGC 4, CAC 9. Only 2 are graded SP67+ and there is only one SP68 finer. We sold a PCGS SP67 without CAC sticker in our September 2016 Regency Auction for \$17,625. The current PCGS Price Guide value is listed at \$20,000. While overall, the classic commemorative market has shown softness in the last few years, Specimen and Proof strikings have done well and are interesting pieces for the advanced, specialist collectors.

Opportunity knocks loudly here.

PCGS #99335 | EST: \$14,000+

LOT 527

50C 1937-D OREGON. PCGS MS67 CAC

A well struck, colorfully toned, lustrous SUPERB GEM. The well preserved surfaces are clean and free of any distracting lines or marks, and the obverse toning accentuates the crisply struck devices.

PCGS 686, NGC 532, CAC 309. It is highly likely these population reports represent much duplication. We matched this coin to the 2011 ANA auction, where it sold for \$1,150; a strong price realized due to the stunning visual allure. No doubt it will grace a very high end cabinet of beautifully toned commems.

PCGS #9347 | EST: \$800+

LOT 526

50C 1936 OREGON. PCGS MS68 CAC

Tied for the FINEST 1936 Oregon half dollar graded by either PCGS and NGC, and it is no surprise. The eye appeal of this SUPERB coin is exceptional! A bold, swirling luster blooms and enlivens the multihued, pastel iridescent toning. All the devices are sharply struck and fully defined on both sides. This jewel is the epitome of what an Oregon should look like!

PCGS 8, NGC 7, CAC 12. The mintage was only 10,006 and there are NONE FINER. We sold one for \$8,813 in our December 2016 Regency Auction. This coin will certainly see spirited bidding when it crosses the block. You WILL NOT FIND a higher grade piece!

PCGS #9345 | EST: \$5,500+

LOT 528

50C 1936 ROBINSON. PCGS MS67 CAC

Very nicely preserved superb GEM with great luster and pleasing iridescent toning on both sides. The eye appeal is exceptional.

PCGS 84, NGC 33, CAC 23. The current PCGS Price Guide value is listed at \$1,350 and the most recent example brought \$1,528 in a June 2017 auction. Only five coins are graded finer. Good luck!

PCGS #9369 | EST: \$1,200+

LOT 529

50C 1938-D TEXAS PCGS MS67+ CAC

Among the very finest examples of this date certified by PCGS, only two coins have received higher grades. The eye appeal of this SUPERB GEM is amazing. The obverse sees a dusting of iridescent pewter-silver and russet patina—which is the sort of look Texas halves usually have. But when you flip this lustrous coin over, and the reverse is blanketed in a rich melange of rainbow hues that blend over the intricate and well struck details. Stunning carmine, olive, magenta, aubergine, and teal hues create a stunning palette of color! Only 3,775 were struck.

PCGS 122, NGC 117, CAC 57. We cannot find an example that looked like this that sold in auction. The eye appeal is stunning and should bring a very strong price. Good luck, we can see a very spirited bought of bidding when this one crosses the block!

PCGS #9395 | EST: \$2,000+

LOT 530

50C 1925 VANCOUVER. NGC MS67+ CAC

A beautifully toned and satiny lustrous SUPERB GEM Vancouver. Rich blue, rose, gold, teal, and coppery hues blend over near flawless surfaces imparting a bold and impressive eye appeal.

PCGS 67, NGC 60, CAC 32. This is just one of four graded MS64+ at NGC and only a single MS68 is finer. None of the NGC coins have ever sold in auction, but three PCGS MS67+ examples have sold, each bringing around \$4,700. This SUPERB GEM has a great look and should see strong bidding!

PCGS #9399 | EST: \$2,600+

LOT 531

50C 1927 VERMONT. PCGS MS67+

One of the FINEST graded by PCGS, certainly within the condition census for this early commemorative half dollar. Both sides of this SUPERB GEM are awash in rich autumnal hued toning; shades of crimson, tangerine, and hints of green blend together majestically. The eye appeal and technical quality are superb!

PCGS 3, NGC 1. None have ever sold in auction. The finest graded PCGS coin to have ever sold in auction is a MS67. An NGC MS68 sold for \$12,925 in March 2006—that was AGES ago! If you are a toned commemorative specialist this coin presents a very important opportunity for you. There is only a single coin graded finer, a MS68+ which is currently off the market, making this one of the BEST out there!

PCGS #9401 | EST: \$11,000+

LOT 532

50C 1950 BOOKER T. WASHINGTON PCGS MS67 CAC

We marvel at the quality of this coin. Booker T. Washington's are one of the hardest coins to find nice. This coin is more than worthy of its lofty designation!

Absolutely clean surfaces are lightly semi-prooflike. They also emit a super strong luster. Both sides have a pretty light and totally ORIGINAL pale green/gold tint (not haze or dull). All of the details are above average in strike and do stand out. The eye appeal is very pretty!

ONLY 6,000 were minted. PCGS 23, NGC 13, CAC 6. Think about the pops-and that is after 25+ years and several MILLION coins graded between the two services. The last one to sell in major auction brought \$1,645 in November 2016, way off the \$8,625 one realized in November 2012. Do not let the pops fool you, in MS67, these simply are never offered for sale! Opportunity knocks loud here is you are building an exceptional Commem Type or 144-piece set!

LOT 533

50C 1952 WASHINGTON-CARVER. PCGS MS67 CAC

A kaleidoscope of color hypnotizes the viewer. The rich pastel hues bring out every well struck device and is back lit by a superb satin mint bloom. The eye appeal is truly superb! You will NOT find another that looks like this!

PCGS 22, NGC 34, CAC 23. Only a half a dozen pieces are graded finer, with five in 67+ and a single coin in 68. Spectacularly toned examples have sold for as much as \$9,400; although they generally sell in the \$2,500-\$3,000 range. This one is bound for one of the finest collections of toned commemoratives! Bid liberally to win this jewel!

LOT 534

G\$1 1903 LOUISIANA PURCHASE. JEFFERSON. PCGS MS67+ CAC

A simply fantastic, virtually perfect SUPERB GEM is among the FINEST GRADED. Bold luster brings out the richly toned golden surfaces. Each detail in Jefferson's left facing portrait is fully and crisply defined and the surfaces are free of any distracting lines or ticks, visible to the naked eye or under close inspection with a strong loupe. There are NONE graded higher.

PCGS 134, NGC 97, CAC 56. There are only 9 coins graded in MS67+. Only two examples have sold in auction, the most recent in the 2016 ANA auction, for \$6,169 and before that one sold for \$8,226 in April 2016. The current PCGS Price Guide value is listed at \$9,000. Bound for the FINEST set of early gold commemoratives!

PCGS #7443 I EST: \$7,000+

LOT 535

G\$1 1903 LA PURCHASE, MCKINLEY. PCGS MS67+ CAC

A visually and technically STUNNING superb GEM. This little jewel is just oozing with rich originality. Among the finest graded by PCGS, this piece boasts a brilliant golden surface that drips with a reddish hue over exceptionally gorgeous gold color. Every tiny detail is struck up with full precision and is exacting in its definition. Even the tiny mint made die polish lines are visible in the fields, suggesting an early striking before they wore off the surface. Although 125,000 were initially authorized, the reported net mintage is listed at 17,500 the remaining pieces melted due to poor sales.

PCGS 123, NGC 124, CAC 60. PCGS has graded 9 in MS67+ with a mere coins finer (the most recent MS68 to sell brought a robust \$25,850 last year). The current PCGS Price Guide value is listed at \$8,250 and this coin is truly worthy of a premium bid!

PCGS #7444 | EST: \$6,500+

LOT 536

G\$1 1916 MCKINLEY. PCGS MS67+ CAC

Tied for the FINEST graded at PCGS! Satiny medium, wheat-gold surfaces show a bold glowing luster. Well struck devices have full definition. The eye appeal is superb.

PCGS 101, NGC 82, CAC 18. There are a mere seven coins in this lofty grade, with NONE FINER. The most recent example sold for \$9,988 in an April 2016 auction sale and the current CU value is listed at \$9,000. The eye appeal of this virtually perfect coin cannot be beat! Bid liberally!

LOT 537

\$2.50 1915-S PANAMA-PACIFIC. PCGS MS66+ CAC

You can easily tell this GEM original piece was sitting in a Pan Pac set for quite some time.

The surfaces are incredibly clean and are satiny smooth. Only using a strong glass can you detect a few light frost breaks. The luster is more typical for a Pan Pac-moderate but you can see some shine. Both sides are bathed in an totally original gold color. There are NO spots or discolorations. All of the details are sharply struck and do stand out. The eye appeal is superb!

PCGS 462, NGC 546, CAC 176. PCGS has graded 20 coins MS66+, and it was in 2014 was when the last two PCGS CAC pieces sold. They realized \$6,462.50 in November 2014 and \$9,106 in January 2014. Remember, 2014 is a forever ago! This coin will be a great addition to ANY GEM Gold Commem set.

PCGS #7450 | EST: \$6,000+

LOT 538

\$2.50 1926 SESQUICENTENNIAL. PCGS MS65+

A lustrous GEM with light gold color and a few teeny ticks noted for accuracy. Some natural copper spots attest to the originality.

Well struck with a bold vibrant luster that supports a bold eye appeal.

PCGS 32, NGC 16. The last one sold for \$1,763 in a July 2017 auction, and the current CU value is \$2,650. VERY SCARCE in MS66, and RARE any finer.

PCGS #7466 | EST: \$1,400+

1C PCGS PR67 RD

Both sides have a light iridescent patina that is gorgeous to behold.

5C PCGS PR67+

A rainbow toned MOOSE. Beautifully toned and well deserving of its "+" grade.

10C PCGS PR67 CAM

A lovely cameo GEM with bold contrast

25C PCGS PR67

Rich watery mirrors have some iridescent silver white tone.

50C PCGS PR67 CAC

Truly a superb looking example of the first year of PR Franklin halves.

LOT 539

1950 PROOF SET. PCGS PR67

From the Dale Larsen Collection. This set is way superior to what you typically see. Every coin is PR67 graded by PCGS.

The Nickel on its own would see very strong bidding from toned collectors. The other coins are all very impressive on their own as well. We can see intense bidding when this set crosses the block.

PCGS #3359 | EST: \$2,000+

**LOT 540****\$1 1988 SILVER EAGLE. PCGS MS68**

From the Rainbow Warrior Collection. Luscious tangerine, rose, and lemon hues surround a stunning silver center and enlivened by a brilliant mint luster. The eye appeal is spectacular.

PCGS #9816 | EST: \$1,000+

**LOT 541****\$1 1990 SILVER EAGLE. PCGS MS68**

From the Rainbow Warrior Collection. Dazzling fuchsia, emerald, and electric yellow toning form rings around the shimmering untoned, silver centers. Amazing mint luster and exceptionally eye appealing.

PCGS #9836 | EST: \$1,000+

**LOT 542****\$1 1998 SILVER EAGLE. PCGS MS68**

From the Rainbow Warrior Collection. This coin has such a fabulous orange and reddish tone, with just a touch of green, inspiring our nickname for it "Sunset in the Orange Grove."

PCGS #9929 | EST: \$1,000+

**LOT 544****\$1 1998 SILVER EAGLE PCGS MS69**

From the Rainbow Warrior Collection. Satin brilliant silver centers are surrounded by orange, emerald, rose, and pinkish toning. With its spectacular eye appeal we can see a record price realized by this stunning coin.

PCGS #9929 | EST: \$1,000+

**LOT 543****\$1 1998 SILVER EAGLE PCGS MS68**

From the Rainbow Warrior Collection. Spectacular, warm autumnal iridescent toning in shades of orange, olive, magenta, and gold all blend together beautifully on both sides, forming a target around brilliant silver centers.

PCGS #9929 | EST: \$1,000+

**LOT 545****\$1 2004 SILVER EAGLE. PCGS MS68**

From the Rainbow Warrior Collection. The cobalt, azure, teal hues blend to magenta and orange that stop at a comet looking streak of the original silver at the center. A frame of color creates a halo around the reverse.

PCGS #9970 | EST: \$1,000+

LOT 546

\$1 2002 SILVER EAGLE. PCGS MS69

From the Rainbow Warrior Collection. Mother nature works in mysterious ways when it comes to imparting her magic. The central obverse is untoned in an elliptical shape with SUPERB color around. Likewise the reverse has a brilliant center that makes a spotlight effect on the eagle. Ultra eye appealing!

PCGS #9959 | EST: \$1,000+

LOT 548

\$1 2000-P SILVER EAGLE. PCGS PR68 DCAM

From the Rainbow Warrior Collection. The mirrors beam from below golden-olive patina at the rims and rich, seductive magenta that rings around the bold central silver devices. The eye appeal is superb.

PCGS #99949 | EST: \$1,000+

LOT 547

\$1 1986-S SILVER EAGLE. PCGS PR68 DCAM

From the Rainbow Warrior Collection. Sultry orange color frames the beaming mirrored fields and frosty devices. First year of issue for the series.
